2023 International Course Guide

Undergraduate and postgraduate studies

Campuses in Melbourne, Geelong, Warrnambool and online.
Welcome to Deakin

At Deakin, we value creativity and innovation. We are about ideas and impact. We believe that education isn’t just about learning how to do something, it is about discovering how to do something better. We are excited to help you achieve this.

A friendly community
Australia is a great place to live and study. Like Australia, Deakin University is safe and friendly and people are willing to help you at every step of your study journey. We want you to succeed at your studies and enjoy your time in Australia so that you leave Deakin with a great education and great memories!

Career focus
We want you to graduate with the skills and confidence you need to get the job you want. That is why our programs are built around practical instruction on real-world problems. Work experience opportunities allow you to apply what you are learning as you learn, and enable you to meet like-minded people from around the world, helping you build a global network.

World-class degrees
Whether you are starting at university for the first time with an undergraduate degree or continuing with postgraduate study, Deakin has programs to satisfy almost every interest. We can help you find exactly the right program for your dream career.

Deakin offers world-class learning that is dynamically delivered both on campus and online. It’s what we do best.

Deakin has four physical campuses located in the Australian state of Victoria, as well as an innovative online learning environment. Where you choose to study will depend on your degree and individual circumstances.

Our on-campus programs use the same DeakinSync online learning platform as our online programs. With online access to class materials, assessments and resources, you have the flexibility to attend lectures and interact with your peers and teachers virtually when needed. This seamless interplay between the virtual and physical classroom offers the best of both worlds.

Learn more about our physical and online learning environments across the following pages.

Where will you live?

There are many options available for where and how you live in Australia. You can even live on campus, which is the best way to immerse yourself in the Deakin experience. Our campus accommodation options range from shared units to single apartments, meaning you can choose a lifestyle that is affordable, COVID safe, convenient and secure.

With access to shared spaces for study and leisure, and a range of events on offer, you are guaranteed to meet wonderful people from around the world.

All our campuses are located in cities with rental housing opportunities that are easily accessible by many modes of transportation.

Whether you live on or off campus, Deakin offers a range of services to help students and staff stay healthy and safe – physically, mentally and spiritually. No matter where you choose to live, you will make lifelong friendships.
On-campus learning

**Melbourne**

Melbourne is the multicultural heart of Australia with great food, fun festivals, exciting sporting events and a vibrant arts community.

Deakin's largest campus is in Burwood, surrounded by leafy open spaces and parkland. With everything from high-tech labs to exceptional cafes, it is an ideal place to study. The Melbourne Burwood Campus is easily accessible from multicultural hubs, such as Box Hill and Camberwell and Melbourne's central business district.

**Geelong**

The historic coastal city of Geelong has a big city vibe where old, industrial buildings have been transformed into creative spaces and fabulous eateries. Geelong offers an excellent lifestyle blend of arts, sport and nightlife, with easy access to regional food and surfing hotspots on the scenic Bellarine Peninsula.

**Geelong Waterfront Campus**

Located in Geelong's central business district on Corio Bay, the campus is a unique blend of historic and modern architecture housing leading-edge teaching and learning facilities. Near campus, you can find everything you need, including cafes and shops. Or if you want a quiet place to read, the beach is a 2-minute walk!

**Geelong Waurn Ponds Campus**

Just outside the city centre, this campus is loved by students and nature-enthusiasts alike. It boasts lush green space dotted with futuristic buildings that house some of the most advanced teaching and research facilities in the world.
Your study destination

On-campus learning

▶ Warrnambool

Located on the world-famous Great Ocean Road, Warrnambool offers a unique blend of regional and coastal environments. Deakin’s Warrnambool Campus is a community where students and lecturers can get to know one another and work closely together.

The average class size here is smaller than our other campuses, and most other universities, meaning you will benefit from a more personal approach to your studies.

Built on the banks of the Hopkins River, with surf beaches and national parks nearby, you will experience an Australian lifestyle like no other. What can be better than waking up and having a refreshing river swim before class?

Deakin Warrnambool may be regional but it’s certainly radical when it comes to cutting-edge facilities and research. The globally recognised research carried out at this campus supports the very environment it sits in, and beyond.
Online learning

Though the global pandemic has brought online learning to the forefront everywhere, it is not new to Deakin. We are pioneers in online learning and continue to be world leaders with our innovative online teaching platform.

Our range of programs offered online gives you the freedom to study what you want, how you want, when you want, where you want. Instead of you packing up your life and coming to us, we bring the university to you with live-streamed seminars and real-time class discussions. Or you can download recordings of your lectures to watch at your convenience.

We offer easy-to-use online learning tools. We hope you won’t need tech assistance, but if you do we have Australia’s top-rated IT support (according to the Voice Project IT Service Quality Support Benchmark Survey).

With all of our academic and personal support available online, everything you need is just clicks away.

What are the benefits of studying online with Deakin?

- Digital is in Deakin’s DNA. For the past 40 years, we have been perfecting distance and online learning. Join our dynamic community of 24,000+ fully online students
- When you study online at Deakin you will benefit from our premium online learning platform to access classes, seminars and resources.
- Mastering your studies requires ambition, independence and organisation. We offer a range of online support to help you stay motivated.
- Studying online is accessible and flexible, enabling you to connect with other students for study, support and socialising.

Learning through COVID-19

As a leader in digital learning, we know our students value Deakin’s connected and engaging online study environment.

We also understand that many students value attending campus. Whatever campus you choose, you can be confident of not just a COVID-safe environment, but a tailored and collaborative learning experience, designed to achieve the best possible combination of online and on-campus activities while adhering to government regulations. Dynamically delivered, world-class learning – it’s what Deakin does best.

Beyond tuition fees, there are other costs you need to consider for study in Australia.

Basics like food and accommodation – whether you are living on or off campus – will be your biggest expense, but remember to budget for fun. When thinking about your finances, don’t miss out on having coffee with your new friends, going to the movies and maybe even taking the occasional road trip!

Cost of living varies depending on where you choose to live. For example, living in Melbourne is more expensive than living in Geelong or Warrnambool.

The information to the right lists some estimated costs. The Australian Government provides average living cost estimates for international students living and studying in the Australian state of Victoria. For the most up-to-date estimates visit studyinaustralia.gov.au.

Overseas Student Health Cover

In addition to tuition fees, most on-campus international students are required to pay Overseas Student Health Cover (OSHC). Unless you have indicated that you have purchased or intend to purchase OSHC elsewhere, the amount payable will be included in your Letter of Offer – you will receive this from Deakin if your application is successful.

Living on-campus

Deakin’s on-campus housing service includes:

- A private bedroom, which is furnished (including a bed and desk), carpeted, heated and has Wi-Fi.
- Shared kitchen, bathrooms, spacious living and dining room, and air conditioning.
- Social, personal, academic and sporting activities calendar.
- Support from Deakin residential management and administration team, and 24-hour security.

Accommodation

- Hostels and guest houses: A$90 to A$150 per week
- Shared rental: A$95 to A$215 per week
- On campus at Deakin (inclusive of amenities): A$264 to A$326 per week
- Homestay: A$235 to A$325 per week
- Rental: A$185 to A$440 per week

Other living expenses

- Groceries and eating out: A$140 to $280 per week
- Gas, electricity: A$10 to A$20 per week
- Phone and internet: A$15 to A$30 per week
- Public transport: A$30 to A$60 per week
- Car (after purchase): A$150 to A$260 per week
- Gym membership: A$30 to A$100 per month
- Netflix: A$10 to A$20 per month
- Coffee: A$3 to A$6 per cup
- Haircut: A$10 to A$100 each visit

All costs are in Australian dollars.

1 These price ranges are a guide only. Actual costs may vary.
2 On-campus estimated cost is for Deakin’s Melbourne Burwood Campus and includes amenities, such as electricity, gas and internet. On-campus accommodation costs for the Geelong and Warrnambool campuses are lower.
Minimum cost of living

The Australian Government Department of Home Affairs has financial requirements you must meet in order to receive a student visa for Australia. From 23 October 2019 the 12-month living cost is:

- You: A$21,041 per year
- Partner or spouse: A$7,362 per year
- Child: A$3,152 per year
How we can support you

University is one of the most exciting times of your life and we want you to have an incredible experience. That is why we are here to support you at every stage of the journey, helping you make the most of your time at Deakin.

Get started

Our priority is to help you make a smooth transition into life at Deakin, whether you are studying online at home or at an Australian campus. From your first enquiry through to your first class and beyond, someone is available to answer your questions. Remember to participate in Orientation Week to learn about extracurricular opportunities, such as social clubs, that are available both online and on campus.

As part of Deakin’s welcome program we offer:

- airport pickups
- orientation programs
- workshops
- social events
- study groups
- opportunities to get involved in campus life
- plus additional orientation activities for students who live on campus.

1 Only available to on-campus students.

Academic and personal success

In addition to the academic support you will get from your instructors, student mentors are available to help you with practical and social matters as part of Deakin’s Students Helping Students program! Many mentors are international students just like you. If you are having a hard time settling into the Australian lifestyle or missing home, there’s always someone who can help.

If you need professional support with your physical or mental health, all campuses have facilities to provide healthcare and counselling services. Our experienced psychologists and social workers offer free and confidential counselling support to all Deakin students located in Australia.
Deakin TALENT

There are a lot of reasons to go to university, but in the end it is about starting a career. Deakin’s 24/7 ‘anytime anywhere’ careers service, Deakin TALENT, is here to help you with exactly that.

Through a series of workshops, events, and online resources the Deakin TALENT International Student Careers (DISC) program provides assistance with:

• understanding the Australian labour market,
• strengthening your professional network, and
• targeted job search strategies.

Scholarships

Financial stress can hinder your academic journey. Scholarships and bursaries are available based on a range of criteria, including access and equity for specific study areas and citizens of specific countries.

For high-achieving students, Deakin offers prestigious scholarships, such as:

• Deakin Vice-Chancellor’s International Scholarship, which covers a 100% or 50% tuition fee reduction.
• Deakin International Scholarship, which covers a 25% tuition fee reduction.

We do not want you to miss out on an opportunity, so make sure you look at the full list of scholarships open to international students, and information on how to apply.

The Deakin TALENT FreelancingHUB

The Deakin TALENT FreelancingHUB is an exciting initiative designed to develop job-ready graduates through work experience opportunities. The HUB places you in not-for-profit or community organisations to develop a solution to a real-world project. Students are assigned an experienced mentor and project manager and will gain key employability skills, such as communication, collaboration, creativity and critical thinking. FreelancingHUB placements are open to students across all study areas, but places are limited.

LEARN MORE
Entry requirements

Deakin degrees have both academic and English language entry requirements that you will need to meet in order to gain entry into the University.

Academic admission requirements – Undergraduate
Each undergraduate degree at Deakin has its own minimum academic admission requirements, such as your high school marks. The specific entry requirements for your country and your Deakin degree are listed at deakin.edu.au/int-entry or you can scan the QR code. Be sure to check this information carefully and speak with Deakin or your agent if you have any questions.

If you do not meet the entry requirements
If you do not meet the academic admission requirements for a Deakin degree, there may still be a pathway available for you to study at Deakin in the future. See page 12 of this guide to learn about the alternative pathway options to Deakin.

Beyond the basics
When evaluating your application, certain high school subjects can add weight to your application depending on your chosen course. For example, if you are applying to science or health programs, high scores in mathematics and science may be awarded extra credit when you apply.

Some degrees at Deakin may require additional documentation prior to admission, such as a portfolio of work, a current police check from your country, your resume or a personal statement.

When required, a personal statement is your opportunity to provide greater insight into who you are, your qualifications, background and why you want to attend Deakin. This is your chance to let us know why you would make a great Deakin student. It could also be the key to getting you into the course of your dreams, so it is important you take your time and put in the extra effort.

Academic admission requirements – Postgraduate
Each Deakin postgraduate degree has its own eligibility and academic entry requirements.

If you are applying to study a graduate certificate or graduate diploma, you must have successfully completed an approved undergraduate degree from an approved university or other educational institution, or have relevant qualifications gained by examination or professional or industry experience.

Masters by coursework applicants must have a bachelor degree, or comparable, from an approved university or other educational institution. Some degrees may have additional entry requirements specific to the study area.

Masters by research applicants must hold a bachelors degree with honours (lower second class and above), or equivalent, from a recognised tertiary institution in an appropriate discipline. You must also have demonstrated capacity to undertake significant research in the proposed field for which Deakin can provide the required supervisory expertise.

Doctoral applicants must hold a bachelors degree with honours (upper second class and above) or a masters degree by research from a recognised tertiary institution in an appropriate discipline. They must also demonstrate their capacity to undertake significant research in a field for which Deakin can provide the required supervisory expertise.

This guide does not detail research degrees offered by Deakin. To enquire about completing higher degree by research with Deakin, email deakin-int-hdr@deakin.edu.au or find out more at deakin.edu.au/research-degrees.

Visas
International students who want to study in Australia require a visa. This could be a student visa, but there are also other visa types you could be eligible for. It is important that you know the type of visa you are granted so that you can meet the requirements of that visa.

You can learn more about student visas and other important visa information at Australia’s Department of Home Affairs website.
English language requirements
To enrol in a Deakin degree, you will need to be able to read, speak, write and listen in English at a certain level. Students must provide evidence of at least one of the following:
• obtaining the required scores on a recognised English language test, such as IELTS or TOEFL
• completed university (tertiary) or high school (secondary) studies taught in English
• lived and worked in an English-speaking country for at least five years.
Different Deakin programs have different English language requirements so please ensure that you have read, and meet, the requirements for your chosen program.

English language tests accepted by Deakin

International English Language Testing System (IELTS)
IELTS is the most popular English language test in the world and is available in nearly every country. IELTS tests assess listening, reading, writing and speaking skills.

Test of English as a Foreign Language (TOEFL)
The TOEFL test is available online or, for those who cannot access an online test, in paper form. The majority of TOEFL test takers worldwide sit the TOEFL iBT test.

Other accepted English language tests
• C1 Advanced (formerly Cambridge English Advanced CAE)
• C2 Proficiency (formerly Cambridge English: Proficiency CPE)
• English language test for healthcare professionals (OET)
• Pearson Test of English Academic (PTE Academic)

English language in this guide
This guide uses IELTS exam scores as the standard for English language requirements, but if you have taken a test other than IELTS you can find equivalent requirements in the table below.

OET: English language test for healthcare professionals
DUELI EAP: Deakin University English Language Institute English for Academic Purposes program
Your pathway to Deakin

Don't worry if you do not meet some of the academic or English language requirements for entry into a Deakin degree straight away – we can still help you find a pathway to study with us.

Deakin College – a stepping stone to Deakin University

Are you worried that your high school studies do not meet the admission requirements for Deakin University? Or maybe you feel that you are just not ready to take that next step into university? Deakin College offers programs that can help you transition into university with ease.

You can enrol into Deakin College for either a foundation or diploma program. Foundation programs prepare you for entry into an undergraduate program at Deakin University or to transition into a diploma program. Graduates of the College’s programs are eligible to apply for entry into the second year of a bachelors degree. With small class sizes and a highly supportive environment, Deakin College is like finishing high school at university. Or starting university at high school.

As some international undergraduate programs do not meet Deakin’s academic standards for postgraduate study, Deakin College also offers the Masters Qualifying Program (MQP). The MQP is an alternative pathway into postgraduate business degrees at Deakin University.
Meeting the English language requirements

The Deakin University English Language Institute (DUELI) is recognised as one of the best English language centres in Australia. DUELI pathways offer the opportunity to develop your English while improving your study skills and becoming familiar with studying at an Australian university.

Because some undergraduate and postgraduate courses have different English language requirements, DUELI offers a number of short programs that build on one another. You can progress through the programs you need for your next level of study, whether it be a diploma at Deakin College or a postgraduate degree.

DUELI programs include:
- English for Academic Purposes
- General English
- English for Commerce
- English for Nursing
- English for Teaching
- IELTS Preparation
- Intensive Academic Preparation.

DUELI programs start every five weeks and are offered online and at Deakin’s Melbourne Burwood Campus.

Postgraduate skills support

Both DUELI and Deakin College offer programs to help postgraduate applicants transition into study at Deakin University. Completion of the 4th level of DUELI’s English for Academic Purposes program meets the language requirements for postgraduate study at Deakin.

If you are interested in studying postgraduate business, Deakin College offers a short pre-master program for applicants whose academic qualifications are marginally below the entry requirements for coursework masters programs.
How to apply

You can apply to Deakin at any time throughout the year. Deakin’s international admissions team is always here to answer questions and are ready to process your application quickly so you don’t have to wait and wonder.

Application processes and requirements may differ slightly depending on your chosen degree, as well as your country of residence and entry pathway. Be prepared and give yourself time to gather the required paperwork.

1. Find your degree
Choose the Deakin degree you would like to study.
You can speak directly with the University or with a Deakin-authorised agent to support you at any stage throughout the application process. Both are very knowledgeable and always happy to help.

2. Understand the academic entry requirements
This is important! Read all the academic entry requirements for your degree before you submit your application to Deakin. Entry requirements may differ for some study areas or be dependent on your country of residence. Minimum requirements for our undergraduate and postgraduate programs can be found on page 10 of this guide. Any special requirements will be listed on the specific course page of the Deakin website.

3. Understand the English language requirements
All applicants need to meet Deakin’s English language requirements to the level necessary for their chosen course. Minimum International English Language Testing System (IELTS) scores are included on the course information pages of this guide. To learn more about IELTS and other English language tests see page 11.

4. Gather supporting documents
When you submit your application to Deakin, make sure you attach all required supporting documentation. Otherwise, your application could be delayed or, even worse, rejected. Give yourself plenty of time to get organised. All documents must be translated into English. Most documents, such as transcripts and identification, need to be certified before they are submitted to Deakin.

If you do not meet the entry requirements
Remember, if you do not meet all the entry requirements there are a range of pathway options that may allow you to study at Deakin. Learn more about the pathway options offered through Deakin College and the Deakin University English Language Institute (DUELI) on pages 12 and 13 of this guide.

Applying for credit
If you have completed relevant previous study in your home country you may be eligible to apply for credit towards your Deakin degree.
Submit your application

You can submit your application to study at Deakin by:

• speaking with a friendly Deakin-authorised agent, who understands what is required for a good application, as well as navigating the complexities that can come with visa applications, or;

• applying directly to Deakin through Deakin’s StudyLink Connect platform.¹

Watch our video on how to apply

We understand that the application process can be overwhelming, so we have developed a video guide featuring Deakin students Tatyana and Kaweesha. They provide a useful introduction to the process and talk through entry requirements, organising your documents and submitting your application.

¹ Please note that some students, depending on their country of citizenship, are required to submit an application through a Deakin-authorised agent. To view the list of countries this applies to, visit our website.
Find your degree

When thinking about university, think of it as a continuation of your high school journey. The classes you enjoyed and did well in are most likely the study areas you will excel in.

The rest of this guide outlines the degrees offered at Deakin. Learn about our state-of-the-art facilities, work experience opportunities, accreditations and more!

Key terms

Unit
A unit is normally one trimester long and most have a value of 1 or 2 credit points.

Credit point
For each unit you successfully complete, you will receive the credit point value of that unit towards your studies. You must complete a specified number of credit points to obtain your degree.
- Most undergraduate degrees require 24 or 32 credit points.
- Most masters degrees require 12 or 16 credit points.
- Graduate certificates require 4 credit points.
- Graduate diplomas require 8 credit points.

Major sequence and specialisation
In undergraduate studies, a major sequence is a group of 6 or 8 related units in a particular study area or academic discipline.
In postgraduate study, a specialisation is a group of related units on a particular area or field of study.
A successfully completed major sequence or specialisation will be listed on your academic transcript.

Weighted Average Mark (WAM)
You will see this term regularly in the entry requirements sections of this guide. It represents the weighted average mark required.

Campuses
- B Melbourne Burwood Campus
- WP Geelong Waurn Ponds Campus
- WF Geelong Waterfront Campus
- WB Warrnambool Campus
- O Online

Trimester intakes
Deakin uses a trimester system to classify intakes. Two trimesters are still equal to a full academic year, but the third trimester can offer the opportunity to finish certain degrees sooner.
- T1 Trimester 1 (March)
- T2 Trimester 2 (July)
- T3 Trimester 3 (November)

Course duration

Undergraduate
- Bachelor degrees, your first university degree, take three to four years to complete.
- Combined bachelor/masters programs allow you to fast-track the two qualifications.
- Bachelor degree with an honours year provides you with the foundational knowledge to undertake a research degree.

Postgraduate
- Graduate certificates are usually one trimester in duration and are designed to build practical skills.
- Graduate diplomas are usually two trimesters in duration and often build on the understanding and skills developed during a graduate certificate.
- Masters by coursework are typically 18 months to two years full-time study, or up to four years when taken part time.
- Masters by research take two years full time to complete and can serve as a prerequisite to applying for PhD studies.
- Doctoral (PhD) programs take a minimum of three years full time.

Course code
S465 Every Deakin degree has a corresponding course code for easy reference and identification.

Course fees
Example: A$30,800
The annual course fee indicates the tuition fee for two trimesters of full-time study, or 8 credit points, unless otherwise indicated. Additional fees may apply and course fees may be subject to change. All fees are listed in Australian dollars.

English requirements
Example: IELTS score 6.5/6
IELTS is the International English Language Testing System. The numbers reflect the minimum overall score required as well as the lowest score allowed for any band (overall score/lowest band score). Deakin also accepts the results of other English language tests. For more information about English language requirements see page 11.

Combined degrees, graduate certificates and graduate diplomas
Although they do not feature in this guide, Deakin also offers a range of combined degrees, graduate certificates and graduate diplomas to international students. To explore these options visit deakin.edu.au/find-a-course.
Imagine walking in the city, looking at an impressive building and saying ‘I did that’!

With fantastic instructors and award-winning state-of-the-art facilities, Deakin is the perfect place to study architecture and construction management. Our practical, hands-on learning experiences prepare you to work around the world, creating homes, buildings and cities of the future.

Ranked in the top 1% of all universities worldwide for Architecture and Built Environment¹

Our Bachelor of Design (Architecture) and Master of Architecture are internationally recognised²

State-of-the-art facilities equipped with 3D printers, laser cutters, CNC routers and traditional tools and machinery

¹ QS World University Rankings by Subject 2022.
² Deakin’s Bachelor of Design (Architecture) and Master of Architecture are recognised internationally, for example, by the Board of Architects Malaysia.
³ Students have the opportunity to complete this course in three years of full-time study by undertaking units in Trimester 3 (November).
Develop the skills employers want

Studying architecture at Deakin means you will gain hands-on experience from the first day of your degree. You will build models, examine professional architects’ projects, and develop drawing and digital design skills. Our construction management students also experience practical learning in all aspects of industry, including cost estimation, project management, construction methods, contracts and scheduling.

At Deakin, architecture and construction management students work together. This unique multidisciplinary approach gives you an industry advantage – experience working with allied professions, just like you will in the real world.

Gain professional recognition

Your Deakin qualifications are recognised nationally by industry through course accreditations. All of our courses are regularly examined by key professional groups, including the:
- Australian Institute of Architects (AIA)
- Australian Institute of Building (AIB)
- Australian Institute of Quantity Surveyors (AIQS)
- Architects Accreditation Council of Australia (AACA)
- Architects Registration Board of Victoria (ARBV)
- Chartered Institute of Building (CIOB)
- Royal Institution of Chartered Surveyors (RICS).

You will also gain a competitive edge in the workplace with real-world expertise and practical skills. Deakin is ranked #1 for skills development and teaching quality in the Australian state of Victoria.1

Career opportunities

Known for their adaptability, design and technical knowledge, our graduates are well regarded in their professions, with the initiative and ability to hit the ground running.

Our graduates find employment in a range of positions, including:
- commercial
- contract administration
- industrial
- project management
- residential.

Our Bachelor of Design (Architecture) emphasises practical learning and is designed to meet the needs of students who want to complete the Master of Architecture and practise as qualified architects. You could gain employment in private architectural practices, government organisations, property development, or other building and design fields.

1 2019 Student Experience Survey, UA benchmark group Victorian universities.
Studying business and law at Deakin is an investment in your future. Our highly-ranked degrees feature projects with real clients and work placements at large multi-national organisations to give you a taste of your future. You will graduate with skills, confidence and an international peer network that will put you on the path to success.

1 This intake is available online only.
2 Not all major sequences are available at the Warrnambool Campus. Students undertaking units in major sequences that are not available at the Warrnambool Campus may enrol in units offered online.
3 Students enrolled at the Geelong Waterfront in this course will be required to undertake units of study at both the Geelong Waurn Ponds and Geelong Waterfront campuses.
4 This intake is available at the Melbourne Burwood Campus and online only.
5 A shorter course duration may be available to those who have completed previous studies in a related discipline and/or have relevant work experience. Visit the course page on the Deakin website for more details.
6 This intake is only available for part-time study online.
7 Students commencing in Trimester 3 can only undertake the elective unit.
Gain practical, real-world experience

Deakin’s business degrees offer work experience opportunities known as Work Integrated Learning (WIL). These include internships, cultural engagement, industry-based learning, consultancy experience, and entrepreneurship experience, some of which are offered by industry partners in Australia and overseas.

Deakin’s law programs focus on workplace learning. The legal profession is undergoing rapid change and lawyers are increasingly required to provide clients with practical commercial advice (in addition to pure legal advice). Deakin’s practical learning approach helps to build these skills and a portfolio of experience, giving you an edge upon graduation.

Tailor your undergraduate studies to your interests

How you study business at Deakin depends on your interests and career aspirations. With a Bachelor of Commerce degree, you can specialise in one of eight majors that reflect traditional business skills, and have the option of doing a minor in one of 18 areas of specialisation. The Bachelor of Business offers eight majors in contemporary business areas, or you can choose from our focused specialist degrees: Bachelor of Business Analytics, Bachelor of Human Resource Management (Psychology), Bachelor of Marketing (Psychology), Bachelor of Property and Real Estate, Bachelor of Sport Development or Bachelor of Business (Sport Management).

Benefit from our industry connections

Deakin’s close ties with industry, government departments, professional associations and other educational providers mean you will:

- study courses that match current industry best practice
- participate in work placement opportunities
- gain an accredited qualification that stands out to employers.

Depending on units taken, commerce graduates are eligible to apply for admission to the following organisations:

- Association of Chartered Certified Accountants (ACCA)
- Association of Financial Advisers (AFA)
- Australian Human Resources Institute (AHRI)
- Australian Marketing Institute (AMI)
- Certified Practising Accountants (CPA)
- Chartered Accountants Australia and New Zealand (CA ANZ)
- CFA Institute University Affiliation Program
- Financial Adviser Standards and Ethics Authority (FASEA)
- Financial Planning Association of Australia (FPA)
- Institute of Public Accountants (IPA).

Communication and media

Do you want to tell people’s stories as a journalist? Or maybe develop a brand’s core story through advertising and public relations? Study communication and media at Deakin and learn how to master the tools of your trade.

Learning in our on-campus studios and creative spaces prepares you for work placement where you will be tasked with putting your knowledge into practice in real-world settings. From this you will build a portfolio of work and the connections you need to start your career.

Ranked in the top 1% of all universities worldwide for Communication and Media studies¹

Students who specialise in public relations may be eligible for accredited student membership with the Public Relations Institute of Australia (PRIA)

Borrow professional equipment from our comprehensive Media Resource Centre, including lighting, audio gear, digital video cameras and SLR cameras

Enjoy state-of-the-art facilities
Access a range of resources at Deakin, including our:
- television broadcast studio with live-streaming capability
- green-screen studio
- editing and grading suites
- sound studio
- professional photographic light studio
- digital photographic printing and editing facilities
- darkroom and film scanning facilities
- visual arts and design studios
- gallery and presentation spaces
- dance and drama studios
- black box theatre
- wardrobe and costume department
- collaborative news production area with an editorial hub.

Gain real-life experience
Deakin’s communication and media programs offer the opportunity to work with professionals in an industry setting. You could gain an internship with an advertising, digital media or public relations agency; a newspaper, radio or television station; or allied media organisations. You will then follow up with further classes to build on your experience, refine your CV and advance your networking and interview skills. Graduate work-ready for your dream career, and as a more valuable job applicant.

Learn from leaders in their field
Our academic staff will inspire, encourage and support you at every stage of your studies. Staff are experienced industry professionals who are enthusiastic about sharing their skills and knowledge and providing you with valuable industry insights. Some of the organisations our experienced academic staff have worked with include:
- ABC
- Arts Victoria
- Associated Press
- Fairfax
- Film Victoria
- Optus
- Penguin Books
- Samsung
- SBS
- Screen Australia.
Creative arts, design and writing

Explore the outer reaches of your imagination when you study creative arts, design, or creative writing with Deakin.

We will help you unlock your creative side while you master the tools of your trade in our dedicated studio spaces. With a focus on collaboration across disciplines, you will graduate with a portfolio of work that highlights the skills and knowledge you need to succeed.

Ranked in the top 1% of all universities worldwide for Communication and Media studies¹

Our design degrees are formally recognised by the Design Institute of Australia (DIA) and meet industry standards

Showcase your talents through mixed-media and pop-up installations at Phoenix Gallery at the Melbourne Burwood Campus

Enjoy state-of-the-art creative facilities

At Deakin, you will have access to dedicated studios for drama and dance; a wardrobe and costume department; visual arts studios; photographic darkrooms; a lighting studio, print lab and digital imaging suites. The innovative Phoenix Gallery is a centrepiece of our creative spaces at the Melbourne Burwood Campus and is well suited to mixed-media exhibitions and pop-up installations. The Project Space at the Geelong Waterfront Campus is a contemporary and experimental exhibition space. The campus is also home to an inspiring creative arts hub, housing the latest technology, dedicated studio spaces and a collaborative work atmosphere.

Learn from leaders in the sector

Be inspired, encouraged and supported through every stage of your studies. Our academic staff are experienced industry professionals who are enthusiastic about sharing their skills and knowledge and offering you valuable industry insights. Their international expertise and awareness ensures you work on industry relevant projects to build your career at the highest level of design innovation.

Design students will learn from industry mentors who will guide you through a range of design projects. This ensures you develop professional industry experience so that you are prepared for the challenging and exciting world of design.

In the Master of Arts (Writing and Literature) you will be paired with an academic staff member who is working and recognised in their specialist craft. You will get one-on-one mentorship to help you develop your critical eye, theoretical understanding, and creative voice.

Access professional equipment whenever you need it

Use professional equipment from our comprehensive Media Resource Centre, including lighting and audio gear, digital video and SLR cameras for projects and practice. Our team of technicians provide support and expertise with any technical questions you may have. Deakin is also one of the first universities in the world to offer students access to Epic Helium 8K cameras – the digital camera of choice for the world’s best filmmakers and photographers.
If you want to make a big difference to young people’s lives, Deakin’s highly-ranked education and teaching degrees are for you. With a focus on developing leadership skills, we provide a solid foundation for your future career. No matter what age group you want to teach, from early childhood to secondary, we will ensure you gain the knowledge to inspire others.

Ranked 43rd in the world for Education\(^1\)

Our teaching programs are accredited with the Victorian Institute of Teaching (VIT) and graduates are eligible to register with the VIT\(^2\)

We maintain close links with the education sector to ensure our courses are developed and reviewed with industry and professional input.

---

**Practical learning**

Deakin’s Professional Experience Program enriches the learning experience of our students. Working with more than 1400 schools and early childhood settings across Australia, a dedicated team will help you find the right placements based on your interests, skills, residential location and mode of transport.

We will arrange at least 60 days of placements for you in schools or early childhood settings where you will learn from experienced teachers. On campus, you will have access to specialised teaching spaces to further prepare you for the classroom, including the Nyaal interactive learning precinct at the Geelong Waurn Ponds Campus where you can experience different classroom environments virtually in a 360-degree theatre.

**Accreditation**

Deakin’s initial teacher education courses are accredited by the relevant regulatory bodies, including the Victorian Institute of Teaching (VIT) and the Australian Children’s Education and Care Quality Authority (ACECQA).

---

**The Casper test**

Depending on your chosen degree, you may need to sit the Casper test to demonstrate your suitability for a teaching career. Casper (Computer-based Assessment for Sampling Personal Characteristics) is an online, scenario-based test that assesses a number of non-academic attributes, including communication, ethics, empathy, motivation and professionalism. You do not need to prepare for the test, but we recommend that you look at examples online so you can familiarise yourself with the types of questions you will be asked.

**Learn from the experts**

You will be taught by academic staff with experience in the sector who are recognised as leaders and innovators in their fields. Deakin staff have strong partnerships with education communities, governments and research institutions which you can benefit from.

---

\(^1\) QS World University Rankings by Subject 2022.

\(^2\) Our VIT-accredited degrees include Bachelor of Education (Primary), Bachelor of Health and Physical Education, Bachelor or Arts/Master of Teaching (Secondary), Bachelor of Science/Master of Teaching (Secondary), Master of Teaching (Primary and Early Childhood), Master of Teaching (Primary), Master of Teaching (Primary and Secondary) and Master of Teaching (Secondary). The Bachelor of Early Childhood and Primary Education is currently undergoing accreditation by the VIT.
**Engineering**

Design and innovation are at the heart of engineering at Deakin. Our engineering programs are hands-on and let you play with some of the most exciting technology in Australia. Whether you are building robots in our state-of-the-art labs, or solving complex problems on work placement, you will be learning skills that prepare you for your dream career.

1 Online students will be required to participate in campus-based intensive activities each trimester at the Geelong Waurn Ponds Campus.
Ranked in the top 1% of all universities worldwide for Engineering¹

Our civil, electrical and electronics, mechanical, mechatronics or environmental² engineering degrees are professionally accredited by Engineers Australia

Make real-world connections with industry through placements, projects and our industry advisory group

Practical learning
Gain practical learning experiences throughout your engineering degree with Deakin’s innovative and student-centred approach to teaching. You will spend 50% of each trimester learning via team-based projects, taking real-world industry problems, and designing, researching, testing and evaluating solutions with the support of our academic staff.

Professional Engineering Practice is also a compulsory unit in many undergraduate engineering degrees at Deakin. You will gain a minimum of 60 days of work experience in one or more organisations, giving you insight into your future career options.

Graduates in high demand
With an international skills shortage in the engineering industry, and roles expected to rise significantly in the next five years, Deakin graduates are in demand both in Australia and other countries.

World-class facilities
As a Deakin engineering student, you will have world-class facilities and equipment at your fingertips. You will experience state-of-the-art laboratory facilities, including the AusNet Services electrical engineering lab, 3D printing laboratory, high voltage lab, virtual reality (VR) laboratory, and more. You will have access to infrastructure facilities for the design of buildings, transportation networks, water and wastewater systems.

The right degree for you
Deakin offers professional and non-professional streams in our postgraduate engineering programs. The reason is we want to recognise your prior experience as well as your career aspirations, so there are slight variations.

The professional streams have extended discipline knowledge and essential skill development in research and project delivery. In addition, the professional streams are two-year degrees, which could mean you are eligible for post-study work rights in Australia.

¹ Times Higher Education Subject Rankings 2022
² Deakin University’s Bachelor of Environmental Engineering (Honours) has been designed in accordance with Engineers Australia professional accreditation requirements. Deakin has also been awarded provisional accreditation for the Bachelor of Environmental Engineering (Honours) with Engineers Australia.
Join the fight for our future and learn to preserve our planet for generations to come.

If you are dreaming of a career that has a positive impact on the world, study environment and sustainability at Deakin. With a focus on practical experience, we can get you on the path to a rewarding career in areas such as wildlife conservation, marine ecosystems or environmental education.

Ranked in the top 1% of all universities worldwide for Ecology¹

After graduating you may become a Certified Environmental Practitioner through the Environment Institute of Australia and New Zealand

We work closely with the Department of Environment, Land, Water and Planning (DELWP) and Parks Victoria

Hands-on learning

All of Deakin’s undergraduate environment degrees have a focus on hands-on learning, with experiences taking place from year one. Depending on the degree you choose, you may learn skills such as measuring the health of freshwater environments, coastal planning, surveying wildlife populations, conducting sustainability assessments, and studying seals and penguins.

Students may undertake work in:

- community environment parks and sustainability centres where you will learn about sustainable communities, green technologies and community engagement with diverse stakeholders;
- urban parks where students learn how to conduct vegetation surveys, analyse water quality, map soils and microclimates, and analyse groundwater pollution and water table profiles;
- businesses to analyse waste management programs and develop waste management strategies and environmental improvement programs;
- national parks to learn about scientific research, data analysis and teamwork, and to gain experience handling animals such as bandicoots, potoroos, antechinus, possums and gliders.

Other activities undertaken include GPS and GIS exercises, radio-tracking, camera trapping and bird surveys.

Gain real work experience

All Bachelor of Environmental Science degrees at Deakin include professional experience opportunities. This allows you to complete a work placement for a minimum of two weeks (80-160 hours) within a relevant, course-related organisation.

World-class facilities and equipment

Your learning is enhanced by a range of cutting-edge facilities and equipment, like our:

- Geographic Information Systems (GIS) lab
- wildlife-tracking technology
- aquaculture facilities
- infrared motion-sensing wildlife cameras
- high-tech research labs
- research vessels
- remotely operated underwater vehicles.

We also partner with the Queenscliff Marine Science Centre, offering students access to an extensive flow-through system and labs, as well as a variety of nearby marine and coastal ecosystems.
Health professionals have rewarding careers helping people lead healthier and happier lives. With the health and human services sector being one of the fastest growing industries in the world, exciting employment opportunities exist across hospital, private practice, corporate and government settings.

\(^1\) Unlike most Deakin courses, this program runs on a semester system. See the Deakin website for more details.

\(^2\) This degree is a 3.5-year accelerated full-time program delivered over 10 consecutive trimesters. This means you will study three trimesters each calendar year.

\(^3\) A shorter course duration may be available to those who have completed previous studies in a related discipline and/or have relevant work experience.

Visit the course page on the Deakin website for more details.
Ranked in the top 1% of all universities worldwide for Public Health\(^1\)

Ranked in the top 1% of all universities worldwide for Medicine\(^2\)

Gain a broader perspective through the rural and regional focus of our health programs

Gain real-world experience in health

Our courses offer extensive placement opportunities, meaning you can gain valuable skills and experience under the supervision of qualified practitioners. For example, our social work degree incorporates more than 1000 hours of practical fieldwork experience in settings such as:

- clinics
- community health organisations
- hospitals
- industry
- schools.

Occupational therapy students experience extensive practicum placements beginning in year one. Our course provides well above the industry standard of 1000 placement hours over the duration of the course.

Broaden your understanding of other health areas

Our multidisciplinary approach means that students in one area, like occupational therapy, have the chance to work as part of a multidisciplinary health team with medicine, nursing, social work and dietetics students. This experience of working in multidisciplinary teams will help you develop an understanding of the expertise and roles of different health professionals, many of whom you may find yourself working alongside in your future career.

Industry partnerships

When you study health with Deakin, you can benefit from our extensive range of partnerships with federal and state government departments, national and international research institutes, universities, and large not-for-profit organisations.

Access our growing health precinct and industry-leading facilities

Experience our state-of-the-art facilities, modelled on those used in industry. For example, optometry students learn in cutting-edge teaching facilities within the purpose-built Regional Community Health Hub (REACH), and medical imaging students can access our medical imaging labs, where they learn X-ray techniques, as well as complex medical imaging procedures.

Deakin’s medical precinct located at the Geelong Waurn Ponds Campus houses facilities that will enhance your learning experience by offering a supportive environment for supervised clinical placements. This includes the Epworth HealthCare private hospital located within walking distance from the campus.

Practical, real-world learning
Work experience can make all the difference when you graduate and start applying for jobs. This is why Deakin degrees focus on practical learning, to ensure you have tailored experience and a portfolio of work to present to potential employers. Your degree could include work-integrated learning where you gain practical experience through professional internships or international experience, and earn credit towards your degree.

Learn from leaders in their fields
Our teaching staff are passionate professionals, recognised as leaders and innovators in their fields. They conduct important research, making a positive impact in Australia and around the world. This means you can be confident that you have learned from the very best.

Tailor your degree
A Bachelor of Arts offers a wide range of major and minor sequences allowing you to choose an area of study that matches your career aspirations. Choosing a major sequence means you can focus your studies on that particular area, and pursue further studies or a career in that area.

Be a Global Scholar
Deakin also offers students the Bachelor of International Studies (Global Scholar), which is designed for high-achieving students who want to combine study and travel and proactively build a global career from the very start of their studies. You will develop inter-cultural competencies, transversal skills, and important skills of analysis, critical thinking and reflection – all of which are essential for effective personal and professional operation in international environments.

1 A shorter course duration may be available to those who have completed previous studies in a related discipline and/or have relevant work experience.
Industry-informed degrees
Study a degree that is kept current and relevant to industry needs. All our IT courses are informed by IT professionals from leading technology companies, businesses and the government sector. This guides our curriculum and teaching, to ensure you graduate with the work-ready skills employers are looking for.
You will also stay up-to-date with industry trends, and network with guest speakers from key industry partners who we host on a regular basis.

Business analytics or data science?
Business analytics involves the analysis of data in order to make key business decisions for an organisation. A business analyst investigates business trends in order to present business simulations and assist in business planning. Data science is the study of any data that can provide insights. Data scientists use machine learning and deep thinking to answer questions presented by big data. A data scientist’s key skills are in coding, mathematics and critical thinking.

Information technology or information systems?
Information technology is a hands-on discipline that uses different tools, processes and methodologies to develop solutions and address problems using technology. Information systems is the business side of technology. It focuses on the way people and organisations use technology to improve strategic decision-making and enhance operational effectiveness in modern businesses and governments.

Choosing the right postgraduate degree
For Deakin’s postgraduate information technology degrees, we offer a standard and professional stream. The degree you choose will depend on your previous study experience.

What is your previous study experience?
- Bachelor degree in a related discipline
- Bachelor degree in any discipline and two years relevant work experience
- Graduate Certificate of Information Technology or equivalent
- Bachelor degree in any discipline
- Evidence of other academic experience, plus relevant work experience

Professional practice stream
Standard masters stream
Nursing and midwifery

If you enjoy working in a team and have good communication and decision-making skills, nursing and midwifery may be for you.

Study nursing and midwifery at Deakin for the knowledge, skills and ethical understanding you need to provide high-quality, safe, patient-centred care. With state-of-the-art simulation centres and clinical placements in metropolitan and rural settings, studying at Deakin prepares you for a truly rewarding career.

Ranked 30th among all universities worldwide for Nursing¹

Deakin’s undergraduate nursing degrees fulfill the registration standards of the Nursing and Midwifery Board of Australia (NMBA)

We have strong partnership networks with leading healthcare organisations

¹ ShanghaiRankings Global Ranking of Academic Subjects 2021.
² Pending approval, this intake is available to students who are a Registered Nurse in their home country and meet the course’s recognition of prior learning requirements (Melbourne Burwood and Geelong Waterfront campuses only).
³ This degree is only available for part-time study.
Clinical placement partners
The School of Nursing and Midwifery has an extensive partnership network with healthcare organisations in metropolitan, regional and rural settings. This network provides our students with the opportunity to undertake clinical placement in a range of leading public and private healthcare organisations, resulting in a wide variety of clinical learning experiences. The partnership network also helps to facilitate world-class research and contributes to our excellent courses.

Clinical Simulation Centres
Deakin's Clinical Simulation Centres are purpose-built spaces that replicate hospital and community settings with state-of-the-art equipment. These innovative learning environments and simulated clinical facilities offer a safe, supportive and realistic environment for you to develop essential clinical nursing and midwifery skills. You will take part in case-based scenarios, and these will become more complex as your nursing degree progresses.

Recognition of prior learning (RPL)
Deakin may recognise your previous studies and provide RPL towards the Bachelor of Nursing. If you are a registered nurse and have recent nursing experience (in the past five years), you may be eligible to complete fewer units and apply for registration as a nurse in Australia immediately after completing your degree.

Your pathway to becoming a registered nurse
Deakin’s undergraduate nursing degrees are specifically designed to fulfil the registration standards of the Nursing and Midwifery Board of Australia (NMBA). The diagram below highlights the study options available to achieve NMBA registration as a registered nurse.

1 Nursing registration is one component of work visa eligibility in Australia. For information about work visas, visit the Department of Home Affairs at homeaffairs.gov.au.
Nutrition

Are you interested in the link between food and health?

With aging populations and public health issues on the rise – like obesity, heart disease, and chronic illness – health is one of the largest and fastest growing industries in Australia and the world. Undergraduate study in food and nutrition prepares you to work in areas ranging from nutrition for disease prevention to food quality and safety. Postgraduate studies can lead you to more senior roles in the health and food industries, and depending on your choice of degree may lead to qualification as a nutritionist or dietitian.

Ranked in the top 1% of all universities worldwide for Public Health

Depending on your degree, gain professional recognition from the Nutrition Society of Australia or Dietitians Australia

Learn from leading professionals through our connections in healthcare and food settings

1 ShanghaiRankings Global Ranking of Academic Subjects 2021.
2 Unlike most Deakin courses, this degree operates on a semester system.
3 A shorter course duration may be available to those who have completed previous studies in a related discipline and/or have relevant work experience.
Improve your career prospects with professional recognition

Depending on what nutrition degree you choose to study, you may be eligible for membership of and professional recognition from key professional organisations when you graduate.

Undergraduate nutrition science graduates are eligible to apply to become a Registered Associate Nutritionist with the Nutrition Society of Australia (NSA), Hong Kong Nutrition Association and UK Association for Nutrition. Students who complete the Food Innovation major may also be eligible for membership in the Australian Institute of Food Science and Technology. Postgraduate nutrition graduates are also eligible for registration as an associate nutritionist through the NSA. Following three years of relevant work experience, associate nutritionists are able to apply for registered nutritionist status.

The Master of Dietetics is accredited by Dietitians Australia (DA). Graduates are eligible for full membership of DA and the Accredited Practising Dietitian (APD) program, and to work in all areas of dietetics.

Over 40 years teaching dietetics

Deakin was one of the first universities in Australia to offer a course in dietetics, and has been proudly offering Dietitians Australia accredited courses for more than 40 years.

Key industry partners

Deakin’s nutrition and dietetics research and teaching is done in collaboration with major industry and non-government partners. Our School of Exercise and Nutrition Sciences also has numerous clinical and community dietetics placement partnerships. These ensure that you have access to some of the largest and most well-respected teaching hospitals in Melbourne.
By studying psychology at Deakin, you will gain knowledge in human behaviours and develop in-demand skills that can be applied to a range of industries.

Careers in psychology-related fields are always evolving. Our degrees offer opportunities to tailor your studies towards specific areas you may be interested in – including some you may not have considered.

 Ranked in the top 1% of all universities worldwide for Psychology\(^1\)

Deakin psychology degrees are accredited by the Australian Psychology Accreditation Council (APAC)

We have industry partnerships with government agencies, public and private organisations, hospitals and other universities

1. QS World University Rankings by Subject 2022 and ShanghaiRankings Global Ranking of Academic Subjects 2021.
2. Students enrolled at the Geelong Waterfront in this course will be required to undertake units of study at both the Geelong Waurn Ponds and Geelong Waterfront campuses.
3. This degree is an accelerated full-time program delivered over three consecutive trimesters. This means you will study three trimesters in the one year.
Gain professional recognition

All psychology courses offered at Deakin meet the requirements of the Psychology Board of Australia (PsyBA) and the Australian Psychological Society (APS), and are accredited by the Australian Psychology Accreditation Council (APAC). Completing an accredited qualification means your degree will be recognised by future employers.

Graduate ready to work

Experience in practising psychology is invaluable. Psychologists need to effectively listen and empathise, and these skills can only be mastered through experience. At Deakin, your degree will focus on learning from real life, and this is made possible through our unique partnerships, peer-mentoring and transition-to-work activities.

Choosing the right undergraduate psychology degree for you

Wondering whether to study Deakin’s Bachelor of Psychological Science or Bachelor of Arts (Psychology)? It depends on your interests. The Bachelor of Psychological Science explores clinical and behavioural psychology, and focuses on the affect our mental health has on relationships and our wellbeing. The Bachelor of Arts (Psychology) allows you to combine your study of psychology with other areas, from sociology to creative writing. Both courses contain the accredited major sequence in psychology, meaning you can apply for provisional registration as a psychologist once you have completed the required additional study (see below).

Pathways to registration as a psychologist

To obtain registration as a provisional psychologist, you will need to complete four years of psychology studies recognised by the Psychology Board of Australia. After completing a Deakin undergraduate psychology degree, there are a number of further study options you can take to be eligible for registration. The following diagram provides an overview of potential pathway options.

1. Complete
   - Bachelor of Psychological Science
   - Bachelor of Arts (Psychology)\(^1\)
   - Bachelor of Health Sciences\(^1\)
   - Bachelor of Marketing (Psychology)
   - Graduate Diploma of Psychological Science

2. Complete
   A fourth year of study in psychology (either Graduate Diploma of Psychology (Advanced) or Bachelor of Psychological Science (Honours)).

3. Apply for
   Provisional registration with the Psychology Board of Australia (once conditions are met) and associate membership of the Australian Psychological Society (APS).

4. Complete
   A masters or doctorate in psychology that includes work placement.

   Deakin master and doctorate programs:
   - Master of Psychology (Clinical)
   - Master of Psychology (Organisational)
   - Doctor of Psychology (Clinical)

5. Apply for
   Full registration with the Psychology Board of Australia and full membership of the Australian Psychological Society (APS).

\(^1\) Students must complete the 10-credit-point major in psychology.
Science

A career in science is a career for the future.

Whether your interest is in cell biology, the environment or forensic crime solving, science at Deakin is focused on the impact you can have on the world. With access to some of the most modern science education facilities, our degrees can help you make the world a better place.

 Ranked in the top 1% of all universities worldwide for Life Sciences and Medicine\(^1\)

Our Bachelor of Forensic Science is professionally accredited by the Chartered Society of Forensic Science (CSFS)

Gain professional experience at pathology laboratories, research institutions, hospitals, and secondary school and university laboratories

Tailor your studies to your interests
How you study undergraduate science at Deakin depends on your interests and career aspirations. Study a general science degree, with many interesting and diverse study areas and design a program for the direction you want to take. Alternatively, choose a specialist science degree – in biomedical, forensic, marine or zoology and animal science.
You can also combine science studies with one of the following to maximise your career options:
- arts
- commerce
- criminology
- law
- teaching.

Drive your career forwards
Science at Deakin opens the door to a range of careers that are stimulating, challenging and rewarding. Choose science if you are interested in finding solutions to key global issues like:
- the impact of climate change
- reducing our carbon footprint
- the use of stem cells in medical research to improve our quality of life
- using nanotechnology to create new and innovative materials.

Experience before graduating
Deakin’s science programs have a focus on practical experience and offer hands-on learning to ensure you graduate skilled and work-ready. These experiences might include workplace visits, field trips, industry learning, and networking opportunities, helping to build your resume before you graduate.

Learn in outstanding facilities
Access cutting-edge technology and the very best in facilities, with the Geelong Technology Precinct featuring the latest research capabilities in materials, biotechnology, chemistry and environmental engineering. Deakin also has a purpose-built crime scene training facility for our forensic science students and state-of-the-art biomedical research laboratories, with links to the Deakin Medical School.

A career in sport is more than being an athlete. Studying sport and exercise science at Deakin allows you to specialise in areas like sport management, coaching and clinical exercise physiology. With leading-edge facilities and partnerships with elite sporting organisations, Deakin is the best at sport science worldwide. Become the best by studying with the best!

Our School of Exercise and Sport Science is ranked the #1 sport science school in the world\(^1\)

Our Bachelor of Exercise and Sport Science and Master of Clinical Exercise Physiology are professionally accredited by Exercise and Sport Science Australia (ESSA)

Our Bachelor of Business (Sport Management) is the oldest and most prestigious course of its kind in Australia

\(^1\) ShanghaiRankings Global Ranking of Sport Science School and Departments 2021.
\(^2\) This intake available online only.
\(^3\) Students will be required to attend in-person practical intensives either in Australia or Malaysia. This will have visa implications. Visit the course page on the Deakin website for more details.
\(^4\) A shorter course duration may be available to those who have completed previous studies in a related discipline and/or have relevant work experience. Visit the course page on the Deakin website for more details.
World-class sporting facilities

Our world-class sporting facilities include our Elite Regional Sports Precinct at the Geelong Waurn Ponds Campus, and our specialised indoor exercise and sport science building at the Melbourne Burwood Campus. These facilities accommodate our growing suite of courses, increase your exposure to real-world technology and equipment, and enhance your opportunities for research projects and community engagement.

Specialised features (Melbourne Burwood Campus)
- A climate chamber that can simulate extreme conditions and alter temperature, humidity and altitude.
- 40m running lanes and a walking track with overhead harness gantry.
- A 16-piece cardio area and an open group fitness area with over 40 stations.
- 3D motion capture systems and specialised AV equipment.
- Specialised 8m high ceilings, with retractable catch netting to accommodate sport actions in teaching, research and consultation.

Get ready for a career in sport

With an increase in obesity and related health issues, as well as chronic disease rates in Australia and around the world, the emphasis on physical activity and participation in exercise and sport continues to grow. Professional and community sport leagues and organisations are expanding around the world, requiring qualified individuals who can manage them and nurture their development.

Centre for Sport Research

The Centre for Sport Research (CSR) focuses on improving the health and performance of people and organisations participating in sport. As well as promoting sport and exercise, CSR conducts research that informs Deakin’s sport programs, meaning the curriculum is current, relevant and will prepare you for the diverse career you hope to pursue or progress.
Have you learned about something in your undergraduate degree that you really want to explore further? Do you want to become the world’s leading expert on a topic?

You may be interested in focusing on your interests during an honours year, or continuing with further study in a higher degree by research.

Undergraduate research
Studying at the honours level is a great way to get valuable research experience and improve your career opportunities by specialising in an area that you love.

An honours degree requires a year of specialised study, drawing together the theory and practical skills gained in your undergraduate studies. You will develop your knowledge of your chosen discipline through research and additional course work.

Depending on the study area, this may be embedded in the program or as an additional year at the end of the bachelor degree:

• An on-course honours is embedded in the bachelor degree program of four or more years.
• A research-based honours allows you to undertake one year of specialised research and research training at the end of your bachelor degree. You will be supervised by an academic with a proven research record.

Both honours awards will provide you with significant experience and exciting opportunities to expand your skill base before moving into employment or postgraduate study. An honours award also provides the standard (and shortest) pathway for entry into postgraduate research degrees.

Postgraduate research
Deakin offers three types of postgraduate research degrees:

• A masters by research program takes two years full time to complete, and can serve as a pathway to applying for PhD studies. For a masters by research degree, you will be allocated a dedicated research supervisor.
• A Doctor of Philosophy (PhD) is the highest degree available and takes a minimum of three years full-time to complete. PhD students conduct original research in order to progress their chosen field.
• A Doctor of Psychology (DPsych) combines a research project, coursework and structured research tasks specifically related to professional practice.
Areas of expertise
Deakin is ranked in the top 1% of universities for global research impact. Our research is divided into five broad themes that together advance knowledge, better humanity and preserve our planet:

- Improving health and wellbeing
- Creating smarter technologies
- Building safe and secure communities
- Advancing society, culture and the economy
- Enabling a sustainable world

Our research community
As a research student at Deakin, you will be part of a community devoted to success and mutual support. Undergraduate and postgraduate students are encouraged to take part in research seminars and present their research at conferences. We are proud to provide our research students with access to world-class facilities, a network of academic supervisors who are leaders in their fields, and a large range of research disciplines.
