2023 International Undergraduate Course Guide
UTS is a member of the Australian Technology Network (ATN), an influential alliance of six distinctive and prominent Australian universities. ATN is committed to forging partnerships with industry and government to deliver practical results through focused research. The Network educates graduates who are ready to enter their chosen profession, dedicated to the pursuit of knowledge and eager to claim a stake in building sustainable societies of the future.
At the University of Technology Sydney, we think differently. We take a global approach to education, driven by innovation and social justice.

* THE & QS World University Rankings 2022
Welcome to Sydney

Imagine waking up in Australia's most dynamic, cosmopolitan and dazzling city. Home to beautiful beaches, a bustling CBD and some of Australia's most famous landmarks - Sydney's got it all.
Opportunities on your doorstep

At UTS, you’ll study in the heart of Australia’s business capital. Sydney hosts more than 60 per cent of regional technology operations and more than 90 per cent of banks base their regional headquarters here. It’s also the place to be an entrepreneur, with 60 per cent of Australia’s start-ups. UTS is located in Sydney’s energetic digital and creative industries hub, home to more than 40 per cent of Sydney’s digital and creative industries.

Safe and friendly

Sydney is a diverse and vibrant city, with more than 35% of the population speaking a language other than English at home*. It’s one of the reasons more than 260,000 international students** choose to study in New South Wales each year. As an international student, you’ll be welcomed into a respectful and multicultural community.

Connected to everything

At UTS, you’re only a few minutes’ walk away from Sydney’s transport hubs: Central Station and Railway Square. There are plenty of clean, reliable and safe transport options connecting you to the rest of our great city, including buses, trains and trams. UTS is also walking distance to the CBD, Darling Harbour, shopping, food, sport, culture and nightlife.

*City of Sydney, 2020
**StudyNSW, 2018
In the heart of it all

Located in the centre of Sydney’s digital and creative precinct, UTS is part of a truly global city.

The UTS difference

Do you dare to think differently? When you study at UTS, you join a dynamic community of students, staff and industry partners who are committed to creating innovative solutions to tomorrow’s problems.

Learning for the real world
Nothing prepares you for the real world like industry experience. That’s why hands-on, practice-based learning experiences are key to our courses. Major projects, group work, simulations and real-life case studies are key to our practice-based approach, giving you the skills you need to impress future employers.

Campus of the future
UTS is situated in the heart of Sydney’s technology and industry precinct: Tech Central. Our tech-driven, purpose-built spaces will inspire you to learn. When you’re not in class, enjoy our student spaces and relax on the Alumni Green.

Connections that count
We continue to build extensive industry connections with organisations across a range of sectors. Our industry partners help us shape our course content. They also provide guest lectures, internships, scholarships and prizes, so everything you study reflects the real world of work.
Research that matters
We believe universities should work for the greater good by driving social change beyond the campus. When you choose UTS, you'll join a community of inspired – and inspiring – students, academics and creative industries who are shaping the future through research and practice on a local and global scale.

Building global leaders
We have many opportunities to help you develop a global mindset and build the professional skills needed for a truly international career. Put these skills into practice with an overseas or virtual global experience as part of your UTS degree.

Our campus

Located in the heart of Sydney, our purpose-built campus has transformed the Broadway precinct – and it’s designed to transform your study experience too.

UTS Broadway campus

Our Broadway campus is home to state-of-the-art teaching facilities, world-class labs, vibrant student spaces, a brand new library and the green heart of our campus – the Alumni Green. Our newest addition, UTS Central, is a hub of activity that reflects our commitment to learning innovation, industry collaboration and sustainability.
UTS Haymarket campus

Haymarket, an historic district next to Sydney’s Chinatown, is rapidly transforming into a hub of creativity and entrepreneurship. It’s best known for the Frank Gehry-designed UTS Business School where dynamic learning, research and collaboration comes to life.

UTS Moore Park campus

Moore Park is Sydney’s premier sporting precinct. Home to the Rugby Australia Building, this state-of-the-art sport and education hub represents the first time that university programs have been integrated within an Australian elite sporting precinct.
Our facilities

Study in award-winning labs and collaborative classrooms and work with the tools and technologies that are shaping your industry.

Data Arena
Data comes to life in the interactive UTS Data Arena, a unique 3D environment for the exploration and visualisation of complex information. Stereo, video and incredible picture clarity make for a one-of-a-kind immersive experience.

ProtoSpace
This unique 900m² additive and advanced manufacturing facility is part of UTS’s commitment to next-generation manufacturing. With the latest in 3D technologies, software and technical expertise, this lab is a learning experience that’s second to none.

Clinical labs
Prepare for real-world clinical practice in some of the most advanced health learning spaces in Australia. Treat high-fidelity robotic patients in our tech-driven simulation and laboratory spaces for nursing and midwifery students - just watch out for their (very life-like) bodily fluids!
Fashion studio
This dedicated studio houses spaces for patternmaking, cutting, construction and more. Throw in mannequins, industrial sewing machines and a range of fabrication equipment and you’ll have everything you need to bring your first fashion collection to life.

Moot courts
Practise your advocacy and mooting skills in our purpose-built moot and trial courts. These simulated facilities have been designed to reflect the real-life experience of arguing the law in the NSW Supreme, District and Local courts.

Hive Superlab
This world-class collaborative bioscience lab can accommodate up to 270 students in up to seven different classes, simultaneously. Specialist audiovisual facilities, including bone-conduction headphones, enable simultaneous teaching instruction and peer collaboration.

Learn more about our specialist facilities
uts.edu.au/campus-specialist-facilities
Leap into life at UTS

At UTS, we prepare you for life, not just work. And there’s a world of opportunity waiting for you on campus.

Connect with industry while you study. Preview your collection at the UTS Fashion Show, build a business with UTS Startups or prototype new solutions to modern legal challenges with an industry-led hackathon.

Unleash your inner entrepreneur with UTS Startups. No matter which degree you study, you’ll be inspired with events, masterclasses, internships, and the opportunity to join our fast-growing startup community.

Think global. At UTS, we’re preparing students to become global leaders through programs like UTS BUILD and global exchange. Explore global issues, develop a global mindset and build the professional competencies – interpersonal, communication and teamwork skills - required for a truly international career.
Join Team UTS. Whether you’re looking for competitive sports, a recreational game or to get fit in a supportive gym environment, UTS Sport can help your inner athlete shine.

activateuts.com.au/sport

Start planning your future. Turn your abilities and experiences into a meaningful career with support from UTS Careers. With face-to-face and online events, workshops, industry mentoring and career coaching sessions throughout the year, you’ll be ready to land that dream job or internship in no time.

careers.uts.edu.au

Get social with ActivateUTS. Join one of more than 300 events every year, make new friends at O’Day or O’Fest, enjoy livestreamed uni sports, or get your friends together for themed trivia or free food events, to name a few.

activateuts.com.au/events

Find your people. Whoever you are, whatever you’re into there’s a UTS club or society for you. With online and face-to-face events now on offer, there are countless ways to get involved.

Leap into life at UTS
Support services

We’ve got a range of free support services to help you settle into life at UTS. Become a confident learner, improve your academic English and maintain your wellbeing throughout your studies.

Dedicated support. You’ve travelled a long way from home to be here. At UTS International, we’re here to help you settle in, stay happy and healthy, and achieve academic success. We provide friendly advice and assistance to all international students. You’ll find us in UTS Building 1, Level 3A.

international.uts.edu.au

Getting started. Orientation is your chance to learn about our support services, make friends and gain insider tips on living in Sydney. Join us for seminars, workshops, tours and social events online and on campus. Look out for our friendly Peer Networkers; they’re there to answer questions and help you find your way around campus!

orientation.uts.edu.au
Study support. We all need a bit of extra support with our studies at times. At UTS, we provide you with tailored support to develop your academic and professional language skills while you study. UTS HELPS can also help you develop your writing, reading and speaking skills through free one-on-one consultations, workshops and informal conversation classes.

helps.uts.edu.au

Taking care of your health. The UTS Health Service is our on-campus medical centre offering free and confidential consultations for students and alumni. There’s also our free and confidential counselling service to help you through the pressures of study, work and life.

uts.edu.au/current-students/support
Careers

As a UTS student, you can access timely and tailored career advice, no matter where you are. We offer a variety of workshops, events, tools and resources to help you along your career journey.
Connect with our community

**Group sessions.** Access small, informal group conversations with your peers and a UTS Careers Consultant on various career topics.

**Workshops.** Learn how to design a fulfilling career, write a stand out resume, find job opportunities, refine your interviews skills and more.

**Industry events and experiences.** Attend industry panels, group mentoring sessions, careers fairs and discipline-specific initiatives

**Mentoring.** Connect with people working in your industry who genuinely want to help you via our Professional Mentoring Platform

Access online tools and resources

**Rate My Resume.** Have your resume reviewed instantly, anywhere, anytime with our free resume review platform.

**CareerHub.** Kickstart your job search with Careerhub; your go-to place for job and internship opportunities, resources and events.

**Virtual work experience.** Get experience with top companies before you graduate by completing any number of virtual work experiences – free for all UTS students.

**Careers blog.** Find career advice and life hacks from our community. Get published by sharing your internship or job experiences so far.

**Additional resources.** Access our range of resources anywhere, anytime, including our video interview practice tool, job application workbooks, career advice playlists and more.
Scholarships

UTS is dedicated to supporting your studies through one of Australia’s most generous scholarship programs for international students.
Undergraduate scholarships and grants
int-scholarships.uts.edu.au
We offer a range of scholarships for high-achieving international students, including full tuition fee and partial tuition fee scholarships and grants. Most scholarships are awarded on the basis of academic achievement.

Faculty scholarships
uts.edu.au/scholarships
Many UTS faculties offer international scholarships to reward achievement and recognise motivation to succeed. These scholarships are always evolving, visit our website for the latest information.

Australian Government scholarships
dfat.gov.au/people-to-people/australia-awards
The prestigious Australia Awards International Scholarships and Fellowships offer emerging global leaders an opportunity to undertake study, research and professional development in Australia. Funded by the Australian Government, the awards help international students gain qualifications to contribute to development success back home.

Alumni advantage
alumni.uts.edu.au/advantage
Already graduated from a UTS degree? If you’re thinking about returning to study at UTS, you could be eligible for a 10% saving on your tuition fees through the Alumni Advantage Program. This discount applies to full-fee-paying courses and will be applied automatically when you enrol!

Financial aid and loans
If you’re from Canada, Denmark, Germany, Norway, Sweden or the USA, you may be eligible for financial aid to support your studies at UTS. Check with your government for requirements.

Scholarships for UTS College Students
utscollege.edu.au/scholarships
UTS supports high-achieving international students completing the UTS College Diploma or UTS Foundation Studies and progressing to UTS to complete their undergraduate study.
Housing
**UTS-owned accommodation**

UTS’s student housing is called Yura Mudang. It is located close to campus and has a spacious communal and barbecue area, study rooms, games and computer rooms and a music room.

UTS Housing is self-catered, secure and competitively priced. Most bedrooms are for one person (except twin shares), with shared kitchens, bathrooms and living areas. Apartments are fully furnished and rent includes gas, electricity, water, cabled internet in bedrooms and limited wireless internet access in communal areas. You will need to provide your own bed linen and cooking equipment.

**Renting private accommodation**

If you are organising private accommodation, we recommend you arrange short-term accommodation in Sydney so you can view properties on your arrival and choose something that really suits your needs for the long-term. Visit UTS Housing’s off-campus accommodation website, to find share rooms in private houses and apartments around UTS: uts.studystays.com.au

Share accommodation means you usually have your own room and share a kitchen, living area and bathroom with other students or people who work. Alternatively, you may choose a studio or one-bedroom apartment to live in on your own, but this is more expensive.

All accommodation rentals should come with a residential or tenancy agreement. If you need any help or advice, please contact the UTS Housing Off-Campus Officer at housing.welfare@uts.edu.au or the UTS Student Legal Service at studentlegalservice@uts.edu.au who are here to help you.
Your way to UTS

UTS College is your alternative pathway to your dream UTS degree. Benefit from personalised academic support, small class sizes and practical learning designed to help you thrive at UTS and beyond.

View our programs
utscollege.edu.au/programs
Why choose UTS College

- Guaranteed entry to UTS when you successfully complete your UTS College program pathway*
- Gain credit points towards your degree as recognition of prior learning
- Most diplomas allow you to fast-track into second year at UTS**
- Personalised academic and wellbeing support in-person or available 24 hours online
- Reach your potential at UTS and beyond with our highly supportive, personalised, technology-led learning experience: Learning.Connected.

Your pathway to UTS

ACADEMIC ENGLISH

Develop the English language skills you need to succeed at UTS. With our Academic English program, you will have guaranteed entry^ into UTS Foundation Studies, UTS College Diploma programs, and UTS degrees, without the need to complete an IELTS test. Find out more about Academic English on page 27.

UTS FOUNDATION STUDIES

Delivered by UTS College on behalf of UTS, the UTS Foundation Studies program is specifically designed for international students who’ve completed year 11 or equivalent. The program enables you to develop your English language proficiency and broader knowledge skill sets to be ready for university. Find out more about UTS Foundation Studies on page 28.

DIPLOMAS

Guarantee* your place in a UTS degree with a UTS College diploma. Choose from six disciplines: business, communication, design and architecture, engineering, IT or science. Most of our diplomas can fast-track you to the second year** of a UTS undergraduate degree. Find out more about our diplomas on page 29.

* Based on completion of a diploma with no more than two subject failures (Only successful completion of the Diploma of Science is required for articulation to most Science degrees).
** Entry to second year of your UTS undergraduate degree depends on the course you choose.
^ English and academic entry requirements apply. Please refer to the courses page of our website for course information, entry requirements and articulation details. Successful completion of AELS satisfies the English Language Admission requirements for most UTS degrees. For specific details of UTS English entry requirements please refer to the individual faculty pages on the UTS website.

Academic English (Levels AE1-5) CRICOS course code 032410F.
UTS Foundation Studies CRICOS course code:
  2 Semesters (Standard) CRICOS course code: 082432G | UTS course code: C30019
  3 Semesters (Extended) CRICOS course code: 082433G | UTS course code: C30020.
Your pathway to UTS

UTS College offers a range of alternative pathways to UTS. Whether you need to improve your academic English or want to guarantee your place in a UTS degree - we can help.

Path 01
High School (Year 11 or equivalent) → Academic English (if required)* → UTS Foundation Studies 8 or 12 months → UTS degree 1st Year

Path 02
High School (Year 11 or equivalent) → Academic English (if required)* → UTS Foundation Studies 8 or 12 months → Diploma 8, 12 or 16 months → UTS degree 1st Year or 2nd Year

Path 03
High School (Year 12 or equivalent) → Academic English (if required)* → Diploma 8, 12 or 16 months → UTS degree 1st Year or 2nd Year

Path 04
High School (Year 12 or equivalent) → Academic English (if required)* → UTS Undergraduate degree

* You will only be required to enter a UTS College Academic English program if you do not meet the English language entry requirements.
** Based on successful completion of your UTS College program and depends on the program you choose. See website for more details.
# This pathway is only available if you achieve the required Grade Point Average (GPA).

"After completing my UTS College diploma and then going on to study at UTS for four years, I've become a confident and proactive thinker. It's an important skill to have when running your own company."

Jason (Tianyang) Xie
China
Founder of AmazingLP
Academic English

Our Academic English language programs help you to develop the language skills required to succeed at university and in your future career.

Build confidence in small classes
Learning in a small class means you can get more individual attention. Our English classes have an average of 16 students, so there are many opportunities to ask questions and connect with teachers for extra help and support. You’ll also have exclusive access to our HELPS Centre, which offers a wide range of specialist resources for learning English. These also include a suite of online resources and support available 24 hours a day, 7 days a week, to ensure you have support when you need it.

Learn from the best
You’ll become a confident communicator who feels comfortable with the English language. Mastering Academic English will develop your reading, writing, listening and speaking skills. Our teachers are qualified and experienced in TESOL, which means you’ll be taught by some of the best English teachers in Australia.

Direct entry to university*
When you complete our Academic English program, no further IELTS or TOEFL tests are needed. Once you achieve the required English proficiency, you are guaranteed entry* into UTS Foundation Studies, UTS College diploma programs, and UTS degrees, without the need to complete IELTS or TOEFL tests.

* Based on a PASS mark in AE level 3 for entry to UTS Foundation Studies, a PASS mark in AE Level 4 for entry to Diploma and a PASS mark in AE Level 5 for entry to most UTS degrees.

Our Academic English programs can be studied at UTS College in Sydney or Sri Lanka, or with one of our partners in China, South Korea, Myanmar and Vietnam.

Find out more about Academic English
utscollege.edu.au/english-language-programs
Many international students choose to start with UTS Foundation Studies as the gateway to tertiary education in Australia.

The UTS Foundation Studies program is delivered by UTS College on behalf of UTS. The program is offered as a Standard program (2 semesters) or an Extended program (3 semesters).

The Standard 2-semester program is recommended if you are more confident in your English language proficiency and academic skills, and need to prepare further in order to articulate to UTS or a UTS College diploma program*.

The Extended 3-semester program provides additional opportunities for you to develop and consolidate your English language and academic skills before you progress to UTS or a UTS College diploma program*.

UTS Foundation Studies can be studied at UTS College in Sydney or Sri Lanka.

Find out more about UTS Foundation Studies
utscollege.edu.au/uts-foundation-studies

* Based on completion of the UTS Foundation Studies program with the required GPA.

UTS Foundation Studies (2 Semesters, Standard) CRICOS course code 082432G, UTS course code C30019.

UTS Foundation Studies (3 Semesters, Extended) CRICOS course code 082433G, UTS course code: C30020.

UTS Foundation Studies is a UTS course, delivered by Insearch Limited (UTS College), on behalf of UTS. The UTS Foundation Studies program meets the requirements for Foundation Programs which have been registered on CRICOS for delivery in Australia providing academic preparation for entry into first year undergraduate study for overseas students.
A UTS College diploma guarantees* your way to a UTS degree, with most diplomas allowing you to fast-track to the second year of your UTS degree**.

You’ll study the same content as first year UTS students and have the option to complete your diploma over a timeframe that suits you^:

- **Accelerated (8 months)** – the fastest way to UTS, but with an intense workload.
- **Standard (12 months)** – same content as Accelerated but the workload allows you more time to adjust to Australian education expectations and prepare for UTS.
- **Extended (16 months)** – same content as Accelerated and Standard diploma students, plus Academic English and enabling subjects to help you prepare for UTS.

Your UTS College diploma is designed in collaboration with UTS and is the perfect way to prepare for your UTS degree. Choose from:

- Business – see page 32
- Communication – see page 38
- Design and Architecture – see page 48
- Engineering – see page 64
- Information Technology – see page 74
- Science – see page 88

All diploma programs can be studied at UTS College in Australia. You can also study a selection of diplomas at UTS College in Sri Lanka, or through one of our partners in China, Indonesia or South Korea.

*For all diplomas except Diploma of Science, guaranteed entry is based on successful completion of your diploma with no more than two subject failures. For Diploma of Science, guaranteed entry to UTS is based on successful completion of your diploma for the program you choose at UTS.

**The point where you enter into your UTS degree will depend on your major. Not all majors will take you into second year.

^Students are required to meet the specified entry requirements for the program they choose.

Find out more about diploma programs
utscollege.edu.au/diplomas
Learn to think differently with a degree that responds to the changing business landscape – and to the disruption that’s shaping the workforce of the future.

CONNECTIONS THAT COUNT
What you know matters – and who you know does too. We’ll get you in the room with tomorrow’s business leaders through internships, lectures and networking events.

ON TOP OF THE WORLD
To be your best, you need to learn from the best. UTS Business School is accredited by The Association to Advance Collegiate Schools of Business. This means we’ve attained the highest standard of achievement for business schools worldwide, so you’ll get a globally recognised qualification.

AT THE HEART OF THE ACTION
Located in the heart of Sydney, we’re surrounded by Australia’s creative, start-up and technology industries – and by leading international companies.

Francisco Widjojo
Indonesia
Bachelor of Business
Bachelor of Laws

“UTS is very practical. At uni we created financial models and deconstructed different businesses; it got you in the mindset of how to break down business problems. That’s the more important thing; it’s all about the mindset and the attitude that you develop.”
Pathway to UTS Business School

UTS College Diploma of Business

The UTS College Diploma of Business guarantees your way to a UTS business or law degree, allowing you to fast-track to the second year of your UTS Bachelor of Business, Bachelor of Economics, or the first year of your Bachelor of Management or Bachelor of Laws.*

This program helps you to apply the fundamentals of business to real world situations through collaborative projects, critical thinking and problem-solving opportunities. With our personalised support, small class size and close ties to the UTS Business School, we create a seamless transition from diploma to degree.

Program benefits

- 48 credit points with guaranteed entry to UTS*
- Direct entry into second year UTS business degree, or first year UTS law degree*
- Focus on employability skills and real-world business theory

Leads to the following UTS majors

Business pathway to UTS

The pathway you take into UTS will depend on your English language proficiency and academic qualifications.

UTS Business beyond Australia

You can also study undergraduate Business at UTS in China. Our fully accredited off shore courses are taught at SHU-UTS SILC Business School (SILC) at Shanghai University.

uts.edu.au/study/international/offshore-courses
Bachelor of Business

Course Description
The Bachelor of Business offers students a sound background in all areas of business through eight common core subjects undertaken in first year. It also provides them with an opportunity to study one or more areas of interest via a major or an extended major undertaken from second year. The major provides them with in-depth knowledge in a business specialisation. Students could also undertake sub-majors or electives to complement this specialised knowledge.

Majors
Accounting, advertising and marketing communications, economics, finance, human resource management, international business, management, marketing.

As a second major only: business law, information technology.

Professional Recognition
To meet the educational membership requirements for entry into CPA Australia (CPAA), Chartered Accountants of Australia and New Zealand (CAANZ), Chartered Institute of Management Accountants (CIMA), Association of Chartered Certified Accountants (ACCA), and Institute of Public Accountants (IPA) students will need to complete the Accounting major and successfully complete subject 21644 Law and Ethics for Managers as either an elective or part of another major.

Students who complete the Human Resource Management major are eligible to apply for the professional member status and/or advancement to a higher level of membership of the Australian Human Resources Institute (AHRI).

UTS is recognised as an affiliated university under the CFA® (Charted Financial Analyst®) University Affiliation Program, based on the Bachelor of Business with Finance major. CFA Institute has affiliations with select universities around the world that have embedded a significant percentage (70 per cent) of the CFA® Program Candidate Body of Knowledge into their degree programs.

Completion of the Bachelor of Business with Finance major meets the education requirements for Affiliate membership and, in conjunction with work experience, the requirements for Associate membership with the Financial Services Institute of Australasia (FINSIA).

Course Structure
For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10026

Career Opportunities
The Bachelor of Business is a broad professional degree, equipping graduates to pursue careers across all business fields, industries and sectors. Examples of career options include accountant, auditor, banker, business adviser, business analyst, business consultant, economist, entrepreneur, financial analyst, financial planner, human resources manager, project manager, marketing specialist, stockbroker.

Course code: C10026
CRICOS code: 006487A
Course duration: 3 Years
Number of credit points: 144
Intake: Feb/Jul/Nov
Location: City campus
Fees: A$21,400 per session
Academic and additional requirements: See page 98
English language requirements: See page 101

The published fee is per session, based on a full-time, 24 credit-point study load.
Most subjects at UTS are valued at 6-8 credit points each. Refer to the online handbook for the most-up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

For honours and combined degrees, please see course summary tables (pages 108-125)
▲ Courses flagged with this icon include a work-based training component which must be undertaken as part of the course of study and refers to all clinical, professional and industrial or other work placements.

33
Bachelor of Economics

Course Description

The Bachelor of Economics offers students the analytical and quantitative skills required for an in-depth understanding of key economic principles. The degree complements this knowledge with the option of majors across selected business disciplines.

Areas of Study

Applied microeconometrics, behavioural economics, econometrics, economic policy, economics of the environment, experimental economics, game theory, industrial organisation, labour economics, macroeconomics, market design, microeconomics, monetary policy and central banking, public economics, time series econometrics. Students may also study a second major or sub-majors including business law, finance, management, marketing, information technology.

Course Structure

For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c10348

Career Opportunities

The Bachelor of Economics allows for a large spectrum of career options and employment opportunities in such roles as business consultant, data analyst, economist, economic analyst, econometrician, market analyst, policy analyst and researcher in various industries including banking, consulting, finance, insurance, public sector, resources sector, health, education, and others.

Bachelor of Management

Course Description

The Bachelor of Management provides integrated insights into the functions of professional enterprises in the experience economy and related digital industries. The program involves a combination of both theory and practice-oriented education, with the option of workplace internships. Offshore partnerships with established UTS university partners allow students to engage with the UTS exchange program in the later stages of their degree. Partnerships with industry bodies allow students to engage with practical projects, field visits, in-class case studies, and internships, all of which assist with prospects for graduate employment.

Majors

Digital creative enterprise, events, sport business.

Course Structure

For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c10342

Career Opportunities

Career options include digital and creative technologies entrepreneur, digital marketing director, digital strategist, digital channel manager, digital content manager, online community manager, digital project manager, digital marketing director, digital and creative industry business analyst, event and festival manager, conference and meeting manager, sport event manager, event marketing, public relations and sponsorship manager, venue manager, event tourism planner, sport management and marketing, sport event manager, venue and facility manager, sports developer, sport for development, sports administrator, athlete wellbeing, player union manager, athlete agent, sport media manager, sport sponsorship and promotions, operations manager, destination manager and marketing manager in government agencies (local, state, national and international levels).

**Career Opportunities**
The Bachelor of Economics allows for a large spectrum of career options and employment opportunities in such roles as business consultant, data analyst, economist, economic analyst, econometrician, market analyst, policy analyst and researcher in various industries including banking, consulting, finance, insurance, public sector, resources sector, health, education, and others.
Communication
New technologies, new platforms, new ways to connect - the media and communication industries are changing fast. Our graduates are ready to adapt to the opportunities of tomorrow.

**#1 EMPLOYMENT RATE***
We’re ranked first for overall employment for communication graduates in Sydney. This is thanks to our hands-on approach to learning, which ensures you graduate with a professional portfolio, ready for your first interview.

*Graduate Outcomes Survey (2016-2020)

**DOUBLE THE OPPORTUNITIES**
Our Bachelor of Communication allows you to double your expertise (and career opportunities) by completing two majors. This customisable program will help you stand out amongst other graduates.

**EXCLUSIVE MEDIA FACILITIES**
You’ll access purpose-built facilities, including television and film production spaces, industry-standard sound studios, a journalism lab and post-production editing suites. There’s no need to buy cameras or media equipment - you’ll be able to hire all of the gear you require for free.

---

Giorgia Rapella  
Italy  
**Bachelor of Communication (Journalism)**

“We get real opportunities to practise our skills. That’s what I really like. We build our own portfolio before finishing uni, to show off to the workforce when we’re ready to enter it. One of the assignments I’m working on is to design a brand strategy for a real-life company.”
Pathway to UTS Communication

UTS College Diploma of Communication

The UTS College Diploma of Communication guarantees your way to a UTS communication or law degree, allowing you to fast-track to the second year of your UTS Bachelor of Communication*. Choose one of two streams: Digital and Strategic Communication, or Media Business.

This program opens the door to a multitude of creative possibilities across digital and social media. Our small classes and personalised support give you the advantage and you’ll engage in real-world assessments that are aligned to first year UTS subjects for a seamless transition from diploma to degree.

Program benefits

- 52 credit points with guaranteed entry to UTS*
- Direct entry into second year UTS communication degree, or first year UTS law degree*
- Real-world assessments and technology-enabled learning

Leads to the following UTS majors

Strategic Communication, Digital and Social Media, Journalism, Media Arts and Production, Social and Political Science, Writing and Publishing, and Media Business.

Communication pathway to UTS

The pathway you take into UTS will depend on your English language proficiency and academic qualifications.

UTS College CRICOS provider code: 00859D
Bachelor of Communication (Journalism) ▲

Course Description
For those interested in investigating world issues like politics, climate change or global relations, and sharing them with the public, journalism is an exciting and broad career option. It combines skills in writing, production, research and critical thinking to develop students' capacities to frame world issues and affairs in accessible and relevant ways. UTS teaches journalism on the principle that it is a public good, and that any functional society requires a free and robust media. We encourage our graduates to be critical thinkers and train them in the ethical, intellectual, and political foundations needed to start their professional lives.

Areas of Study
Ethical practice, reflective practice, current journalism debates and issues, data journalism, photojournalism, digital publishing, reporting online, radio and TV journalism, journalism and scholarly research, long-form storytelling, social media reporting, and investigative journalism.

Professional Recognition
- Graduates are eligible to apply for professional level membership of the Media, Entertainment and Arts Alliance (MEAA).
- Students are eligible for student membership of the MEAA and access to the MEAA, Women in Media and Walkley Foundation network which provides skill development programs.
- The course is recognised by the MEAA and the Australian Press Council.

Course Structure
For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10361

Career Opportunities
To increase career flexibility, students can add a second major from five of the other majors offered in the Bachelor of Communication, and build further skills and portfolios that equip them for a range of work options in media and communication. These courses give students practical and transferrable skills for the expanding media industries.

Graduates leave with access to many career options, including reporter, producer, editor, social media editor, sub-editor, feature and freelance journalist, investigative journalist, researcher, and print, broadcast and online media content producer. In areas related to journalism, graduates may wish to pursue roles such as media advisors, communication consultants, content producers, or work in government and non-government organisations in a communication role.

Bachelor of Communication (Media Arts and Production)

Course Description
Designed for people passionate about films, filmmaking, and media production, the Bachelor of Communication (Media Arts and Production) at UTS equips students with the practical production skills and conceptual backing needed to enter the creative industries with a competitive edge. This hands-on course, designed and taught by leading practitioners in the Australian film and television industry, sees students produce a portfolio of media works encompassing short drama, documentary, animation, sound and the media arts.

Areas of Study
Media arts; documentary; drama; film; television; artists moving image; sound; editing; screenwriting; creative project development; producing; production management; aesthetics; experimental media; visual storytelling; and production.

Course Structure
For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10362

The published fee is per session, based on a full-time, 24 credit-point study load.
Most subjects at UTS are valued at 6-8 credit points each. Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).
For honours and combined degrees, please see course summary tables (pages 108-125)

Career Opportunities

To increase career flexibility, students can add a second major from five of the other majors offered in the Bachelor of Communication, and build further skills and portfolios that equip them for a range of work options in media and communication. These courses give students practical and transferrable skills for the expanding media industries.

Graduates leave as multifaceted media practitioners with a strong understanding of both form and function. They find work in all areas of media including film, TV, broadcast, music videos and content creation for advertising, marketing, and new digital media forms such as apps and social media. Practice-based learning ensures students develop a portfolio of work to show future employers or concepts that can be taken into the media market. Careers include traditional roles such as director, producer, scriptwriter, cinematographer, documentary maker, editor, sound designer and post-production specialist, to newer roles such as multimedia designer, social media specialist, multimedia and digital content producers and many more.

Bachelor of Communication (Strategic Communication)

Course Description

The Strategic Communication course at UTS will develop students' skills and knowledge for work in creative advertising, strategic public relations and the fast expanding related areas. Formerly known as 'Public Communication', the industry-focussed Bachelor of Communication (Strategic Communication) is taught by practitioners and leading researchers in the field, helping students to build the skills they need to enter the dynamic and diverse global communication industry. Students research, design and produce campaigns for issues and organisations, as well as develop their copywriting, media liaison and writing skills for digital, traditional and social media. They gain an understanding of the practical and theoretical bases for the work they do and its application to a variety of industries - from environmental to music to banking organisations - within the social, economic and political contexts in which they operate.

Areas of Study

Public communication; public relations; advertising; integrated communication; and branding.

Professional Recognition

This course has professional recognition from the Public Relations Institute of Australia.

Course Structure

For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10363

Career Opportunities

To increase career flexibility, students can add a second major from five of the other majors offered in the Bachelor of Communication, and build further skills and portfolios that equip them for a range of work options in media and communication. These courses give students practical and transferrable skills for the expanding media industries.

Career options include communication strategist, advertising account executive, advertising copywriter, social media strategist, community relations manager, marketing communication specialist, media liaison officer, political media advisor, public relations consultant, publicity officer, and many more.
Bachelor of Communication (Social and Political Sciences)

Course Description
The Bachelor of Communication (Social and Political Sciences) at UTS is designed for those passionate about influencing key areas of public policy like climate change, human rights or issues facing Indigenous Australians and migrants. In the course, students explore current social issues, investigate society and analyse the implications of change in Australian and global communities. In this practice-led course, students work with experienced practitioners to develop their skills as researchers, analysts, critical thinkers, effective communicators and advocates, and bring key policy issues to life with their interpersonal and public communication skills.

Areas of Study
Using theory from politics, sociology and political economy; analysing social and political change; using real-world social research and research methods; developing policy analysis and advocacy; communicating policy and producing online publications; project research with an outside organisation.

Course Structure
For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c10364

Career Opportunities
To increase career flexibility, students can add a second major from five of the other majors offered in the Bachelor of Communication, and build further skills and portfolios that equip them for a range of work options in media and communication. These courses give students practical and transferable skills for the expanding media industries.

Career options include research in think tanks and academia, policy research, analysis and program management in government and private organisations, management of social services and welfare organisations, and advocacy in a variety of fields, such as environmental, Indigenous affairs, human rights, overseas development, and trade unions.

Bachelor of Communication (Writing and Publishing)

Course Description
For those with an interest in different forms of creative writing and publishing, this practice-based course provides the skills and industry knowledge to work in the field. The Bachelor of Communication (Writing and Publishing) at UTS is an industry-led course, designed and taught by a team of award-winning published authors, editors, scholars and industry professionals. Writing and Publishing builds students' knowledge of Australian and global publishing contexts, as well as writing and storytelling across an array of formats, like fiction and nonfiction, screenwriting, digital content and games. Students also develop strengths in critical thinking, research, editing and publishing and storytelling in broader contexts – all skills transferable to a wide range of industries and careers.

Areas of Study
Fiction writing, creative non-fiction writing, narrative, genre writing, poetry, screenwriting, critical analysis, textual theory, editing, commissioning, social media, marketing.

Course Structure
For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c10369

Career Opportunities
To increase career flexibility, students can add a second major from five of the other majors offered in the Bachelor of Communication, and build further skills and portfolios that equip them for a range of work options in media and communication. These courses give students practical and transferable skills for the expanding media industries.

Graduates of this course have found work as writers of fiction and nonfiction in a variety of forms, both as freelance writers and in media organisations. These skills are transferable to careers in communication and marketing, and in organisations with communication processes, such as government, NGOs, industry and cultural groups.
Bachelor of Communication (Digital and Social Media)

Course Description
One of the first communication courses to focus on social media and digital technologies, the Bachelor of Communication (Digital and Social Media) at UTS ensures students become capable practitioners of the modern formats of digital communication. This rapidly evolving industry requires workers to be technologically literate, culturally aware, and innovative, with an ability to analyse and develop solutions to problems using digital media technologies. In the course, students are introduced to key debates around the role of social media as a communication tool, and its prevalence in day-to-day affairs. They also develop transferable, practical skills in social media management, user experience (UX) and user interface design (UI), and data visualisation and analysis.

Areas of Study
User experience design, user interface design, digital research methods, digital audience analysis, data analytics, social media platforms, digital media metrics, app design, social media campaigns.

Course Structure
For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c10371

Career Opportunities
To increase career flexibility, students can add a second major from five of the other majors offered in the Bachelor of Communication, and build further skills and portfolios that equip them for a range of work options in media and communication. These courses give students practical and transferrable skills for the expanding media industries.

Careers in the growth area of digital and social media are far-reaching and present in many industries, from small businesses to large corporations, in both freelance and in-house digital marketing departments. Job options include social media manager, UX/UI designer, digital campaign manager, prototype designer, digital entrepreneur, digital marketing specialist, policy analyst, communications officer, and more.
Bachelor of Communication (Media Business)

Course Description
For students who see themselves developing or managing a contemporary media business, the new Bachelor of Communication (Media Business) has been designed to help them cultivate the core management and communication skills for leadership in media industries. In response to industry demand, the Bachelor of Communication (Media Business) has been created for students with an interest in any aspect of media production, from film and TV, to advertising, music, games, online content, and more. This course equips students with the necessary business skills to be successful in their chosen field. With a basis in ethical and effective practice, they develop an understanding of how power, influence, economics, and legal obligations affect media processes and content creation.

Areas of Study
The intersection of media, law and ethics; dynamics and logics of media influence; branding; entrepreneurial skills; fundamentals of management and business finance.

Course Structure
For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c10451

Career Opportunities
To increase career flexibility, students can add a second major from five of the other majors offered in the Bachelor of Communication, and build further skills and portfolios that equip them for a range of work options in media and communication. These courses give students practical and transferrable skills for the expanding media industries.

Career options are extensive, with the skills developed in the course applying to many creative industries. Graduates can pursue business careers within music companies, television and film production companies, advertising agencies, games companies, online and web platforms, and many others. Roles would focus on business development, strategic planning, promotion, policy, and consultancy.

Bachelor of Music and Sound Design

Course Description
The Bachelor of Music and Sound Design at UTS is built on the understanding that good practitioners have a strong base in artistic, professional and theoretical skills. Combining the domains of music, sound and screens, the Music and Sound Design course focuses on developing real-world skills for the digital sound industry, giving students the ability to apply their craft to films, TV, games, online platforms and music production. Students learn from leading industry figures - such as sound designers, songwriters and producers - in this practice-led course.

Areas of Study
Popular music production, sound design, audio engineering, screen sound, songwriting, music technology, podcasting, music business.

Course Structure
For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c10276

Career Opportunities
Possible careers are varied and include working in sound design and music production across a range of media like television, advertising, film, web and digital media. Careers as a composer, sound engineer, or music business professional are open to graduates of the Bachelor of Music and Sound Design.

The published fee is per session, based on a full-time, 24 credit-point study load.

Most subjects at UTS are valued at 6-8 credit points each. Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

For honours and combined degrees, please see course summary tables (pages 108-125)

Bachelor of Construction Project Management

Course Description
The Bachelor of Construction Project Management delivers the management, technology and process skills required to work in a variety of well-paid roles across the full spectrum of construction projects. Students are taught a wide range of project management methodologies with a strong focus on applying these to real-world projects. This knowledge can be applied in other industry sectors, providing further employment opportunities.

Sub-Majors

Professional Recognition
This course is accredited by the Project Management Institute (PMI); Royal Institution of Chartered Surveyors (RICS); Australian Institute of Quantity Surveyors (AIQS); Australian Institute of Building (AIB).

The course is also recognised by the Chartered Institute of Building (CIOB) and endorsed by the Australian Institute of Project Management (AIPM).

Course Structure
For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10214

Career Opportunities
Career opportunities include project manager, construction manager, construction economist, quantity surveyor, design manager, environmental manager, contract manager, site manager, construction programmer, cost engineer, estimator, facility manager and property developer.

Graduates have a wide range of employment opportunities and can work in both the private and public sectors for employers such as building proprietors, contractors, developers, government bodies and consultancy practices or be self-employed entrepreneurs. As key professionals in the construction industry, graduates work closely with other professional disciplines, industry groups and development authorities.

Bachelor of Design in Fashion and Textiles

Course Description
The Bachelor of Design in Fashion and Textiles is an internationally recognised degree that gives students the start they need to pursue careers across all facets of the local and international fashion industry. The degree provides the conceptual knowledge and garment-making skills required to transform a creative vision into compelling fashion statements. Sustainability and social justice are threaded throughout the course.

Areas of Study
2D and 3D patternmaking approaches, conceptual thinking, experimental design, fashion design practice, fashion history, fashion research, global fashion studios, menswear, sustainable fashion, textile design practice, womenswear.

Course Structure
For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10306

Career Opportunities
Career options include fashion designer, textile designer, fashion producer, art/creative director, print designer, pattern cutter, fashion stylist and fashion forecaster. Some graduates start their own business, while others work in an established company locally or with larger international brands. Graduates can also work in fashion media, including marketing, public relations and journalism roles.
Bachelor of Design in Interior Architecture

Course Description
The Bachelor of Design in Interior Architecture helps students to re-imagine interior environments and public spaces in local and global contexts. With a strong emphasis on people's experiences of spatial design, this degree equips students with the critical skills required to interrogate and transgress the traditional boundaries of commercial interior design.

Areas of Study
Experimentations with space and materials, inhabitation and human interactions to space, spaces and places of performance, industry practice and professional development.

Professional Recognition
Design Institute of Australia; International Federation of Interior Architects/Designers; Interior Design/Interior Architecture Educators Association (IDEA).

Course Structure
For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10271

Career Opportunities
Career options include commercial and residential interior design, adaptive re-use design, interactive and responsive environment design, museum and exhibition design, production design for film and television, theatre and performance design, and visual and spatial branding.

Bachelor of Landscape Architecture (Honours)

Course Description
The Bachelor of Landscape Architecture (Honours) is a four-year honours degree designed to develop skills in design, construction and management associated with natural and built landscapes.

Sub-majors

Areas of Study
Design of landscapes in urban and rural contexts, ecology, sustainability, graphic communications, hydrology, botany, professional practice, research.

Professional Recognition
The course is accredited by the Australian Institute of Landscape Architects.

Course Structure
For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c09079

Career Opportunities
This course equips graduates with critical thinking, creativity and the skills to engage across the expanded field of landscape design; take up leading roles in the design of all landscapes in urban and rural contexts; and pursue roles in land management and stewardship, architecture, and urban design.
## Bachelor of Design in Product Design

### Course Description

The Bachelor of Design in Product Design prepares students for a career in the global product design industry. Students learn how to tackle complex problem solving, explore creative solutions, and develop realistic outcomes that could make a mark on the world.

### Areas of Study

Contemporary and advanced concept design, design history, design thinking, experience design, industrial design, innovation and commercialization, interaction design, product engineering, user-centred design.

### Course Structure

For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10304

### Career Opportunities

Career options include design for all aspects of life, from the everyday to the critical, including commercial and industrial product development, sports technology, health, future transport, packaging, exhibition design, service design, and humanitarian work. Product designers can work for individual manufacturers, industrial design and specialist design consultancies, or start their own enterprises.

## Bachelor of Property Economics

### Course Description

For students thinking about a career in business, economics or property, the Bachelor of Property Economics provides the edge required to get started in a global industry.

### Sub-majors

### Areas of Study

Economics, investment, property taxation, valuation, finance, urban design, property development, business management, built environment law.

### Professional Recognition

Australian Property Institute (API); Royal Institution of Chartered Surveyors (RICS).

### Course Structure

For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10310

### Career Opportunities

Career options include property valuer, property and asset manager, property market analyst, property sales and acquisitions, property developer, funds manager, and corporate real estate adviser.
Bachelor of Design in Visual Communication

Course Description
This distinctive degree explores diverse forms of visual communication across design, culture and media. Visual communication students acquire in depth understanding of the histories, practices and meanings of the visual world. In turn, obtaining the visual knowledge and skills required to negotiate rapidly changing technology, visual media and culture while becoming skilled in apprehending the unprecedented pace at which visual images, visual technologies and information data are produced.

Areas of Study
Design thinking, typography, illustration, interactive design, web design, interaction design, branding, experiential design, moving image design, data visualisation, design for animation, strategic design, design history and emergent visual communication practices.

Course Structure
For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c10308

Career Opportunities
There are many career options in a range of fields for graduates, such as digital media, publication designer, graphic designer, interactive media designer, web designer, branding specialist, art director, motion graphics designer, advertising, illustrator, and exhibition designer. Graduates are also equipped with the skills to become writers, researchers, editors and critics, and to apply design thinking in a non-design industry business.

Course code: C10308
CRICOS code: 077339C
Course duration: 3 Years
Number of credit points: 144
Intake: Feb
Location: City campus
Fees: A$21,400 per session
Academic and additional requirements: See page 98
English language requirements: See page 101

The published fee is per session, based on a full-time, 24 credit-point study load.
Most subjects at UTS are valued at 6-8 credit points each. Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).
For honours and combined degrees, please see course summary tables (pages 108-125)
▲ Courses flagged with this icon include a work-based training component which must be undertaken as part of the course of study and refers to all clinical, professional and industrial or other work placements.
Our unique ‘vertical stack’ course structure combines an undergraduate degree in Business and Economics, Communication (Writing and Publishing), Engineering Studies or Science with a postgraduate degree in Secondary Education. This means you can graduate with two qualifications in as little as four years.

**WORLD CLASS FACILITIES**
Our purpose-built facilities are second to none. From customised science and maths teaching environments to dedicated research hubs, our spaces are designed to shape your education practice.

**REAL WORLD LEARNING**
Throughout your degree, you’ll benefit from the hands-on approach to learning that UTS is known for. Alongside practical workshops and labs from your core degree, you’ll also spend 80 days in real classrooms, gaining professional experience at some of our 200+ partner schools across NSW.

**BEYOND BOUNDARIES**
A global perspective is critical to education. You’ll study with students across a range of careers/industries and multicultural backgrounds which will offer you a different perspective when solving problems.
Course Description

The Bachelor of Business Master of Teaching in Secondary Education offers students the knowledge and practical hands-on experience required to teach over 18,000 secondary school pupils studying Business Studies and over 5000 pupils undertaking Economics in NSW (NSW Education Standards Authority, 2021 HSC Enrolments by Course, 2021).

Note: Satisfactorily complete the NSW Government’s LANTITE Literacy and Numeracy test (https://teacheredtest.acer.edu.au/) before progressing to the first Professional Experience supervised teaching placement in Year 3. Achieve credit average (WAM greater than or equal to 65) results at the completion of 96 credit points (typically at the end of Year 2). Students who do not achieve a credit average will be transferred to the relevant standalone Bachelor degree. Upon successful completion of this Bachelor’s degree, you will eligible to apply to the Master of Teaching in Secondary Education.

Majors

Economics Business Studies/Economics stream, Management Business Studies stream

Areas of Study

Business, management, economics, professional experience, HSIE, business studies, teaching methods subjects, core teacher education subjects.

Professional Recognition

This course is professionally accredited by the NSW Education Standards Authority (NESA) as a recognised secondary school teaching qualification. To gain employment as a teacher in NSW schools, graduands must meet the requirements of the NESA, including language proficiency.

Course Structure

For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10449

Career Opportunities

This course offers a flexibility for career prospects, including having a broad range of skills to move into administrative, policy or leadership roles in the public and private sectors. Students can also benefit from an accelerated career path and can achieve two qualifications, one a PG course, in the duration it takes to complete an undergraduate course. The Bachelor of Business is a broad professional degree, equipping graduates to pursue careers in a variety of business fields, industries and sectors. Examples of career options include business consultant, economist, entrepreneur and data analyst. The Master of Teaching in Secondary Education course prepares students for secondary teaching (years 7-12) in Business Studies in a public or private school, locally or internationally (subject to meeting relevant employer requirements).
Course Description

This degree combines practical experience and theoretical engagement in communication, media and contemporary creative writing with a teacher education course to teach English in NSW secondary schools. Students may also qualify as teachers of English as an Additional Language/Dialect (EAL/D) or Society & Culture - Human Society and its Environment (HSIE). Students earn both an undergraduate Bachelor of Communication and a postgraduate Master of Teaching in Secondary Education in four (4) years of full-time study.

Note: Satisfactorily complete the NSW Government’s LANTITE Literacy and Numeracy test (https://teacheredtest.acer.edu.au/) before progressing to the first Professional Experience supervised teaching placement in Year 3. Achieve credit average (WAM greater than or equal to 65) results at the completion of 96 credit points (typically at the end of Year 2). Students who do not achieve a credit average will be transferred to the relevant standalone Bachelor degree. Upon successful completion of this Bachelor’s degree, you will eligible to apply to the Master of Teaching in Secondary Education.

Majors

English; English/English as an Additional Language; English/Society and Culture.

Areas of Study

Contextual studies of education, professional experience, teaching method subjects for discipline areas taught in secondary schools, discipline studies.

Professional Recognition

This course is professionally accredited by the NSW Education Standards Authority (NESA) as a recognised secondary school teaching qualification. To gain employment as a teacher in NSW schools, graduands must meet the requirements of the NESA, including language proficiency.

Course Structure

For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c10405

Career Opportunities

Career options include secondary teaching (years 7-12) in English, as well as English as an Additional Language/Dialect (EAL/D) and Society and Culture in a public or private school, locally or internationally (subject to meeting relevant employer requirements).

Graduates can also work as fiction and non-fiction writers in anthologies, magazines and newspapers, and for literary journals and online presses, as well as screenwriters, story developers and communication professionals.
**Bachelor of Economics Master of Teaching in Secondary Education**

**Course Description**

The Bachelor of Economics Master of Teaching in Secondary Education offers students the knowledge and practical hands-on experience required to teach over 18,000 secondary school pupils studying Business Studies and over 5,000 pupils undertaking Economics in NSW (NSW Education Standards Authority, 2021 HSC Enrolments by Course, 2021).

Note: Satisfactorily complete the NSW Government’s LANTITE Literacy and Numeracy test ([https://teacheredtest.acer.edu.au/](https://teacheredtest.acer.edu.au/)) before progressing to the first Professional Experience supervised teaching placement in Year 3. Achieve credit average (WAM greater than or equal to 65) results at the completion of 96 credit points (typically at the end of Year 2). Students who do not achieve a credit average will be transferred to the relevant standalone Bachelor degree. Upon successful completion of this Bachelor’s degree, you will eligible to apply to the Master of Teaching in Secondary Education.

**Majors**

Business Studies/Economics.

**Areas of Study**

Business, management, economics, professional experience, HSIE, business studies, teaching methods subjects, core teacher education subjects.

**Professional Recognition**

This course is professionally accredited by the NSW Education Standards Authority (NESA) as a recognised secondary school teaching qualification. To gain employment as a teacher in NSW schools, graduands must meet the requirements of the NESA, including language proficiency.

**Course Structure**

For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10450

**Career Opportunities**

This course offers a flexibility for career prospects, including having a broad range of skills to move into administrative, policy or leadership roles in the public and private sectors. Students can also benefit from an accelerated career path and can achieve two qualifications, one a PG course, in the duration it takes to complete an undergraduate course.

Study in the Bachelor of Economics allows for a large spectrum of career options and employment opportunities in such roles as economist, economic analyst, econometrician, data analyst, policy analyst, business consultant, market analyst and researcher in various industries including the Banking, Finance, Insurance, Consulting and Public sectors.

The Master of Teaching in Secondary Education course prepares students for secondary teaching (years 7-12) in both Economics and Business Studies in a public or private school, locally or internationally (subject to meeting relevant employer requirements).

Bachelor of Engineering Studies Master of Teaching in Secondary Education ▲

Course Description
This degree combines a broad professionally focused and practice-based program focused on emerging technologies and software engineering with a teacher education course to teach Engineering Studies and Mathematics in NSW secondary schools. Students earn both an undergraduate Bachelor of Engineering Studies and a postgraduate Master of Teaching in Secondary Education in four and half (4.5) years of full-time study.

Note: Satisfactorily complete the NSW Government’s LANTITE Literacy and Numeracy test (https://teacheredtest.acerc.edu.au/) before progressing to the first Professional Experience supervised teaching placement in Year 3. Achieve credit average (WAM greater than or equal to 65) results at the completion of 96 credit points (typically at the end of Year 2). Students who do not achieve a credit average will be transferred to the relevant standalone Bachelor degree. Upon successful completion of this Bachelor’s degree, you will eligible to apply to the Master of Teaching in Secondary Education.

Majors
Technological and Applied Studies/Mathematics

Areas of Study
Contextual studies of education, professional experience, teaching method subjects for discipline areas taught in secondary schools, discipline studies.

Professional Recognition
This course is professionally accredited by the NSW Education Standards Authority (NESA) as a recognised secondary school teaching qualification. To gain employment as a teacher in NSW schools, graduands must meet the requirements of the NESA, including language proficiency.

Course Structure
For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10406

Career Opportunities
Career options include secondary teaching in Engineering Studies (years 11-12), Industrial Technology (years 7-10 focus area Engineering) and Mathematics in a public or private school, locally or internationally (subject to meeting relevant employer requirements).

Please note: Applicants are advised to check with potential employing bodies regarding employment requirements. As of the date of publication, they can be found here. Both public and private sector schools can set eligibility requirements relating to academic performance among other criteria. Requirements to teach internationally can vary from country to country.

The published fee is per session, based on a full-time, 24 credit-point study load.
Most subjects at UTS are valued at 6-8 credit points each. Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

Bachelor of Science Master of Teaching in Secondary Education

Course Description
This degree combines solid foundations in mathematical and/or scientific knowledge and practice with a teacher education course to teach a range of mathematics and/or science subjects in secondary schools. Students earn both an undergraduate Bachelor of Science and a postgraduate Master of Teaching in Secondary Education in four (4) years of full-time study.

Note: Satisfactorily complete the NSW Government’s LANTITE Literacy and Numeracy test (https://teacheretest.acér.edu.au/) before progressing to the first Professional Experience supervised teaching placement in Year 3. Achieve credit average (WAM greater than or equal to 65) results at the completion of 96 credit points (typically at the end of Year 2). Students who do not achieve a credit average will be transferred to the relevant standalone Bachelor degree. Upon successful completion of this Bachelor’s degree, you will eligible to apply to the Master of Teaching in Secondary Education.

Majors
Biology, Chemistry, Earth and Environmental Science; Chemistry and Physics, Mathematics; Mathematics and Mathematics/Physics.

Areas of Study
Contextual studies of education, professional experience, teaching method subjects for discipline areas taught in secondary schools, discipline studies.

Professional Recognition
This course is professionally accredited by the NSW Education Standards Authority (NESA) as a recognised secondary school teaching qualification. To gain employment as a teacher in NSW schools, graduands must meet the requirements of the NESA, including language proficiency.

Course Structure
For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10404

Career Opportunities

The engineering industry is evolving. Stay up-to-date with the latest technical knowledge and key leadership skills so you can gain a competitive edge with employers. Work with global experts in state-of-the-art facilities and revolutionise the future.

INDUSTRY-FOCUSED LEARNING
Theory is great, but industry experience is even better. That’s why we offer practical learning for future-ready graduates. Engage with renowned industry partners that provide working knowledge throughout your degree.

CONNECTIONS THAT COUNT
Would access to more than 1000 companies give you an advantage? Of course it would. Our dedicated Internships team are available to provide personalised support to ensure you gain the best work experience, giving you a distinct edge from your peers when you graduate.

INNOVATION HUB
UTS is located in an innovation precinct surrounded by some of Australia’s top startup firms.

Yanlin Zhu
China
Graduate Engineer, WSP
Bachelor of Engineering (Honours)

“Thanks to UTS, I have gained a lot of industry insights about professional civil engineering through internships and mentorship program. These activities helped me in networking with industry professionals and I learned tremendous career advice from them.”
Pathway to UTS Engineering

UTS College Diploma of Engineering

The UTS College Diploma of Engineering guarantees your way to a UTS engineering degree, allowing you to fast-track to the second year of your UTS Bachelor of Engineering (Honours)*.

Students will develop a deep understanding of the practical applications for engineering, along with the skills to communicate professionally and ethically in engineering environments. Our small classes, personalised support and alignment to first year UTS subjects provides a seamless transition from diploma to degree.

Program benefits

- Up to 48 credit points with guaranteed entry to UTS*
- Direct entry into the second year of your UTS engineering degree*
- Hands-on, practice-based learning with industry networking opportunities

Leads to the following UTS majors

Biomedical, Civil, Civil (Construction), Civil (Structures), Data Science Engineering, Electrical, Electronic, Flexible, Mechanical, Mechatronic, and Software.

Engineering pathway to UTS

The pathway you take into UTS will depend on your English language proficiency and academic qualifications.

More information

For further details including academic and English language requirements, please refer to the UTS College website:

utscollege.edu.au/programs/diplomas/diploma-of-engineering

---

Pathway diagram:

** Path 01**
High School (Year 11 or equivalent) Academic English (if required)** UTS Foundation Studies 8 or 12 months UTS degree 1st Year#

** Path 02**
High School (Year 11 or equivalent) Academic English (if required)** UTS Foundation Studies 8 or 12 months Diploma of Engineering 8, 12 or 16 months UTS degree 1st Year or 2nd Year

** Path 03**
High School (Year 12 or equivalent) Academic English (if required)** Diploma of Engineering 8, 12 or 16 months UTS degree 1st Year or 2nd Year

---

* Based on successful completion of your diploma with no more than two subject failures. The point where you enter into your UTS degree will depend on your major. Not all majors will take you into second year.

** You will only be required to enter a UTS College Academic English program if you do not meet the English language entry requirements. Refer to our website for details.

# This pathway is only available if you achieve the required Grade Point Average (GPA).

This course is identical to the Bachelor of Engineering (Honours) Diploma in Professional Engineering Practice (C09067), with the exception that there is no Diploma in Professional Engineering Practice (C09066). For further details, please refer to the UTS Handbook:

handbook.uts.edu.au (Standard) and 16 months (Extended)

Number of credit points: 48

Intake: Feb/Jun/Sept

Location: Sydney city campus, Sri Lanka, Indonesia

Fees^^: A$33,000 (Standard, Accelerated), A$41,000 (Extended)
Bachelor of Engineering (Honours) ▲

Course Description
This course is identical to the Bachelor of Engineering (Honours) Diploma in Professional Engineering Practice (C09067), with the exception that there is no Diploma in Professional Engineering Practice requirement.

Majors
Biomedical, chemical process, civil, civil and environmental, data science, electrical, electrical and electronic, electronic, flexible, mechanical, mechanical and mechatronic, mechatronic, renewable energy, software.

Professional Recognition
The Bachelor of Engineering (Honours) is accredited by Engineers Australia at the Graduate Professional Engineer level. The degree is recognised internationally by signatories to the Washington Accord.

Course Structure
For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c09066

Career Opportunities
Career options depend on the major chosen.

Bachelor of Engineering (Honours) Diploma in Professional Engineering Practice ▲

Course Description
This program is a comprehensive preparation for careers in the professional practice of engineering. Students learn to deal with complex systems and manage large-scale projects using the most appropriate emerging technologies.

Majors
Biomedical, chemical process, civil, civil and environmental, data science, electrical, electrical and electronic, electronic, flexible, mechanical, mechanical and mechatronic, mechatronic, renewable energy, software.

Professional Recognition
The Bachelor of Engineering (Honours) is accredited by Engineers Australia at the Graduate Professional Engineer level. The degree is recognised internationally by signatories to the Washington Accord.

Course Structure
For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c09067

Career Opportunities
Career options depend on the major chosen.

The published fee is per session, based on a full-time, 24 credit-point study load.

Most subjects at UTS are valued at 6-8 credit points each. Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

For honours and combined degrees, please see course summary tables (pages 108-125)

▲ Courses flagged with this icon include a work-based training component which must be undertaken as part of the course of study and refers to all clinical, professional and industrial or other work placements.
Bachelor of Engineering Science

Course Description
This course is an engineering technologist-level program which is similar in nature to the Bachelor of Engineering (Honours) (C09066) but does not provide full professional engineering status.

Majors
Chemical process, civil, data science, electrical, electronic, flexible, mechanical, mechatronic, renewable energy, software.

Course Structure
For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c10066

Career Opportunities
Career options include positions in engineering teams across the full spectrum of engineering activities. Specific career options depend on the major chosen.
The published fee is per session, based on a full-time, 24 credit-point study load. Most subjects at UTS are valued at 6-8 credit points each. Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

Career Opportunities
Career options include positions in engineering teams across the full spectrum of engineering activities. Specific career options depend on the major chosen.
As Australia's largest employer, a career in health will keep you learning and earning for life. Plus, you can make a real and meaningful impact on the people and the world around you – so what are you waiting for?

PRACTICE MAKES PERFECT
The nurses, the coaches and the health professionals you admire? They all got to where they are by doing – and doing again. That’s why we’ve built practice-based learning into every health course.

PURPOSE-BUILT SPACES
Engage with lifelike simulations, robotic patients and cutting-edge technology in our clinical labs, or rub shoulders with elite athletes in our world-class sport and exercise precinct at Moore Park – whatever you study, we’ve got a space to optimise your learning.

CONNECTIONS THAT COUNT
Our courses are supported by and developed with government, health districts, health care agencies, and sport and fitness associations. Our international connections, like the UTS-based WHO Collaborating Centre, offer you a global outlook too.

Tehsin Mansuri
India
Bachelor of Nursing

“As a nurse, you are given the ability to help patients in many different ways. Studying at UTS means you get hands-on experience right from your first class. By the end of my first session, I had developed a good understanding of the nursing specialties available and what life as a registered nurse is really like.”
Bachelor of Health Science ▲

Course Description
The Bachelor of Health Science is a flexible and innovative degree that equips graduates with qualifications to help improve the health of individuals and populations. It is a broad field of practice, based on the application of scientific principles in governmental and non-governmental health services and the wider industry.

Majors

Course Structure
For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c10360

Career Opportunities
Career options include positions in health promotion, epidemiology, advocacy, health education, e-health, health data and information management systems, planning and policy, project management and evaluation, community development, research and consultancy across both public and private health sectors, physiotherapy (pathway).

Bachelor of Nursing ▲

Course Description
The UTS Bachelor of Nursing course prepares students for the exciting and challenging role of the Registered Nurse. This course is comprised of a comprehensive range of theoretical and clinical nursing subjects that together provide the knowledge, skills and professional values graduates require to provide safe, effective and compassionate nursing care. Our graduates are well prepared for clinical practice and are highly sought after for employment in a wide range of healthcare settings across Australian and internationally.

The reputation of our nursing program is well-established – UTS has ranked #1 in Australia for Nursing in the QS World University Rankings by Subject from 2016-2021.

Sub-Majors
Nursing: In the final year of the program, students are able to pursue an area of nursing interest by choosing a clinical specialty elective.

Professional Recognition
This course is accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC) and approval by the Nursing and Midwifery Board of Australia (NMBA). See the faculty rules for more information.

Course Structure
For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c10122

Career Opportunities
Career options for registered nurses include diverse specialty clinical areas such as community health, critical care, general practice, aged care, mental health, operating theatres and paediatrics. Career progression opportunities include working as a clinical nurse consultant, clinical nurse specialist, nurse educator, nurse manager, nurse practitioner or rural and remote practice nurse and nurse academic and researcher (clinical and non-clinical). Note: postgraduate study is required for some of these career paths.
Bachelor of Sport and Exercise Management ▲

Course Description
This course develops graduates who possess a sound knowledge of the biophysical, behavioural and sociocultural foundations of sport and exercise, combined with the management skills and knowledge increasingly necessary in sport and exercise professions.

Areas of Study
Sport and exercise, management.

Course Structure
For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10301

Career Opportunities
Career options include athlete management, corporate health and fitness, fitness consultant, health promotion, sport development manager, sport event manager, sport marketing, sport policy, sport scientist, sport venue manager and physiotherapy (pathway).

Bachelor of Sport and Exercise Science ▲

Course Description
The Bachelor of Sport and Exercise Science meets the demand for professionals able to provide physical activity services to all sectors of the community.

Areas of Study
Health, physical activity, sport and exercise science, rehabilitation and physiotherapy (via pathway)

Professional Recognition
Accreditation with Exercise and Sports Science Australia (ESSA) for those who select the Exercise Science major

Course Structure
For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10300

Career Opportunities
Career options include exercise scientist, sport scientist, exercise physiologist (pathway), corporate health and wellbeing, strength and conditioning, personal training, physiotherapy (via pathway), exercise rehabilitation, sports coaching, outdoor education, facility management.

The published fee is per session, based on a full-time, 24 credit-point study load.
Most subjects at UTS are valued at 6-8 credit points each. Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).
For honours and combined degrees, please see course summary tables (pages 108-125)
Courses flagged with this icon include a work-based training component which must be undertaken as part of the course of study and refers to all clinical, professional and industrial or other work placements.
The technology revolution is here. Study where change happens with a degree that’s focused on innovation, practical learning and real-world internship experience.

WE’RE DIFFERENT. HERE’S HOW.
Theory is important, but hands-on experience is how it all comes together. Our internship opportunities can help you develop solid practical skills and build connections in one of our 1,000 partner companies.

FUTURE FOCUSED
The future? It’s right here. With our custom-built teaching spaces and one-of-a-kind laboratories, when you study with us, you’ll get a glimpse of what it’s like to work where disruption happens.

DO WHAT MATTERS
There’s no doubt that research has the potential to change the world – and with an IT honours degree, you could too. Spend a year working on a pressing research challenge and learn to think about IT as a tool to drive global change.

---

Phuc Khang Cu
Vietnam
Bachelor of Computing Science (Honours)

“The facilities at UTS are great and the lecturers are fantastic. They’re really good at what they do. They go in-depth about the subject and make it really understandable. After lectures we have computer lab work and tutorials, where we get the opportunity to solidify our knowledge. After those sessions, you have a really good grasp on the knowledge you have learned.”
Pathway to UTS Information Technology

UTS College Diploma of Information Technology

The UTS College Diploma of Information Technology guarantees your way to a UTS IT degree, allowing you to fast-track to the second year of your UTS Bachelor of Information Technology*.

The program develops your skills in different aspects of computing and information technology, with options to gain in-depth knowledge alongside your core subjects. Our small classes, personalised support, and alignment to first year UTS subjects provides a seamless transition from diploma to degree.

Program benefits

- 48 credit points with guaranteed entry to UTS*
- Direct entry into the second year of your UTS Information Technology degree**
- Develop practical work-ready skills and keep pace with technologies and trends

Leads to the following UTS majors

Business, Science in Information Technology (combined degree)***, Science in Information Technology and Diploma in IT Professional Practice, Science in Information Technology, Games Development, and Computing Science (Honours).

Information Technology pathway to UTS

The pathway you take into UTS will depend on your English language proficiency and academic qualifications.

Number of credit points: 48
Intake: Feb/Jun/Sept
Location: Sydney city campus, Indonesia, South Korea, Sri Lanka.
Fees^^(^: A$33,000 (Standard, Accelerated), A$41,000 (Extended)
Bachelor of Information Technology

Course Description
This course offers a sound education in all aspects of computing and information technology for students who intend to make a career in the profession, as well as providing a pathway to honours, postgraduate study or a research career.

Majors
Business information systems management, data analytics, enterprise systems development, interaction design, networking and cybersecurity.

Sub-Majors
Business information systems management, data analytics, enterprise systems development, interaction design, networking and cybersecurity, advertising principles, computer graphics and animation, electronics and computer interfacing, international studies, introductory economics, language other than English (LOTE), marketing principles, network security, physics, quantitative management, specialist country studies, statistical modelling, information security, innovation and entrepreneurship.

Professional Recognition
Graduates are eligible to apply for professional-level membership of the Australian Computer Society.

Course Structure
For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c10148

Career Opportunities
Depending on the major selected, career options include business analyst, IT project manager, network specialist, software developer, systems analyst or web developer.

Course code: C10148
CRICOS code: 040941A
Course duration: 3 Years
Number of credit points: 144
Intake: Feb/Jul
Location: City campus
Fees: A$24,010 per session
Academic and additional requirements:
See page 98
English language requirements:
See page 101
Bachelor of Information Technology Diploma IT Professional Practice

Course Description
This course offers a sound education in all aspects of computing and information technology for students who intend to make a career in the profession, as well as providing a pathway to honours, postgraduate study and a research career.

Majors
Business information systems management, data analytics, enterprise systems development, interaction design, networking and cybersecurity.

Sub-Majors
Business information systems management, data analytics, enterprise systems development, interaction design, networking and cybersecurity, advertising principles, computer graphics and animation, electronics and computer interfacing, international studies, introductory economics, language other than English (LOTE), marketing principles, network security, physics, quantitative management, specialist country studies, statistical modelling, information security, innovation and entrepreneurship.

Professional Recognition
Graduates are eligible to apply for professional-level membership of the Australian Computer Society.

Course Structure
For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10345

Career Opportunities
Depending on the major selected, career options include ICT business analyst, analyst/programmer, IT project manager, network specialist, software developer, software engineer, systems analyst or web developer.

Bachelor of Science in Games Development

Course Description
This course offers a sound education in all aspects of information technology and develops the diverse skills necessary for a career in computer games development.

Sub-Majors
Business information systems management, data analytics, enterprise systems development, interaction design, networking and cybersecurity, advertising principles, computer graphics and animation, electronics and computer interfacing, international studies, introductory economics, language other than English (LOTE), marketing principles, network security, physics, quantitative management, specialist country studies, statistical modelling, information security, innovation and entrepreneurship.

Professional Recognition
Graduates are eligible to apply for professional-level membership of the Australian Computer Society.

Course Structure
For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10229

Career Opportunities
Career options include computer game developer, data analyst, game/interaction designer, generalist programmer, graphics engine specialist, IT project manager, network specialist, software engineer, web developer.
Bachelor of Information Systems

Course Description

The Bachelor of Information Systems (BIS) is an undergraduate coursework offering aimed at meeting emerging demands for a new generation of technology professionals ready to deal with the challenges of complex systems.

Students study complex systems such as enterprises, their services for different stakeholders (customers/patients/citizens/other organisations and stakeholders), and their internal processes conducted by people (with knowledge, skills and social capital) using data, information and IT-enabled services.

Areas of Study

Information system management, processes and models, data analytics, planning and decision-making, knowledge management, innovation, sustainability

Professional Recognition

The Faculty of Engineering and Information Technology is seeking accreditation from the Australian Computer Society.

Course Structure

For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c10395

Career Opportunities

Career options include positions in a range of sectors, such as energy, transport, smart cities, business, and government, in roles including: Business Analyst, Business Process Modeller, Smart Infrastructure Professional, Supply Chain Modeller, Digital Transformation Analyst, and Information Systems Analyst/Designer.

Bachelor of Computing Science (Honours)

Course Description

This course offers a sound education in all aspects of computing science and information technology. It is intended for students who aspire to become researchers or who want a career in a more scientific-oriented computing area. As such it provides a pathway to postgraduate research study.

Majors

Artificial intelligence and data analytics, business information systems management, cybersecurity and privacy, enterprise systems development, interaction design, mathematical analysis, networking and cybersecurity, quantum information science.

Professional Recognition

Graduates are eligible to apply for professional-level membership of the Australian Computer Society.

Course Structure

For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c09119

Career Opportunities

Depending on the major selected, career options include software developer, systems analyst, data scientist or professional computing science researcher.

The published fee is per session, based on a full-time, 24 credit-point study load.
Most subjects at UTS are valued at 6–8 credit points each. Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).
For honours and combined degrees, please see course summary tables (pages 108–125).
▲ Courses flagged with this icon include a work-based training component which must be undertaken as part of the course of study and refers to all clinical, professional and industrial or other work placements.

77
International Studies and Social Sciences
Learn how to tackle the social, economic, ecological and political challenges that shape the globe and get ready for a career that can take you anywhere.

GAIN A GLOBAL MINDSET
Ready to explore the world? Develop the cultural and communication skills that employers are looking for with a Bachelor of International Studies. As part of your degree, you’ll learn a new language and can select one of three international experience options.

TACKLE REAL PROBLEMS
Gain hands-on experience with industry as you tackle real-world problems. The Bachelor of Sustainability and Environment connects you with real organisations, industry experts and local communities throughout your degree.

CHALLENGE YOUR THINKING
Drawing on transdisciplinary innovation from across the university, graduates of the Bachelor of Sustainability and Environment will challenge the old and current paradigms of thinking and create innovative solutions to pressing global challenges.
Bachelor of Criminology

Course Description
The Bachelor of Criminology prepares students to respond to the changing nature of crime in the 21st century by addressing the realities of crime in an increasingly digital and transnational age. Ideal for those starting their careers or extending their learning to respond to industry needs, students specialise in either digital forensics & security, data analytics & research, justice & legal studies, or forensics. The course combines studies in these focus areas with practical social science knowledge and skills needed for professions focused on crime prevention, detection, enforcement or the broader social implications and challenges of crime.

Majors
Data Analytics, Forensics, Justice and Legal Studies, Digital Forensics, Data Analytics and Research.

Areas of Study
Criminology, data analysis, law, justice, forensics, crime prevention, digital skills.

Course Structure
For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c10446

Career Opportunities
Careers options include police officer, law enforcement agent, corrections officer, border force officer, customs officer, crime prevention analyst, policy analyst, community justice/development worker, government worker, evaluator, cyber security analyst, fraud prevention analyst, digital fraud prevention analyst, intelligence officer, ICT security specialist, security consultant.

Bachelor of International Studies (Combined degree)

Course Description
The Bachelor of International Studies combines a professional degree with immersion in another language and culture, enhancing professional training and career options. This degree is packaged as a combined degree with bachelor’s degrees from Business; Communication; Criminology; Design, Architecture and Building; Engineering; Information Technology; Law; Nursing; and Science.

The duration of these combined degrees is either 5 or 6 years depending on the degree chosen.

Career options
Career options are generally determined by the professional component of your degree.

Combined options
Please see combined options on course summary tables (pages 84 - 97).
Bachelor of Sustainability and Environment (Combined degree)

Course Description

Sustainability is the big issue of our time that is challenging growth in every sector. With our new Bachelor of Sustainability and Environment, you’ll be poised for a career tackling our world’s most urgent needs.

This flexible and comprehensive 4-year combined degree with Business, Economics, Health Sciences, Management, and Science, builds knowledge of sustainability as a scientific, legal and social issues and is designed to fast-track you to get the knowledge, skills, mindset and practical experience you need to make an immediate impact in the workforce and for the planet.

Students will study core subjects and choose electives from key streams that will equip them with the knowledge to understand the interconnections between environmental, economic, social and cultural sustainability and develop skills to tackle the complexity of achieving a sustainable future.

Career options

This degree prepares graduates for careers in the rapidly expanding green economy and at all levels of government and non-governmental organisations. Roles vary and can include Sustainability Project Officer, Sustainability Consultant, Environmental Scientist, Sustainability Director, Social and Environmental Impact Lead, Corporate Social Responsibility Manager, Communication and Stakeholder Engagement Lead, Business Analyst, Environmental Compliance Specialist, Environmental Planner, Sustainability Evaluation Lead. Graduates will be in demand in Australia and globally in sectors ranging from resources, consumer goods, agriculture, water and energy to eco-tourism, heritage conservation, public health and finance.

Combined options

Please see combined options on course summary tables (pages 84 - 97).
Professional, adaptable, and ready for change – gain these graduate attributes at UTS Law. You’ll build foundational knowledge of law practice as well as the problem solving, analytical thinking, and spoken and written communication skills required to succeed in law.

**DRIVE CHANGE THAT MATTERS**
Use your knowledge as a tool for good. Get involved in the Brennan Justice and Leadership program, an international human rights fieldwork placement or a local internship.

**FUTURE PROOF YOUR CAREER**
We combine traditional legal education with next-generation legal technologies so you’ll be ready for your future world of work. Our Legal Futures and Technology major is a first in Australia.

**GET YOUR FOOT IN THE DOOR**
Undertake an international placement, local internship or social justice project to experience law in practice.

**PRACTICE MAKES PERFECT**
There are no traditional exams. You’ll learn through practice with assessments that mirror real work experience.

**THE WHOLE PACKAGE**
To become a lawyer in NSW you are required to undertake academic and practical study. At UTS you can undertake your academic law study as well as your professional legal training through the Graduate Certificate in Professional Legal Practice.

---

**Daniel Cheng**

China  
Bachelor of Communication  Bachelor of Laws

“In Law, you’re not only learning to understand the information, you’re learning how to think critically. Studying law has been challenging but fun. There are many different mooting opportunities, clerkship opportunities and seminars. You have an opportunity to put your learning into practice.”
The published fee is per session, based on a full-time, 24 credit-point study load. Most subjects at UTS are valued at 6-8 credit points each. Bachelor of Laws

Course code: C10124
CRICOS code: 013614G
Course duration: 4 Years
Number of credit points: 192
Intake: Feb/Jul
Location: City campus
Fees: A$24,010 per session

Academic and additional requirements: See page 98
English language requirements: See page 101

Course Description
The Bachelor of Laws is one of Sydney’s leading law degrees. It has been developed to help students build foundational knowledge in the practice of law, as well as the ‘soft’ skills (problem solving, analytical thinking, spoken and written communication) required to succeed in a legal career.

Majors
Legal futures and technology.

Professional Recognition
This course satisfies the requirements for admission to the Supreme Court of NSW as a lawyer provided students undertake the optional practical legal training program as part of the course or at the completion of the course. Check with the NSW Legal Profession Admission Board (LPAB) for time constraints.

Course Structure
For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10124

Career Opportunities
Career options include lawyer or legal policy adviser within a government or corporate department, private law firm or community law centre, or negotiating treaties or work in legislation drafting with the Attorney-General’s Department.
Stand at the cutting edge of scientific and mathematical discovery with an undergraduate degree from Australia’s number one young university.*

OUR DIFFERENCE
UTS offers a fresh approach to the study of Science and Maths. Learning in world-class, purpose-built teaching facilities, you’ll gain hands-on experience using industry standard technology and resources.

GAIN INDUSTRY EXPERIENCE
The best place to gain experience is in the real world. Dive into hands-on projects to build your technical expertise. Pursue internships with our industry partners in a range of scientific, business and government organisations.

RESEARCH WITH IMPACT
UTS is located in the heart of Sydney’s innovation and technology precinct. Immerse yourself in a world-leading research community where life-changing discoveries emerge. Focussing on the things that matter, such as climate change, infectious diseases and crime reduction, our research is ranked at world standard by the official Excellence in Research for Australia (ERA) assessment.

Ngoc Hanh Nguyen Tran
Vietnam
Bachelor of Biomedical Science

“The vibrant and creative atmosphere at UTS caught my attention from the beginning. Most importantly, I was impressed by the true value of UTS Science: an innovative, inspiring, and research-focus environment. During my degree, I had a chance to join the UTS Biophysics team as an intern. From this laboratory internship, I have learned so much in terms of knowledge, practical skills, and interpersonal skills.”

* Based on successful completion of your diploma. See website for details.

** You will only be required to enter a UTS College Academic English program if you do not meet the English language entry requirements. Refer to our website for details.

*** This point where you enter the UTS degree will depend on your chosen major. Not all majors will take you into second year.

# If this pathway is only available if you achieve the required Grade Point Average (GPA).

* Based on successful completion of your diploma for the program you choose at UTS. Please refer to our website for more information.

** Fees listed are for study at the Sydney city campus and may vary for other locations. Ask your agent for more information.

UTS College CRICOS provider code: 00859D
Bachelor of Advanced Science

Course Description

The Bachelor of Advanced Science is designed specifically to develop student learning using an inquiry-oriented and research-immersion model. Students engage in a number of research project subjects based on their chosen major, which include pharmaceutical sciences; and pre-medicine. Students are placed with world-leading research scientists and learn ‘on the job’, actively mentored in research teams learning theory through real-time application and solving real-world problems. More than just a work placement, this course is a holistic learning experience designed to train the next generation of scientists and health professionals.

Majors

Pharmaceutical sciences, pre-medicine.

Course Structure

For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10347

Career Opportunities

Career options vary according to the chosen major.

- **Pre-Medicine**: The principle aim of the program is to prepare students for postgraduate medicine. However, the knowledge and learning is of equal value to future study for a number of health professions. This degree can give students the foundational knowledge to work in one of the many different health-related professions such as pharmacy, physiotherapy, and other primary contact primary care professions or related professions including health policy, writing, health and medical writing, sales and technical support of medical devices, and the pharmaceutical and therapeutic goods industry.

- **Pharmaceutical Sciences**: This prepares students for a range of careers in developing pharmaceuticals, drugs and cosmetics. Opportunities include potential employment in the pharmaceutical research, biotechnology, and health-related disciplines. It also prepares students for further studies in postgraduate pharmacy, medicine or other health related disciplines. This major has an entry pathway to the UTS Masters of Pharmacy (see note below for more information).

Bachelor of Biotechnology

Course Description

The Bachelor of Biotechnology provides students with a broad knowledge of modern biotechnology and its applications. Algal biofuels, stem cell therapy and new methods of disease diagnosis are just a few projects that biotechnologists are working on today.

Majors

Medical biotechnology, environmental biotechnology

Course Structure

For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10172

Career Opportunities

Career options vary according to the chosen major.

- **Medical biotechnology**: positions in laboratories or research labs developing new vaccines and medicines for pharmaceutical and biotechnology companies, hospitals, pathology and biomedical firms, universities, and research institutes.

- **Environmental biotechnology**: typical jobs include research associate, consultant, field scientist, microbiologist, conservation officer, environment officer, biotechnologist, and employment across a wide range of industries, creating new products or processes to conserve the environment.
Bachelor of Environmental Biology

Course Description

The Bachelor of Environmental Biology focuses strongly on ecosystem protection and management, and in practical experience undertaken during field excursions. Students are introduced to the latest findings by lecturers actively engaged in research solutions to environmental problems such as climate change and sustainability. Studies focus on the foundation components of the natural systems, how these systems work, and how detrimental impacts on them can be assessed and recovered.

Areas of Study

Cell biology and genetics, biodiversity; ecology of freshwater, estuarine and marine systems; environmental chemistry, experimental design and data analysis, GIS and remote sensing, marine geoscience, plant and wildlife ecology and management; structure, behaviour and physiology of plants and animals (additional subjects are available after first year for in-depth specialisation in selected areas).

Professional Recognition

Course Structure

For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10223

Career Opportunities

Career options include scientific officer or research scientist in organisations concerned with environmental protection, national parks and wildlife, water and coastal resources, CSIRO, and at universities in research, or as an environmental analyst and consultants. Graduates are also employed by local, state or Commonwealth agencies as education officers, environmental officers or managers of parks, reserves and bushland and consulting firms, as teachers at schools and TAFE, and in the private sector as environmental and sustainability consultants.

Bachelor of Forensic Science

Course Description

The Bachelor of Forensic Science prepares students for professional and specialist work in the discipline of forensic science. Students build a solid foundation of skills and knowledge in the enabling sciences, complemented by an in-depth understanding of forensic science in the context of their chosen discipline. Development of critical thinking and problem-solving skills is a focus of the degree, with graduates in high demand from a diverse range of industries and organisations.

Majors

Biology, chemistry, crime scene investigation, digital forensics.

Professional Recognition

Graduates of the Chemistry major are eligible for membership of the Royal Australian Chemical Institute and the Australian and New Zealand Forensic Science Society.

Course Structure

For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10387
Career Opportunities

Career options vary according to the chosen major.

Chemistry: criminalist, trace evidence specialist, explosive specialist, analytical chemist, toxicologist, clinical or regulatory toxicologist, analytical technician.

Biology: DNA specialist, forensic scientist, molecular research scientist, hospital scientist, pathology technician, forensic anthropologist, forensic pathologist.

Crime scene investigation: scene-of-crime officer, team leader in investigations, fire investigator, trace evidence specialist, forensic scientist, analyst.

Digital forensics: digital forensic scientist or analyst, e-Discovery analyst, cyberthreat intelligence analyst, fraud investigator, information security analyst, malware analyst.

Graduates of these majors could find employment with organisations such as the Australian Federal Police, state policing agencies, ASIO, CSIRO, ANSTO, customs, immigration, banks and financial institutions, consulting and accounting firms, private forensic agencies, and cybersecurity firms.

Bachelor of Marine Biology

Course Description

In the Bachelor of Marine Biology students explore our ocean environment, the ecological interactions that sustain its biodiversity and how we might best protect it. Learning is centred on practical and field-based experiences, through which students consolidate theoretical concepts and skills that are important for marine research and understanding governance and sustainability.

Areas of Study

Animal behaviour and physiology, biological diversity, coral reef ecosystems, ecology, environmental protection and management, fish biology, fisheries, GIS and remote sensing, marine plants and algae, climate change.

Professional Recognition

The course is recognised by the Australian Marine Science Association

Course Structure

For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10228

Career Opportunities

Career options include positions in fisheries industries, national parks and wildlife, environmental protection, infrastructure and development, natural resources and planning both in government and industries. Graduates are also employed by local councils as environmental officers, in resource industries and consulting firms as research officers, CSIRO, universities and as teachers at schools. Opportunities exist within non-government conservation sector, zoos, aquariums, science communication documentary making and eco-tourism and tourism industries.

For honours and combined degrees, please see course summary tables (pages 108-125)
▲ Courses flagged with this icon include a work-based training component which must be undertaken as part of the course of study and refers to all clinical, professional and industrial or other work placements.
Bachelor of Mathematical Sciences

Course Description

The Bachelor of Mathematical Sciences is an exciting and modern degree, which enables students with a strong interest in mathematics, statistics, and data to grow and develop skills that are in high demand in the modern work force. The basis is a comprehensive foundation of core mathematical competencies. The foundation is developed further in one of two Majors: Statistics and Data Science, Pure and Applied Mathematics. More importantly, the foundation ensures graduates have the knowledge and skills to develop and adapt in the rapidly changing work environment.

Majors

Statistics and data science, pure and applied mathematics.

Course Structure

For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10457

Career Opportunities

Career options include data scientist, statistician, data analyst, financial analyst, market analyst, quantitative analyst (finance), mathematical modeller, business analyst, programmer in diverse industries including the financial sector, marketing, non-profit organisations, and government at local, state, and federal levels.

Bachelor of Medical Science

Course Description

Medical Scientists are the leaders of creating, innovating and implementing solutions to health and medical problems having an impact globally on the health of society. Medical Scientists careers are dynamic and involve an exciting range of professions from research and development, writing and implementing policy and practice in the medical and health sciences, communicating science, working in industry, or undertaking further study that leads to progression into a variety of clinical professions. Medical Scientists at UTS can choose to major in Medical and Health-related Sciences or Pathology, allowing them to have speciality relevant to their career choices and interests. In the Medical and Health-related Science major students learn the body through the study of tissues, organs and cellular facets both in health and disease, medical devices, how medicines work, as well as public health policies and clinical trials. In the Pathology major students learn how diseases trigger biochemical or cellular changes in the body and how to best diagnose and treat these diseases. Students also learn how to identify infectious agents and the latest approaches to prevent, treat infections and limit their impact on society. Students learn by applying and investigating scientific approaches in world class laboratories with up-to-date scientific technologies and equipment in line with those used in the industry. This hands-on learning is accompanied by development of professional skills such as communication, problem solving, critical thinking, and innovation that means graduates are ideally placed for a range of professions. Medical Scientists at UTS also are inspired by teaching from our world leading researchers in the areas of medical devices, chronic diseases, respiratory diseases, infectious diseases, pharmacology, and cancer.

Majors

Medical and health-related sciences major, pathology major

Course Structure

For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c10184

Career Opportunities

Career options include positions in medical research and development in industry and government settings, medical scientists in private and public hospitals, clinical trial and tissue bank settings, public health units, government departments, and biotechnology, health technology, and pharmaceutical companies. Graduates also work as consultants, scientific communicators, and scientific members of policy and regulatory organisations, such as state health departments and the Therapeutic Goods Administration.
Bachelor of Science

Course Description

The Bachelor of Science gives students a solid foundation in scientific knowledge and practice while allowing them to specialise in an area of interest. Students may follow any of the nine different majors leading to the award of a degree naming the chosen major, e.g., Bachelor of Science in Nanotechnology, or Bachelor of Science in Medical Science, or any of the majors available. Majors are chosen at the end of first year when students have experienced a range of disciplines and are more equipped to choose their preferred path. Students may also choose not to follow a major, but to select a range of second- and third-year subjects to tailor their study according to their interests and graduate with a cross-disciplinary degree.

Majors

Chemistry; Applied Physics; Biotechnology; Environmental Sciences; Mathematics; Medical Science; No specified major.

Course Structure

For further details, please refer to the UTS Handbook:
handbook.uts.edu.au/courses/c10242

Career Opportunities

Graduates are highly versatile as they can work in almost any industry such as biotechnology, biomedical science, medical science, environmental monitoring and management, mathematics, statistical modelling, chemistry, applied physics, nanotechnology and material science. Graduates could be employed to analyse traffic flow, calculate the optimum distribution of branches for major banks, set rates of insurance premiums, analyse the consumer demand for products, be part of a medical team working on ground breaking research, determine the effectiveness of new drugs, evaluate the environmental impact of pollution or provide advice on the stock market.
Learn to think differently and respond to the challenges ahead. Our courses are about building expertise that move beyond traditional discipline-specific approaches. You’ll become a creative thinker, gain skills in collaboration and complexity, and learn to embed innovation in your professional practice.

**DEGREES LIKE NO OTHER**
Our goal is to prepare students like you for the future of work. Designed for radical and curious thinkers, our next-generation degrees will combine with your core degree to put you at the frontier of innovative practices.

**GAIN REAL-WORLD EXPERIENCE**
Our courses will connect you with industry experiences, real-world briefs and meaningful professional networks across a wide range of professional disciplines.

**LEARN TO COLLABORATE AND INNOVATE**
You’ll work collaboratively with students from different backgrounds whose expertise will challenge and complement your own.

---

**Vanessa Truong**
Vietnam
Bachelor of Business and Bachelor of Creative Intelligence and Innovation

“...I chose UTS because it has a very good reputation for academic excellence and social justice. Through my BCII program, I have the chance to work with students from different faculties. It’s a very good opportunity to network with creative people.”
## Diploma in Innovation

### Course Description

The Diploma in Innovation is a new undergraduate degree with half the credit points of double bachelors. It was created as a direct response to industry demand for graduates to work at the intersection of creativity, innovation and entrepreneurship. The Diploma is an exciting opportunity to stand out among graduates from your discipline by learning how to collaborate across disciplines to address complex problems. It is available to students undertaking almost any UTS undergraduate degree. This course can be taken alongside your core degree, allowing you to achieve two qualifications in the same time that it will take you to obtain one. Accelerated pathways through the diploma are available, too.

### Areas of Study

The Diploma is one-half innovation and entrepreneurship, which is about experimenting and implementing. And, it’s one half creative intelligence, which is about collaboratively and creatively exploring complex problems.

### Course Structure

For further details, please refer to the UTS Handbook: handbook.uts.edu.au/courses/c20060

### Career Opportunities

This degree is designed to prepare you for a future that you haven’t yet thought about, for which the job titles might not even exist yet, and has a strong emphasis on entrepreneurial thinking. UTS graduates who complete the Diploma will be prepared to start their own venture, work directly with founders of SMEs, and stimulate innovation within corporate settings.

### Bachelor of Creative Intelligence and Innovation (Combined degree, 24 options)

#### Course Description

Taking a transdisciplinary approach, the Bachelor of Creative Intelligence and Innovation utilises multiple perspectives from diverse fields, integrating a range of industry experiences, real-world projects and self-initiated proposals, equipping graduates to address the wicked problems, complex challenges and untapped opportunities in today’s world. This course can be combined with 24 bachelor’s degrees.

By focusing on the high-level conceptual thinking and problem-solving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking, invention, complexity, innovation, future scenario building and entrepreneurship, as well as the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly changing world.

Within the final year of the Bachelor of Creative Intelligence and Innovation, students undertake between 6 and 12 credit points of internship (work experience) that relates to innovation within their research, career development, or core degree specialisations. International internships may be negotiated.

#### Career outcomes

By being creative thinkers, initiators of new ideas, scenario planners, global strategists, open network designers or sustainable futures innovators within their chosen field of study, graduates maximise the potential of their chosen profession, making them highly sought after graduates with the ability to identify and develop solutions to some of the most complex issues that face their disciplines and society.

#### Combined options

Please see combined options on course summary tables (pages 84 - 97).
Transdisciplinary Innovation

The published fee is per session, based on a full-time, 24 credit-point study load. Most subjects at UTS are valued at 6-8 credit points each. Refer to the online handbook for the most up-to-date information and for specific information on available electives and their credit-point value (handbook.uts.edu.au).

For honours and combined degrees, please see course summary tables (pages 108-125).

Courses flagged with this icon include a work-based training component which must be undertaken as part of the course of study and refers to all clinical, professional and industrial or other work placements.

Diploma in Innovation

Course code: C20060
CRICOS code: 092521B
Course duration: 3 years (studied part-time, concurrently with bachelor’s degree)
Number of credit points: 48
Intake: Jul/Dec
Location: City campus
Fees: A$19,985 per session

Academic and additional requirements: See page 98
English language requirements: See page 101

Admission requirements

Academic requirements

For entry into a UTS undergraduate course, you require a competitive pass in a recognised matriculation examination equivalent to an Australian year 12 qualification. As a general guide, competitive results in the international examinations listed below are accepted for entry. Applications for some courses also require submission of a portfolio or a personal statement.

For detailed information about the academic requirements for courses by specific examinations, refer to the Course Summary Tables at the back of this publication (pages 108 – 125) or visit uts.edu.au/study/international/essential-information/entry-requirements. Those who successfully complete a recognised pathway program are also eligible to apply.

If you do not meet the entry requirements, you may wish to consider studying a UTS pathway course through UTS College (see pages 24 – 29).

International Education Qualifications

Bahrain
Successful completion of at least one full-time year at bachelor’s degree level at a recognised university or tertiary institution.

Bangladesh
Successful completion of at least one full-time year of a four-year bachelor degree at a recognised university or a completed two to three year bachelor degree at a recognised university.

Brazil
Successful completion of at least one full-time year at bachelor’s degree level at a recognised university or tertiary institution.

Canada
Successful completion of the Ontario Secondary School Diploma with six university or university/college preparation courses. Qualifications from other provinces may also be acceptable.

Chile
Successful completion of at least one full-time year at bachelor’s degree level at a recognised university or tertiary institution.

China
Successful completion of the China National Entrance Examination (Gaokao) where the total score meets entry standard or completion of at least one full-time year at bachelor’s degree level at a recognised university or tertiary institution.

Colombia
Successful completion of at least one full-time year at bachelor’s degree level at a recognised university or tertiary institution.

Fiji
Successful completion of the Foundation Program at the University of the South Pacific; OR
successful completion of the Fiji seventh form examination (2012 and earlier) Fiji Year 13 Certificate (2013 onwards); OR
successful completion of at least one full-time year at bachelor degree level at the University of the South Pacific; OR
successful completion of matriculation to a New Zealand university.

Germany
Successful completion of the Abitur examination.

Hong Kong (SAR)
Successful completion of the Hong Kong Diploma of Secondary Education (HKDSE) with the overall aggregate based on the five best Category A subjects.

Grades for all subjects except for Mathematics are counted as follows: Level 5** and Level 5*=6, Level 5=5, Level 4=4, Level 3=3, Level 2=2, Level 1=1.

Grades for Compulsory Mathematics are counted as follows Level 5** and Level 5*=3, Level 5=2.5, Level 4=2, Level 3=1.5, Level 2=1, Level 1=0.5.

Grades for Extension Mathematics are counted as follows: Level 5**, Level 5*=4, Level 5=3.5, Level 4=3.0, Level 3=2.5, Level 2=2, Level 1=1.5

India
Successful completion of the All India Senior School Certificate Examination (CBSE) (10+2) with overall grades in best four subjects where A1=5, A2=4.5, B1=3.5, B2=3.0, C1=2.0, C2=1.5, D1=1, D2=0.5 or successful completion of the Indian School Certificate Examination (10+2) awarded by Council for the Indian School Certificate Examinations (CISCE) with an overall percentage grade average in the best four externally examined subjects including English.

Successful completion of the Higher Secondary School examinations from some state boards with a competitive pass may also be accepted.

Indonesia
Successful completion of at least one full-time year at bachelor’s degree level at a recognised university or tertiary institution.

International Baccalaureate
Award of the full International Baccalaureate diploma where the total aggregate score including bonus and penalty points meets entry standards.

Please see the latest information on international education qualifications for UTS undergraduate courses here: uts.edu.au/study/international/essential-information/entry-requirements

Note: This information is correct as at June 2022
International Baccalaureate - predicted grade
Applicants completing the International Baccalaureate Diploma in May will be considered for admission in Spring session (July/August start) based only on their predicted results.

Japan
Successful completion of the Japanese Upper Secondary School Diploma plus completion of National Center Test for University Admission (Senrō) at a competitive standard, or completion of at least one full-time year at bachelor's degree level at a recognised university or tertiary institution.

Jordan
Successful completion of at least one full-time year at bachelor's degree level at a recognised university or tertiary institution.

Kuwait
Successful completion of at least one full-time year at bachelor's degree level at a recognised university or tertiary institution.

Malaysia
Successful completion of STPM with passes in a minimum of 3 Advanced Level subjects, where A = 7, A- = 6, B+ = 5, B = 4, B- = 3, C+ = 2, C = 1. Fail grades (F) or partial passes C-, D+ or D are not assessed or used to determine the ATAR equivalency.
Advanced Level subjects must be taken in the same academic year.
Successful completion of the Malaysian Unified Examination Certificate (UEC) with overall average in best five subjects where A1=1, A2=2, B3=3, B4=4, B5=5, B6=6. Grades of C7, C8 and F9 will not be included. 5 subjects must be included in the calculation.

Mexico
Successful completion of at least one full-time year at bachelor’s degree level at a recognised university or tertiary institution.

Nepal
Successful completion of the Nepalese School Leaving Certificate Examination (SLC) at a competitive standard, or completion of at least one full-time year of a four-year bachelor degree at a recognised university or a completed two to three year bachelor degree at a recognised university.

New Zealand
Successful completion of the National Certificate of Educational Achievement NCEA Level 3 at a competitive standard.

Nigeria
Successful completion of at least one full-time year at bachelor’s degree level at a recognised university or tertiary institution or a recognised two-year National Diploma (ND) or Higher National Diploma (HND).

Norway
Successful completion of the Norwegian Certificate of Completion of Upper Secondary School Examinations or equivalent (Vitnemal).

Oman
Successful completion of at least one full-time year at bachelor's degree level at a recognised university or tertiary institution.

Pakistan
Successful completion of at least one full-time year of a four-year bachelor degree at a recognised university or a completed two to three year bachelor degree at a recognised university.

The Philippines
Successful completion of at least one full-time year at bachelor’s degree level at a recognised university or tertiary institution.

Russia
Successful completion of at least one full-time year at bachelor’s degree level at a recognised university or tertiary institution.

Saudi Arabia
Successful completion of at least one full-time year at bachelor’s degree level at a recognised university or tertiary institution.

Singapore
Successful completion of the Singapore and Cambridge General Certificate of Education (GCE) Advanced Level with at least three Higher 2 (H2) subjects. An overall aggregate score will be calculated based on the best three H2 subjects where A=5, B=4, C=3, D=2, E=1.

South Africa
Successful completion of the South African National Senior Certificate (NSC) or the Matriculation Certificate of the Joint Matriculation Board. Percentage average is calculated from all percentage marks presented, except Life Orientation. Candidates must have been awarded the NSC and have met the minimum requirements for admission to higher education (Bachelor degree, Diploma or Higher Certificate) in South Africa. Both are indicated on the certificate.

South Korea
Successful completion of Korea Republic Senior High School Diploma (General or Vocational) with an overall grade average in the final year, where A=4.0, B=3.0, C=2.0, D=1.0 or successful completion of Korea Republic College Scholastic Ability Test (CSAT) at an acceptable level where overall grade is calculated from the results in Korean Language, Mathematics and Foreign language English.

Sri Lanka
Successful completion of the Sri Lankan General Certificate of Education (GCE) with three Advanced level passes in the same sitting.
### Admission Requirements

**Switzerland**
Successful completion of the Swiss Upper Secondary School Leaving Certificate.

**Taiwan**
A junior/community college diploma or Senior High School diploma plus completion of at least one full-time year at bachelor’s degree level at a recognised university or tertiary institution OR Successful completion of Taiwan General Scholastic Ability Test at a level acceptable for entry.

**Thailand**
Successful completion of the Certificate of Secondary Education (Matayom 6). Marks are out of 100 or GPA on a 4 point scale where A=4, B=3, C=2, D=1, F=0.

Results in the Joint Higher Education Entrance Examination or Joint Entrance Examinations of provincial universities are taken into account, if available.

**United Arab Emirates**
Successful completion of at least one full-time year at bachelor’s degree level at a recognised university or tertiary institution.

</table>

The information in this table is correct as of the publication date and is subject to change. For the most up-to-date information on English requirements visit uts.edu.au/study/international/essential-information/entry-requirements/english-language-requirements

Note: For all combined courses, the applicable English language requirement is the higher of the scores of the two component courses. For example, for the Bachelor of Engineering (Honours) Bachelor of Business, the minimum English language requirement is that applicable to the Bachelor of Business, which is higher than the requirement for the Bachelor of Engineering (Honours).
English language requirements

UTS has English language proficiency requirements for all its courses. Please check the requirements that apply to you.

ASSESSABLE QUALIFICATION UNDERTAKEN IN ENGLISH

You satisfy the UTS English language requirements if you have an assessable qualification that was undertaken in English from one of the following countries: American Samoa; Australia; Botswana; Canada; Fiji; Ghana; Guyana; Jamaica; Kenya; Lesotho; Liberia; New Zealand; Nigeria; Papua New Guinea; Republic of Ireland; Singapore; Solomon Islands; South Africa; Tonga; Trinidad and Tobago; United Kingdom (including Northern Ireland); United States of America; Zambia; Zimbabwe.

For undergraduate nursing courses, see page 102.

WHAT IS AN ASSESSABLE QUALIFICATION?

Assessable qualifications from the countries listed above that may be accepted as satisfying English proficiency include:

- senior secondary studies comparable with the NSW HSC
- one full year of Australian or comparable tertiary studies, including RATE Associate Diploma and Advanced Diploma, Associate Degree, Bachelor Degree and postgraduate studies
- comparable AQF Diploma and Advanced Diploma
- Australian or comparable non-award studies and tertiary preparation courses, with a full-time equivalence of one year.

COMPLETED A COURSE TAUGHT IN ENGLISH

If you do not have an assessable qualification from one of the countries listed, but have successfully completed the equivalent of one year (full-time) of a UTS-recognised, government-accredited, public or private post-secondary/secondary course that is taught in English, you may satisfy the UTS English-language requirement.

This course must be equivalent to the level of Australian Year 12 or higher.

You will need to provide an official document from your institution (on the institution letterhead) that certifies that your qualification was instructed in English.

For undergraduate nursing courses, see page 102.

OTHER ACCEPTABLE QUALIFICATIONS AND ENGLISH PROGRAMS

The following are also recognised by UTS as meeting the English-language requirements:

- UTS College Academic English Level 5 (AE5) – “Pass” for courses with an English language admission requirement of IELTS (Academic) overall score of 6.5, with 6.0 in writing
- UTS College Academic English Level 6 (AE6) – “Pass” for courses with an English language admission requirement of IELTS 7.0
- Australian TAFE (NSW) Certificate IV in English for Academic Purposes (EAP)
- high school English mark equal to or greater than 75 per cent from Austria, Denmark, Finland, France, Germany, Sweden, the Netherlands, Norway or Switzerland
- successful completion of International Baccalaureate Diploma Program subjects English A: language or English A: literature and language, where the Diploma Program was taught in a language other than English
- Cambridge Certificate of Proficiency in English (C2P):
  - for courses requiring an IELTS (Academic) overall score of 8.0 – overall C2P score of 200 or above
  - for courses requiring an IELTS (Academic) overall score of 7.5 – overall C2P score of 191–199.
  - for courses requiring an IELTS (Academic) overall score of 7.0 – overall C2P score of 185–190.
  - for courses requiring an IELTS (Academic) overall score of 6.5 – overall C2P score of 176–184.
- A level 4 or above in the core subject English in the Hong Kong Diploma of Secondary Education (HKDSE) Examination.

Previous education not conducted in English

If your previous education was not conducted in English, you are required to demonstrate proficiency in English by completing an English language test or program recognised by UTS.

English language proficiency test scores are recognised by UTS provided they were obtained less than two years prior to application at UTS.

The table below shows the results required to meet UTS English language requirements for entry into the respective courses.

For all combined courses the highest English language requirement test scores apply.

ENGLISH LANGUAGE TESTS

Cambridge Certificate in Advanced English (C1A)
cambridgeesol.org

IELTS
utscollege.edu.au/ielts

Pearson Test of English (PTE)
pearsonpte.com

TOEFL
If you sit the TOEFL test, you must arrange for the official score report to be sent directly to UTS. The UTS institutional code for TOEFL is 0743.

UTS College Academic English Program Level 1 (AE5) and Level 6 (AE6)
CRICOS 00859D
utscollege.edu.au/courses/english
Special requirements

SPECIAL REQUIREMENTS FOR EVIDENCE OF MEDIUM OF INSTRUCTION FOR NURSING COURSES

The English language requirements for Bachelor of Nursing (C10122) and Bachelor of Nursing Bachelor of Creative Intelligence and Innovation (C10351) align with the Australian Nursing and Midwifery Accreditation Council English Language proficiency criteria.

The English language tests listed under the undergraduate coursework English language requirements for Bachelor of Nursing are the only acceptable language tests. The test results must be current (up to 2 years old) and apply to one test sitting. The test scores from two different tests cannot be combined. However, a maximum of two sittings of the same test, in a 6 month period is acceptable only if:

- IELTS: an overall score of 7 is achieved in each sitting and no score in any component of the test is below 6.5
- TOEFL iBT: a total score of 94 in each sitting is achieved and no score in any of the sections is below reading 19, listening 20, speaking 20, writing 24
- Academic PTE: a minimum overall score of 65 in each sitting is achieved and a minimum score of 65 in each of the four communicative skills - listening, reading, writing and speaking.
- OET: tested in all 4 components in each sitting and no score in any component of the test is below C

For applicants who declare English as their primary language, evidence of the following will only be accepted:

- Satisfactorily completed at least six years of primary and secondary education taught and assessed in English in one of the recognised countries, including at least two years between years 7 and 12 OR
- Completed at least five years (full time equivalent) continuous education, including a tertiary qualification in health, taught and assessed solely in English in one of the recognised countries.

Recognised countries include: Australia; New Zealand; Canada; Republic of Ireland; South Africa; United Kingdom; United States of America.

Special consideration for students sponsored through aid programs

Special consideration of English language requirements may be given to students sponsored through aid programs, such as Australia Awards, World Bank, etc.

In some countries the Australian Embassy may have different English language requirements for those seeking a student visa. Check with your nearest Australian Diplomatic Post before registering for an English language test.

UTS also accepts diplomas and advanced diplomas from Australian Qualifications Framework (AQF) recognised tertiary institutions in Australia as well as most other Australian foundation studies programs.

Simplified Student Visa Framework (SSVF)

UTS participates in the Australian Government’s Simplified Student Visa Framework (SSVF) and recruits students into its degree courses under the SSVF arrangements of the Department of Home Affairs. The SSVF is designed to make the process of applying for a student visa simpler for genuine students.

As an international student, you should apply for a single student visa (subclass 500) regardless of your chosen course of study. When you are granted a visa under SSVF, you must continue to maintain enrolment in an eligible course and continue to have sufficient financial capacity to support your study and stay in Australia.

All student visa (subclass 500) holders must maintain enrolment at the same or higher Australian Qualification Framework (AQF) level for which they were granted a visa. If you are undertaking a doctoral degree (AQF10) or transferring to a master degree (AQF9), this condition does not apply. Transferring to a lower AQF level course or transferring from an AQF level course to a non-AQF Award course is a breach of the student visa condition and might result in cancellation of your visa.

You must take this important information into account when choosing a course and when considering a course change or a move to another provider.

For more information about student visas, visit the Department of Home Affairs website: homeaffairs.gov.au
Certification of documentation

UTS will accept copies certified by employees of one of the following:

- Australian Overseas Diplomatic Mission
- UTS Authorised Representative or Agent
- Public Notary Office
- the administration of the institution that issued the relevant document
- an Australian university.

Alternatively, documents verified by someone who is currently employed in Australia as:

- an accountant – members of the Institute of Chartered Accountants in Australia, the Australian Society of Certified Practising Accountants, the Institute of Public Accountants, the Association of Taxation and Management Accountants or Registered Tax Agents
- a bank or credit union manager
- a barrister, solicitor or patent attorney
- a police officer with the rank of sergeant and above
- a post office manager
- a principal of an Australian secondary college, high school or primary school
- a commissioner for declarations
- a Justice of the Peace where the registration number is clearly indicated.

What does correctly certified mean?

Correctly certified means that your original document has been sighted and the copy has been sworn to be a true copy of the original by one of the authorised people mentioned above. Scanned documents or photocopies will not be accepted.

Personal statement

The personal statement (approx. 500 words) should be written by you and should:

- describe your educational experience and how it has prepared you for studying this course
- indicate your knowledge and interest in the area in which you plan to study
- outline your expectations of the course for which you are applying
- reflect on any work (paid or voluntary) you have undertaken – you may also wish to include details of your work history
- mention anything else about you that will help us assess your application.

Portfolio

Students who apply for a design course may need to submit a portfolio. If required, you will be contacted with further details.
How to apply

Complete the application form

ONLINE:
Login and register to apply online:
student.uts.apply.studylink.com

PAPER:
Download an application form:
uts.edu.au/study/international/
esential-information/applying-study-uts

Attach supporting documents

You must attach:
- a certified† copy of your academic records. Documents not issued in English must be officially translated and submitted together with certified copies in the original language.
- a certified† copy of your English test score (or an official document stating that your previous education was conducted in English, see page 101)
- a portfolio or personal statement (where applicable, see page 103)
- a bank draft of A$100 non-refundable application fee or a copy of Tax Invoice (proof of payment) for A$100 non-refundable application fee.

ONLINE: Documents should be scanned and uploaded with your online application.

PAPER: Copy your documents and submit certified† copies with your application form*.

Submit your application

ONLINE:
1. Check that you have completed all sections.
2. Agree to the Terms & Conditions.
3. Pay your application fee online.
4. Submit

PAPER:
1. Pay the application fee, by either:
   - attaching a bank draft or bank cheque to your application form, or
   - making a payment via our secure payment site: uts.edu.au/internationaladmissionpayments
      After your payment has been approved, you must print a (PDF) copy of the tax invoice and submit it with your application.
2. Submit your application, in one of several ways:
   - in-person at UTS International*
   - by post to our postal address or by courier/registered post to our street address*
   - to a UTS Representative at an education event.
   - to one of our agents or representatives worldwide.

For contact details visit:
international.uts.edu.au

† See Certification of Documentation on page 103
* See back cover for our address
Acknowledgement of application

- **ONLINE**: You’ll receive immediate acknowledgement by email.
- **PAPER**: You’ll receive acknowledgement by email approximately one week after it has been received by UTS.

Your acknowledgement email will include a UTS application number. Refer to this in any future correspondence with us. After receiving all of your documents, the application process usually takes four to six weeks. We’ll advise you by email of your application outcome.

Application outcome

- **ADDITIONAL INFORMATION**: If your documents are insufficient for assessment, you will receive a request for additional information by email.
- **CONDITIONAL OFFER LETTER**: If your application is approved, but there are conditions you still need to satisfy, you will receive a conditional offer letter by email. Once these conditions have been met, you will receive an unconditional offer by email.
- **OFFER LETTER**: If you have met all specific requirements you will receive an unconditional offer letter by email.

Accept your offer

You will receive information on how to accept your offer with your Letter of Offer.

UTS reserves the right to withdraw an offer of admission or Confirmation of Enrolment (CoE) in cases where an applicant has not provided true and complete information for admission to a course or where UTS is not satisfied that the student meets the Genuine Temporary Entrant and/or Genuine Student requirements set by the Department of Home Affairs.

Application closing dates

**Autumn session (February/March start)**
- Applicants based outside Australia: 30 November
- Applicants based in Australia: 15 December

**Spring session (July start)**
- Applicants based outside Australia: 30 April
- Applicants based in Australia: 31 May

**Summer session (November start)**
- Applicants based outside Australia: 30 August
- Applicants based in Australia: 30 September
Fees, finance and RPL

Tuition fees

Tuition fees vary between UTS courses and must be paid in advance of each session. Textbooks and other course materials are additional expenses.

The fees for any session are determined by the number of credit points being undertaken in that session. Unless noted, the quoted session tuition fee assumes you will enrol in a standard 100 per cent credit point load for your chosen course, which is normally 24 credit points per session. Your actual session course cost may differ from this figure depending on the course and the number of credit points taken per session.

Fees listed are correct for 2023 only and are subject to an increase each calendar year.

For the most up-to-date information about tuition fees for UTS courses and the UTS Fees and Refund Protocol, visit: uts.edu.au/study/international/essential-information/fees-information

Student services and amenities fee

Australian universities charge a Student Services and Amenities Fee (SSAF) to support the maintenance of a range of student services at universities. At UTS, the SSAF provides support to Students’ Association sponsored activities. This includes the second-hand bookstore, services for skills and language development, the UTS Student Legal Centre, food, beverage and retail outlets, and student clubs run by Activate UTS.

The SSAF is applicable to all students at UTS. You are required to pay it in Autumn and Spring sessions in which you are enrolled. Your liability for the SSAF is based on your enrolled study load as at the census date. Students withdrawing after the census date are not eligible for a refund or remission of this fee.

To give you an estimate of the cost, in 2022 the SSAF was A$157.50 per session for full-time students (those with a study load of 18 credit points and above per session). The SSAF is subject to an annual government set indexation increase.

For further information go to: uts.edu.au/current-students/managing-your-course/fees-and-payment/student-services-and-amenities-fee-ssaf

Health cover

You are required to arrange Overseas Student Health Cover (OSHC) for the entire time that you are on a student visa. It is also a visa condition, and your responsibility as a student, to purchase and maintain this health cover throughout your stay in Australia. Students from Belgium, Norway and Sweden who have health cover in their home countries may be exempt from OSHC.

OSHC is insurance to assist international students to meet the costs of medical and hospital care that they may need while in Australia. OSHC will also pay limited benefits for pharmaceuticals and ambulance services.

Medibank is the UTS preferred provider for OSHC, but you may purchase OSHC from an authorised provider of your choice. The cost of cover may differ between insurers and the plan you choose. Please note that you will need to submit evidence of your OSHC arrangements when you lodge your visa application with the Department of Home Affairs.

For further information visit: medibankoshc.com.au/uts

homeaffairs.gov.au

Recognition of prior learning (credit recognition)

Your prior learning may be considered for credit towards a UTS graduate coursework program where the prior learning is related to assessable components of the course. For example, you may be granted:

– exemption from studying a specific subject within your UTS course if you can prove that you have previously studied a subject equivalent to a required UTS subject
– general advanced standing for a specific number of subjects if you can prove your prior studies are relevant to your UTS course, but do not directly correspond to specific subjects in the course and
– automatic credit if the subject and version required for your current course has been completed as part of another UTS course.

Note: Determination of eligibility for recognition of prior learning towards a particular course does not imply or guarantee that a place is available in that course.

APPLYING FOR RECOGNITION OF PRIOR LEARNING

You can apply for recognition of prior learning in your International Student Application form.

The following documents must be attached to your application:

1. certified copy of academic transcript(s)
2. copies of official subject outlines

For each subject exemption sought, you must provide a subject outline with the following details:

– year the subject outline is relevant to (this must be the same year in which you passed the subject)
– topics covered in the subject
– number of hours of class time
– method of assessment used
– textbooks required.

A paragraph from an institution’s calendar or handbook is not sufficient. Inadequate outlines will not be accepted.

Subject outlines must be in English. If subject outlines have been translated into English, they must be certified and stamped as translated by a professional translator.

</tbody>
</table>

This table details approximate costs that you may incur while studying at UTS and living in Sydney. It should be used as a guide only.

It’s a requirement of the Australian Government that prospective international students demonstrate they have access to at least A$21,041 a year (as of October 2019) to fund their living costs and additional funds if bringing partners or family. For the latest figures please refer to the Australian Government website: studyinaustralia.gov.au/english/live-in-australia/living-costs

Note: Prices vary depending on the condition of the property, the number of people you share with and the proximity of the accommodation to the centre of Sydney.

- * This figure is correct for 2022. It will increase in future years.
- ** Any amount below this will likely be twin share.
- ^ Transport costs will vary depending on how close you live to campus.

### Transdisciplinary Innovation

#### Combined Course – Bachelor of Creative Intelligence and Innovation*

A Bachelor of Creative Intelligence and Innovation is packaged as a combined degree with bachelor’s degrees from other faculties. For more information, refer to the relevant faculty’s course listing in this table.

#### Combined Course – Diploma in Innovation

The Diploma in Innovation (C20060) can be packaged with bachelor’s degrees from other faculties. The course is not offered as a stand-alone degree and must be taken concurrently with an undergraduate coursework degree at UTS. Submission of a direct application form is required. 

[uts.edu.au/future-students/undergraduate/admission-requirements/application-process/direct-applications](http://uts.edu.au/future-students/undergraduate/admission-requirements/application-process/direct-applications)

To make it easy for you to use this course guide, we’ve defined some of our key terms below. If you need more information, visit our website international.uts.edu.au or contact us at international@uts.edu.au

**Academic adviser:** a member of academic staff in a specific faculty who advises students to ensure they satisfy academic progression requirements.

**Admission:** the process of applying for a course or program at UTS, then being made an offer of admission, accepting that offer, and being admitted to study at UTS.

**Advanced standing:** see Credit recognition.

**Assumed knowledge:** additional prior knowledge specified by some courses as part of the entry requirements. This prior knowledge is often gained in specific subjects (such as physics or chemistry), or it may have been obtained elsewhere. If you do not have the required assumed knowledge, you may still be accepted, but a bridging course may be required.

**Campus:** the university grounds including the buildings.

**Combined degree:** the opportunity to study two programs from different academic areas at the same time and graduate with two degrees.

**Course:** an award course, non-award study or any part of a program of study offered by UTS, e.g. Master of Business.

**Credit point:** the unit of measure of workload for individual subjects (allocated based on the amount of work required in that subject). Credit points are gained by students enrolled in award courses when subjects are passed. When accumulated, credit points form one measure of the total requirements of a course. Most subjects at UTS are 6 or 8 credit points each.

**Credit recognition:** (also known as ‘advanced standing’, ‘recognition of prior learning’ and in some cases referred to as ‘exemption’ or ‘credit’) is the granting of credit to students for their previous learning for credit towards a course. For more information, please go to page 106.

**CRICOS code:** CRICOS stands for Commonwealth Register of Institutions and Courses for Overseas Students. The CRICOS code is an official code given to a course and institution to confirm that it is registered to be offered to international students.

**Distance mode:** a teaching method that does not require students to attend classes on campus. Instead, distance mode students access their subject materials online. International students undertaking distance mode courses cannot obtain a student visa to study the course in Australia.

** Electives:** some courses allow you to choose elective subjects outside your core study area as part of your course. Not all electives are available each session. Due to timetabling, you may not always get your first choice electives.

**English language requirements:** To be eligible for admission into a course, you must demonstrate proficiency in written and spoken English if your previous education was not conducted in English. Please see page 101 for specific English language requirements for each course. These are subject to change.

**Fees:** are charged per credit point. The cost of each credit point will depend on the course you are studying (see uts.edu.au/study/international/essential-information/fees-information for the most up-to-date information on fees). The fees in this course guide have been calculated based on a 24 credit point session in 2023, unless otherwise stated.

**Lectures:** classes that are taught in large groups, usually conducted in lecture halls. The lecturer will provide students with course material, which is often later discussed and debated in smaller tutorial groups.

**Major:** an area you choose to specialise in during your studies. Your course will be structured around a sequence of subjects that form this major. Students can choose other unrelated subjects to undertake in conjunction with major subjects, but cannot graduate unless the criteria of their chosen major is met.

**Pre-requisite:** one or more units of subject/s, specified by the faculty board that a student must already have completed before being eligible to enrol in a particular unit or course.

**Recognition of prior learning (RPL):** see Credit recognition.

**Sessions:** the blocks of time during which classes run on campus. At UTS, an academic year has three sessions: Autumn, Spring and Summer. For academic calendar dates, see page 127.

**Sub-major:** a group of subjects which, alongside the major, will form the structure of your course. The sub-major works the same way as your major in that there will be a specific number of required credit points that need to be met.

**Subjects:** units that cover different areas within your chosen course. They are a combination of core subjects (these are compulsory) and electives.

**Subject outline:** an official document that represents the statement of subject requirements that is authoritative for both the university and the students undertaking the subject. It includes details of the minimum essential requirements necessary to pass the subject, material and equipment that may be taken into an examination and may prescribe attendance and/or participation requirements. All students should receive a subject outline for every subject in the first week of class.

**Transnational:** delivery of Australian (or UTS) courses and qualifications overseas, allowing students to study Australian qualifications in their home country or region. Also known as offshore courses.

**Tutorials:** small classes of students that provide a more personal, interactive teaching space for students and tutors to discuss and debate topics related to the subject. Students can also ask any questions they may have about the course material.
2023 academic calendar

The UTS academic calendar includes three teaching periods: Autumn, Spring and Summer. Our courses are scheduled to ensure students can progress through the standard Autumn and Spring teaching periods. Some courses may offer a Summer session intake; please visit uts.edu.au/study/international/discover-uts/summer-session for more information about Summer session intake dates.

For more information about our intake dates, visit handbook.uts.edu.au/dates_academic_2023
