Disclaimer: Although every reasonable effort is made to ensure accuracy, the information in this document is provided as a general guide only for students and is subject to change. All students enrolling at AUT should consult its official document, the AUT Calendar, which is available online at aut.ac.nz/calendar, to ensure they are aware of and comply with all regulations, requirements and policies. The information contained in this Prospectus was correct at the time of print, January 2021.
Welcome to Auckland University of Technology (AUT).

We are delighted that you are considering joining our community.

Choosing a university that’s right for you is not an easy decision. It’s not only where you will study and in some cases relocate to for the next few years, it’s also where you will gain skills and experiences, form friendships and undertake research that will shape your future. I hope this prospectus makes your decision a little easier.

From excellent teaching inspired by international research, to first-class facilities and resources, all within an inclusive and collaborative learning environment, our mission of great graduates is at the heart of everything we do to help you excel.

AUT’s exceptional learning experiences will provide you with skills and experiences that will equip you for life, not just for employment. Through leading programmes and a wide range of extracurricular opportunities that we offer beyond the classroom, our students develop qualities like curiosity, creativity, critical thinking, communication, collaboration, dealing with complexity, and cultural awareness.

We are New Zealand’s third highest ranked university and in the top 1% of universities worldwide. Many of our subject areas are world-ranked, and our graduates are highly employable nationally and internationally.

Whatever degree you choose, studying at AUT means learning in an environment where you will be encouraged to participate and develop your own views, to challenge and be challenged, and not only acquire knowledge but also apply it in real-life situations. You will be immersed in interdisciplinary and culturally diverse ways of learning and understanding. You will be connected to industry and business through work placements, internships and entrepreneurial programmes, engaging with the community through volunteering and leadership opportunities.

As a student, opportunities to be involved in research will be a vital part of your educational experience here at AUT. We have award-winning academics in biotechnology, epidemiology, rehabilitation, astronomy, artificial intelligence, communications and economics, among many others. Their research feeds back into the classroom, so that students can contribute to and learn from these findings.

Our prospectus describes the AUT student experience in the words of the people who know it best – our students, past and present, from all around the world. However, a prospectus can only go so far, and the best way to gain an insight into life at AUT is to visit us and experience it for yourself.

We look forward to welcoming you to our university.

Derek McCormack
Vice-Chancellor

Te whakatupu i te kōunga, i te mana taurite me ngā tikanga matatika, i ngā pūkenga ako, i ngā pūkenga whakasko me te āta rangahau hei āpāi i ngā hāpori whānui o te motu, oti rā, o te ao.

To foster excellence, equity and ethics in learning, teaching, research and scholarship, and in so doing serve our regional, national and international communities.

3 campuses & 3 specialist facilities

60+ research centres and institutes with world-class expertise

9 out of 10 students would recommend AUT as a great place to study

CHOOSE FROM OVER
250 COURSES OF STUDY

29,500 STUDENTS

100,000+ alumni
ONE OF THE WORLD’S BEST MODERN UNIVERSITIES

Creating world-ready graduates
AUT’s mission is to create great graduates, and each member of our staff contributes to this. We offer exceptional learning experiences that prepare students to be successful wherever in the world their career may take them. We encourage innovation and entrepreneurship, and the ability to explore new technologies, challenge routine thinking and solve problems in new ways. We embrace new technologies to lead the learning of tomorrow and prepare our students for the rapidly changing world. As a contemporary university we also place an emphasis on working across disciplines in our research, and teaching and learning. Thanks to our innovative teaching, excellent reputation and combination of theoretical and practical learning, AUT graduates are highly favoured by employers, with 95% of available graduates in paid employment within nine months of graduation.

World-leading staff
Our academic staff are research-active and at the forefront of their disciplines. Many of them are internationally known as experts in their fields, and organisations around the world draw on their expertise for key projects. For example, Associate Professor Felicity Lamm was appointed as the Government’s chief advisor for health and safety, and Professor Gail Pacheco’s research is being used by the Government to address the gender pay gap. Professor Steve Henry was the first person in Australasia to secure a spot in the world-leading Johnson & Johnson Innovation JLABS in Houston to further his work on surface-modification technology Kode Technology, which has the potential to fight cancer. Associate Professor Barbara Bollard’s innovative use of drones to monitor remote and unique ecosystems from Antarctica to Africa has caught the attention of scientists from NASA and the SETI Institute who recognise this approach could also help them find evidence of life on Mars.

A world-class university environment
We’re proud to be one of the world’s best modern universities – Times Higher Education has ranked us as the top millennial university in Australasia and number 15 in the world. We have been a university since 2000, and are now the second largest in the country and ranked among the top 1% (251-300) of universities in the world. We have an overall five-star rating from university rankings organisation QS, in addition to five star ratings for Teaching, Employability, Research, Internationalisation, Facilities, Innovation and Inclusiveness. Study with us and you can enrol in our range of world-ranked subjects, which include New Zealand’s top-ranked health programmes and the country’s best sport science school.

Innovative and relevant research
AUT is ranked first in New Zealand for global research impact (the number of times our research is cited by academics globally) by Times Higher Education and the US News Global Universities Rankings. We have more than 60 research centres and institutes delivering leading research – from space research to artificial intelligence and robotics, and ecology to physical activity and nutrition. AUT research addresses issues facing the environment and society, and our discoveries are widely used. Our research also feeds back into the classroom, and students can contribute to and learn from these research discoveries.

An innovative teaching and learning space
AUT’s three modern campuses have several award-winning buildings which were created using sustainable principles and feature inviting, collaborative and functional learning areas, auditoriums and research spaces. This includes the state-of-the-art Engineering, Computer and Mathematical Sciences building, which has unique design features that mean it can be used as a teaching tool and ‘living lab’ where students can get hands-on experience. We also have a number of world-class facilities including one of a handful of motion capture studios in the country; New Zealand’s top sports science facility, AUT Millennium; and the country’s only two major radio telescopes, which are involved in projects with international research partners.

A global outlook
We know that to create truly great graduates, we must do more than get them ready for their career; we must get them ready for the world. We are consistently ranked first in New Zealand for international outlook by world rankings organisations QS and Times Higher Education. We have more than 5,000 industry partners around the world, and have collaborated on research projects with 142 different countries. Our students are from 141 different countries, and half of our academic staff were born overseas, and they often share their international experience and connections with their students.
“AUT provides a really international environment, which helps students become familiar with the real workplace outside the university. AUT is ranked in the top 1% of universities in the world, which is evidence for the quality of its education. AUT is also the youngest of New Zealand’s universities, which makes it the most dynamic and innovative university in the country.”

Trang Nguyen
Vietnam
Master of Marketing

“I enjoyed the level to which AUT staff are engaged and passionate about their discipline – all in their own unique way. I was actively involved as a research ‘test dummy’ a number of times and it was inspiring to be around people who were continuing to challenge what we know. I really enjoyed the connections I made with my classmates and with staff. Many of these colleagues are still close friends today.”

David Cooper
Bachelor of Health Science (Physiotherapy)

“AUT is always evolving its curriculum to align with the industry and has forward-thinking lecturers to ensure that when we graduate, we have the best chance at assimilating into our trained profession with the confidence and tools we need. Many designers I admire have come from AUT and I think that is a testament to the strong education that AUT offers.”

Toni Clark
Te Ati Awa, Taranaki, Ngāpuhi
Bachelor of Design in Communication Design

“Industry practice is so valuable once you graduate. You don’t realise until after you’ve graduated how important this part of your study is in giving you a head start once you graduate. This was one of the reasons I chose AUT – it bridges the gap between academic studies and industry practice. My third-year workplace experience was the highlight for me, and I made the most of making connections within my industry.”

Katrina Sharlott
Bachelor of Sport and Recreation in Exercise Science and Management

“I would highly recommend doctoral study at AUT. The high-quality research projects; talented and skilled teachers, researchers and technicians; friendly staff and colleagues, excellent lab facilities and unique resources all contribute towards achieving your research goals. International students will also appreciate the truly international environment of AUT and New Zealand.”

Farhana Muznebin
Bangladesh
Doctor of Philosophy – Science

“There are support services in place for just about everything you could need as a student at AUT. The student services are there to support us as students, and quite often they involve advice from past or present students who may have been exactly in the same position as us.”

David Dryland
Ngāpuhi, Te Arawa
Bachelor of Arts in Psychology & Bachelor of Business in Human Resource Management and Employment Relations conjoint programme
Deciding what to study and where to study are the two biggest decisions for anyone considering their university options. But how do you decide?

AUT’s new campaign — “Find your greatness” — features some of the thousands of graduates who have found careers they love after being given the chance to explore subjects and ideas that excited them, with the support of knowledgeable lecturers and researchers.

One of those graduates is Mohamud Mohamed, who was eight years old when he arrived in New Zealand as a refugee from Somalia. Today he is a policy advisor for the Ministry of Business, Innovation and Employment and co-chair of Auckland Council’s Ethnic Peoples Advisory Panel.

He chose AUT for his studies because it offered a mix of the social sciences and conflict resolution programmes that he wanted, and then he chose it again for his master’s degree in public policy.

“My lecturers gave me courage to go deeper, to ask why, and to believe that I can make the world better, safer and more just.”

Another graduate featured in the campaign is indigenous storyteller Matilda Poasa, who came to AUT to study a Bachelor of Māori Development majoring in Māori Media.

Backed by supportive lecturers with industry experience, within the first year Matilda had made a documentary and later a drama about the spirit of a taonga returned to its rightful owner.

Supported by AUT’s Internz programme she secured an internship with the Sundance Institute in Los Angeles — and she still collaborates with them on projects now that she’s back in New Zealand and working for the Māoriland Film Festival/Māoriland Charitable Trust.

Matilda, who is of Samoan descent, says her time at AUT changed everything. “I realised that telling our stories was truly possible.”

Other graduates in the campaign include wildlife cinematographer Julian Braatvedt, business creator Denym Bird, marine biologist Ticiana Fettermann and NGO fundraiser Bridget Dawson. When they talk about their time at AUT there are some common themes: AUT helped them unlock their passion and potential, and paved the way for the careers they have now.

To watch the stories of these great graduates visit aut.ac.nz/great-graduates
Social services agencies around the world face incredibly complex, high-stakes questions. How do they fairly distribute limited resources? Identify those most in need? Understand risk levels and take steps to prevent harm?

Researchers at the AUT Centre for Social Data Analytics (CSDA) are helping agencies use data to find answers and make better decisions about how to support the most vulnerable people in their communities.

CSDA founder and director Professor Rhema Vaithianathan says the centre’s research team of data scientists, economists and software engineers build computational models and assessment tools to process the vast quantities of data available to government and social service agencies.

Looking into the data helps agencies to better understand their own practices and to direct services to those at highest risk for adverse outcomes.

“Our predictive risk modelling provides rapid insights about risk levels for individuals in the longer term, giving staff in these agencies additional information to help them make consistent, quality decisions. The volume and complexity of the available data means agency staff couldn’t easily analyse it or make use of it in their decision-making without these models.”

One of the agencies CSDA has been working with since 2014 is Allegheny County’s Department of Human Services (DHS) in Pennsylvania. US CSDA models are already successfully in use by DHS staff to support call-screening decisions about children reported as being subjected to maltreatment and neglect.

New models are now helping Allegheny County prioritise harm prevention services for newborns and their families through the Hello Baby programme, and to triage requests for housing assistance so that people at greatest risk of harm associated with homelessness get help first.

CSDA has developed a global reputation for its research and social impact and Professor Vaithianathan says the focus is now on working with collaborators who can help scale out the social impact of the centre’s work.

International research partners include the Children’s Data Network at the University of Southern California, the Institute for Social Science Research at The University of Queensland, which hosts a second CSDA site, and scale-out collaborators Mathematica in the US.
“When we imagine our near-future, we need to think about what we value, how design can apply those values in meaningful ways, and how we build spaces that do this in ecologically sustainable ways.”

Designing buildings and spaces for a future that doesn’t exist yet is a challenge that architects have always faced. But with the increased pace of technological and ecological change, figuring out how to design for the future is even more critical. And it’s a challenge that will have a significant impact on future architecture graduates.

AUT has responded to the challenge with two programmes. AUT’s Bachelor of Architecture and Future Environments - co-created with Ngā Aho, the Network of Māori Design Professionals - and Master of Architecture (Professional) are focused on integrated, responsive architectural research and design practices.

Nick Sargent, a lecturer in architecture and future environments, says the focus is on developing graduates who can apply holistic architectural design thinking and understand how the integration of building technology, construction and social theory can address critical issues such as the climate emergency, biodiversity crisis, and rising social inequities.

“The architecture and construction industry is responsible for 20% of New Zealand’s gross carbon footprint, a figure that is even higher globally, so it is essential that our programmes contribute to reducing this. This requires students to rethink design and construction processes.”

“We want our students to understand architecture as a socio-ecological activity, where they are designing cultural spaces and ecological relationships,” says Associate Professor Amanda Yates.

Sivan Danin was part of the first cohort of students in the new programme and says he chose the course because of its relevance.

“Taking a holistic approach and aiming to tackle the big issues, like climate change and negative environmental impacts within design, feels meaningful.”

One of his first-year projects saw him develop a multi-functional ruma ora (living room) space at St Mary’s Bay in Auckland, that took inspiration from the Maramataka (lunar calendar) and followed Te Aranga principles in its use of sustainable design and materials.
Bringing together researchers from different industries and specialisations to develop and apply new medical technologies and therapies is the focus for the AUT BioDesign Lab - but it also plays a crucial role in introducing students to new research opportunities and ways of working. BioDesign Lab co-director, Associate Professor David White, says since the lab was established in 2013 it has supported a range of complex projects drawing on expertise from across AUT's different research disciplines and collaborating with industry and community partners. Master of Engineering student Bradley Nixon was supported by Aō Air to develop and validate a new proof-of-concept ATMOS facemask technology that has received significant funding and government support, and is set to go on sale to the public. With support from Surgisplint Ltd and Callaghan Innovation, another Master of Engineering student, Michael Van Wyk, embedded smart technology in the Zero-Cast WX wrist brace system which can provide information on the brace fit and on the user’s mobility exercises, to assist with better tracking of recovery for patients and clinicians.

Some of the BioDesign Lab’s multidisciplinary projects have extended beyond traditional medtech applications. School of Art and Design senior lecturer James Charlton is working with Jasmin Hitching, a Bachelor of Engineering Technology in Mechanical Engineering student, to develop a programmable robot with sensors and special machine tooling attachments that will be capable of creating sculpture in response to the movements of an artist. “Traditional education models often compartmentalise learning and fields of study, but projects like this one remove those artificial barriers and pave the way for more adaptive, less prescribed learning which supports new knowledge and discoveries.” Jasmin says the project has given her valuable problem-solving skills and insight into how different industries tackle the same problem and arrive at different solutions. “Aside from learning the technical skills involved in communicating with and controlling robots, I’ve got to see the process involved in taking an idea through to a working product.”

BIODESIGN LAB DELIVERS NEW SOLUTIONS

Giving students opportunities to experience marine environments, and get beyond labs and lecture theatres, is an important focus for AUT’s marine science programmes.

“Scientific expedition is a really critical skill. There is a huge amount of planning and logistics involved before you can start to gather data and make discoveries,” says Dan Breen, programme leader for marine biology. “We want to ensure our students develop those skills, in the field, as part of their study.”

Field trips include estuaries, zoos, marine parks and intertidal shores but also extend beyond New Zealand waters.

AUT has cultivated scientific partnerships in the Pacific and has a research station in the Solomon Islands where undergraduate and postgraduate students can undertake fieldwork.

“We’ve seen how valuable the experience is for our students. They come away with a more global outlook, they can carry out research in both temperate and tropical marine environments and they build practical skills that are vital for ecologists.”

Getting to study marine life in the Solomon Islands during his Bachelor of Science is part of what inspired AUT PhD candidate Antony Vaviv to pursue postgraduate studies, and he has spent the past year collecting fieldwork data on Mitiaro Island in the Cook Islands.

For students studying marine biology at AUT, the university’s globally respected researchers and research connections also open up exciting opportunities.

Marine ecologist AUT Professor Andrea Alfaro has led major research projects for New Zealand’s aquaculture industry to improve the reproduction and growth of mussels and other commercial shellfish.

Now working with the Cawthron Institute, she has secured a government grant to establish a shellfish culture programme which will see students working with industry on commercial projects.

Associate Professor Dr Kat Bolstad, who heads up the lab for Cephalopod Ecology and Systematics aka “AUT Squid Lab”, has established links with the National Institute of Water and Atmospheric Research (NIWA) giving students access to life changing research experiences.

PhD candidate Ryan Howard took part in a scientific expedition to the Chatham Rise and dissected a giant squid aboard the NIWA research vessel Tangaroa.

AUT marine students are also undertaking research in New Zealand and Australian waters thanks to partnerships with organisations including Seafood Innovations in New Zealand and the Australian Blue Economy Collaborative Research Centre.
For students at AUT, one of the three main campuses in Auckland—North, South or City Campus—will become the place they spend most of their time.

“We understand that the physical environment we create on each campus plays a massive role in shaping the experiences of students,” says Dr Tony Lanigan, director of major projects in the Estates Group at AUT.

AUT has made an ongoing commitment to sustainable, contemporary building design that supports positive teaching and learning experiences, and two of its latest projects are also supporting life outside the classroom.

For many students, starting their studies at university coincides with another major milestone: moving out of home.

To ease this transition AUT has commissioned brand new accommodation facilities right next to the City Campus, with housing for more than 695 students in their own studio apartment, including 25 apartments designed for students with special access needs.

The apartment complex has communal recreation and dining spaces, 24-hour security, and on-site staff to support students and facilitate the residential life programme which runs social events throughout the year. Each apartment has its own kitchenette, bathroom, study desk and chair.

On the North Campus, AUT is looking at developing a central hub or ‘new heart’ for the health sciences and sport and recreation programmes, and has already completed site preparation works.

The project will include a brand new four-storey building with new staff offices, teaching and research spaces, and collaborative social learning spaces including a café and Student Hub. The project also includes the complete refurbishment of an adjacent building and a new connection into the library.

Dr Lanigan says one of the most exciting aspects of the project is that it will be AUT’s most sustainable building to date because of its LED lighting, rainwater harvesting for irrigation and 60% of all water use in the building, high-tech cladding and roofing systems to support lower energy consumption, and a mainly timber structure, resulting in close to ‘embedded carbon neutral’ status.

“A huge amount of time and planning goes into creating adaptable spaces that make a positive contribution to AUT, and give our students and staff a really welcoming, stimulating environment.”
Launching a business is hard work and many fail to make it past the idea stage, but the CO.STARTERS programme at AUT is boosting the success rate for aspiring entrepreneurs.

Southern Studios director Geoff Holmes says CO.STARTERS and some final-year papers in his Bachelor of Business at AUT were the catalyst for starting his own creative production studio.

“They provided the framework that simplified an extremely complex business landscape, enabling me to not only build my business, but to grow our clients’ businesses as well.”

Geoff opted into the ten-week CO.STARTERS programme at the end of his degree, wanting to build his own business but lacking the right experience.

“I knew I wanted to create something within the production and advertising industry and gave myself two years to make it work. I was super green, hadn’t run a business before, and I was looking for anything and everything to upskill myself so I didn’t fail.”

Geoff, who now runs an award-winning studio, says CO.STARTERS provided valuable mentoring and helped him focus on critical steps including developing his business plan and honing the company’s point of difference.

CO.STARTERS has also been the launching pad for a VR company, a meal kit business, a food producer specialising in plant-based, allergen and planet friendly products, and a beverage company successfully tackling the Australasian energy drink market with a clean alternative.

Led by programme manager Sabrina Nagel, CO.STARTERS was established at AUT in 2015 and is based on an international programme designed to foster entrepreneurial ecosystems and equip people with the skills to launch a business.

Director of entrepreneurship and innovation, Martin Bell, says the results have been impressive.

“CO.STARTERS has proven to be an empowering foundation for aspiring student entrepreneurs. Graduates of the programme leave with the insights and tools they need to take the next practical steps in building a sustainable business. Perhaps most importantly they become part of a growing CO.STARTERS community with a better understanding of how to pursue their entrepreneurial dreams.”
**LIFE AT AUT**

**Easy to get help**

At AUT, we don’t want anything to get in the way of you enjoying your student experience and achieving your goals. So no matter what the problem, the Student Hub is here to help. You can find a Student Hub on each of our three campuses or online, and our team can help with anything from advice for applicants, academic and personal support, StudyLink and fees advice, ID cards and Auckland Transport tertiary travel discounts, to wellbeing needs and services for our diverse communities.

**Settling into university life**

Studying at university can be quite an adjustment. That’s why AUT helps new students transition to university life by delivering a wide-ranging orientation programme on campus and online at the start of each semester. AUT Orientation is complemented by a fun social programme to help you meet new friends and celebrate the exciting new journey you’re on. Orientation is just one aspect; we also offer activities throughout the semester. To help you navigate the student journey, AUT’s app also provides up-to-date news, events and information about AUT anytime, anywhere.

**Getting around**

Whether it’s finding your way to campus or getting around between lectures, AUT offers a range of resources to help you navigate your new environment. AUT has shuttle buses that travel between the AUT City and South Campus (including New Zealand’s first electric bus), delivers campus and city tours during Orientation, and provides MazeMaps online, a mapping tool designed to help navigate complex environments and highlight any obstacles for people with accessibility needs.

**Finding the right place to live**

Living in AUT student accommodation is a great option especially if you’re in your first year of study or from outside Auckland. Our student accommodation is secure, with specialised staff and security available on-site 24/7. Located just minutes away from our City or North Campuses, AUT’s self-catered student accommodation is convenient and modern apartment-style living, designed to help you build friendships and achieve academic success. Our accommodation options include our brand new, purpose-built accommodation in Mayoral Drive near the AUT City Campus, which offers studio apartments with facilities including a rec centre, social areas and study spaces.

**We speak your language**

Our students come from 141 countries, so we know that sometimes it’s easier to have things explained in your first language. That’s why some of the Student Hub team are bilingual. Just ask if we have anyone who speaks your preferred language.

**Play sport or join the gym**

AUT is New Zealand’s leading sports university, with state-of-the-art sports facilities, on-campus gyms, and a huge number of sports teams and events. As an AUT student you can participate in a wide variety of sports, from social on-campus games to elite international competitions. As a part of University Tertiary Sport (UTS NZ) you may also have the chance to represent AUT against some of the best student athletes in the country.

**Disability student support & resources**

If you have an impairment, our Disability Support team can support you to participate as fully as you can in learning and student life. We work with students before they start at AUT to help identify their specific needs and ensure they’re set up for success while they’re studying with us by developing an Academic Accommodation Plan. AUT is strongly committed to equity of access and opportunity for students, staff and visitors, and supports the principles of Kia Orite: Code of Practice for an inclusive tertiary environment.

**Supporting parents**

AUT has childcare centres at the City and the North Campus, providing a safe and happy environment with excellent staff and high-quality facilities.

**Getting around**

Whether it’s finding your way to campus or getting around between lectures, AUT offers a range of resources to help you navigate your new environment. AUT has shuttle buses that travel between the AUT City and South Campus (including New Zealand’s first electric bus), delivers campus and city tours during Orientation, and provides MazeMaps online, a mapping tool designed to help navigate complex environments and highlight any obstacles for people with accessibility needs.

**Supporting parents**

AUT has childcare centres at the City and the North Campus, providing a safe and happy environment with excellent staff and high-quality facilities.

**Get involved in campus life**

Joining a club is a great way to meet like-minded people and make lifelong friends outside of lectures. Choose from a range of student-run social, sustainability, academic and cultural clubs – a great way to meet new people, participate in events and get involved in campus life.

**Committed to Māori advancement**

AUT values all Māori students and whānau, and is committed to promoting Māori presence and involvement in all facets of university life. We have a range of support services to help, including learning services, study and cultural spaces, student groups, mentors, kaupapa Māori events and Takawaenga Māori student advisors who are dedicated to helping our Māori students.

**Pacific student success**

AUT offers a range of services designed to support our diverse Pacific communities, including academic tutoring, and a comprehensive mentoring and leadership programme.

**Join the AUT rainbow community**

AUT was the first university in New Zealand to appoint a full-time rainbow community co-ordinator to provide dedicated support for rainbow students. This role provides support, services and resources for all rainbow students and all rainbow identities at AUT. AUT also has a dedicated rainbow room where students can study and connect, and where student groups can meet. As a Rainbow Tick university, AUT also takes part in city-wide rainbow events and offers rainbow students further opportunities through rainbow scholarships.

**We speak your language**

Our students come from 141 countries, so we know that sometimes it’s easier to have things explained in your first language. That’s why some of the Student Hub team are bilingual. Just ask if we have anyone who speaks your preferred language.

**Play sport or join the gym**

AUT is New Zealand’s leading sports university, with state-of-the-art sports facilities, on-campus gyms, and a huge number of sports teams and events. As an AUT student you can participate in a wide variety of sports, from social on-campus games to elite international competitions. As a part of University Tertiary Sport (UTS NZ) you may also have the chance to represent AUT against some of the best student athletes in the country.

**Disability student support & resources**

If you have an impairment, our Disability Support team can support you to participate as fully as you can in learning and student life. We work with students before they start at AUT to help identify their specific needs and ensure they’re set up for success while they’re studying with us by developing an Academic Accommodation Plan. AUT is strongly committed to equity of access and opportunity for students, staff and visitors, and supports the principles of Kia Orite: Code of Practice for an inclusive tertiary environment.

**Supporting parents**

AUT has childcare centres at the City and the North Campus, providing a safe and happy environment with excellent staff and high-quality facilities.
Supporting you into your future career
The AUT Employability team prepares you for your future career by developing job search, interview and networking skills, building your personal brand and more.

Connections to the workplace
We run a full programme of employer presentations, events and workshops throughout the year - on campus and online - with employers offering advice and insights into their industries or recruiting future employees. Four graduate job boards, including an international one, offer great work opportunities for AUT graduates and interns.

A launchpad for entrepreneurs
AUT is a great place for aspiring entrepreneurs. If you want to turn your entrepreneurial ideas into a viable business, you can join our ten-week CO.STARTERS@AUT programme or participate in the X Challenge to compete for a range of cash prizes to help you take the next step on your entrepreneurial journey. AUT students and alumni who have a promising idea for a start-up could also work with AUT Ventures Ltd to bring their ideas to market. We can help you access commercial funding sources, protect your intellectual property and avoid the pitfalls many others have faced.

Gain an edge on the competition
The AUT Edge and Beyond AUT Awards help you gain an extra edge in the competitive marketplace by developing highly employable skills through volunteering, leadership and employability activities.

Top internships around the world
New AUT graduates have once-in-a-lifetime opportunities to apply their learning in a global context thanks to the AUT Internz International Scholarship programme. As well as providing a chance to intern with amazing employers in a range of industries in America, Asia and the UK, AUT provides scholarships to cover visas, return travel, travel and health insurance and a stipend to support living expenses. More than 200 AUT graduates started their careers by completing internships for organisations like Facebook Creative Shop, Icebreaker, Allbirds, Lululemon, FCB West, Paramount Recording Studios, Sundance Institute, the Metropolitan Museum of Art and the Smithsonian Institution through the AUT Internz Scholarship Programme.

See the world before you graduate
An international student exchange offers an amazing opportunity to study overseas as part of your degree. Study for a semester or a year at one of our partner universities around the world, and immerse yourself in another culture, make lifelong friends and get international experience before you graduate.

Financial assistance
We understand that studying can be tough on your finances. The Student Hub team offers financial assistance to students who are experiencing financial difficulty while studying at AUT. We may be able to provide assistance with food and transports vouchers or living expenses like overdue rent or utility bills.

Helping you succeed in your studies
Our library and learning support team offers a wide range of services and resources, and there are digital resources available to develop your academic skills. The Library also runs a range of workshops to help you get the most out of your studies and work smarter, rather than harder. Our extensive peer mentoring programme provides academic support from others who have already completed the same course. You can also access Studiosity, our online 24/7 academic support service for guidance and feedback on academic writing and skills.

Support for postgraduate students
The Graduate Research School provides leadership and support services for postgraduate research students and their supervisors at AUT. We provide advice and information related to applications for the Master of Philosophy and doctoral programmes, offer advice on postgraduate policy matters, and monitor the progress of research students at AUT from the moment they’re admitted to their programme to the time they complete their degree. Each faculty also has dedicated staff to support postgraduate students in all programmes throughout their studies.

A vibrant research culture
We create a wide range of opportunities for supervisors and postgraduate research students to collaborate, connect and share ideas through workshops, events, doctoral inductions and the research students’ peer groups. The annual Research Symposium and 3 Minute Thesis competition are among the many events that showcase AUT’s student research culture and celebrate postgraduate student success.

Free access to digital tools and resources
We offer students all the digital tools needed to succeed, including free wifi on campus, the full Microsoft Office 365 suite for up to five devices and access to LinkedIn Learning (lynda.com), a world-leading online learning platform.

Student ambassadors ready to help
AUT has more than 200 knowledgeable student ambassadors who help support events and activities across AUT. One of their key roles is to help new students as they settle into their studies. We also have RUOK advisors who focus on students’ wellbeing, and make sure students are aware of the support services and resources available.

We embrace all faiths
We take a multi-faith approach by providing spiritual support to students from various beliefs. AUT encourages understanding, tolerance and harmony, respecting everyone’s spiritual views. Access our faith and prayer rooms on campus, attend events, or get support from our team of chaplains.

Stay healthy and well
At AUT it’s OK to ask for help. We actively encourage all students to be aware of their own wellness needs – mind, body and spirit. You’ll have access to free or low-cost medical treatment at our full-service medical centres. We’re also committed to helping you build resilience, mental strength and the skills to manage stress. That’s why all students can get free, confidential counselling sessions and mental health support. Our advisors in the Student Hub can help you with a range of queries. Talk to us about any topic – study-related or personal. We also organise Bright Side at AUT events where students can develop better self-knowledge and a greater sense of purpose.

High-performance athlete support
We encourage athletes to succeed both on and off the sporting stage through the Elite Athlete Programme with support to combine sporting goals with education, career and other life aspirations.

Representing your interests
The AUT Student Association (AUTSA) exists to advocate and represent the interests of all students attending AUT. The association also produces the university student magazine Debate, and runs social activities during Orientation and throughout the year.

Safe and friendly campuses
We make sure our students are safe when they’re on campus. Our friendly security staff are available day and night to help if you have any concerns.

LIFE AT AUT (continued)
At AUT you learn to design built environments that recognise indigenous values and address Auckland’s rapid population growth, as well as global issues like housing affordability, global warming and homelessness. You’ll be taught by professional architects, as well as professionals with backgrounds in design, engineering, computer science, creative technologies, media, business and entrepreneurship. You learn in an interactive environment where you collaborate with your classmates, mana whenua and experts from different disciplines to find innovative solutions that support community wellbeing and nurture future generations.

ARCHITECTURE & BUILT ENVIRONMENT

- Draws upon global issues, indigenous worldviews and the need for sustainable design
- Expert lecturers, nationally and internationally recognised in architecture, design, engineering and more
- Students work on live, real industry briefs
UNDERGRADUATE STUDY

Bachelor of Architecture and Future Environments
- Duration: 3 years F/T only
- Campus: City
- Starts: 28 Feb 2022

Bachelor of Design
- • Spatial Design
- Duration: 3 years F/T, 6 years P/T
- Campus: City
- Starts: 28 Feb 2022

Bachelor of Engineering (Honours)
- • Architectural Engineering
• Construction Engineering
- Duration: 4 years F/T, 8 years P/T
- Campus: City
- Starts: 28 Feb 2022

POSTGRADUATE STUDY

Master of Architecture (Professional)
- Duration: 2 years F/T, 5 years P/T
- Campus: City
- Starts: 28 Feb 2022

Master of Construction Management
- Duration: 1 year F/T, 2 years P/T
- Campus: City
- Starts: 28 Feb & 18 July 2022

Master of Engineering Project Management
- Duration: 1 year F/T, 2 years P/T
- Campus: City
- Starts: 28 Feb & 18 July 2022

Master of Philosophy
- Duration: 1 year F/T, 2 years P/T
- Campus: City
- Starts: 1 Feb & 1 Aug 2022

Doctor of Philosophy
- Duration: 3-6 years
- Campus: City
- Starts: 1 Feb & 1 Aug 2022

WORLD-LEADING RESEARCH

AUT researchers work on projects across the built environment, in New Zealand and around the world. You can collaborate on projects, and work with graduates and architects to create meaningful change in the built environment. As an architecture student at AUT you can also access our Architectural Engineering Lab, Built Environment Engineering Lab, Communities and Learning Lab and Urban Wellbeing Lab. You work on research projects that demonstrate the way architecture, design intelligence and future cities can become intertwined.

“I like that architecture at AUT has a focus on the future, and that we’re thinking about our environment while studying architecture. I would absolutely recommend the Bachelor of Architecture and Future Environments to students who are keen to learn about so much more than just architecture itself. I believe that as architects and designers, we need to act and think of tangible ways to prevent further global problems as we play a massive role in sustainable development and determining the state of our ecosystem. I want to work as an architect after I graduate, and integrate the skills that I gain from this degree to contribute to the sustainable growth of cities and urban environments around the world.”

Azra Banu
Student, Bachelor of Architecture and Future Environments

“I came to AUT to study spatial design, but had always aspired to move into architecture eventually. I’d love to have the opportunity to create spaces that improve people’s lives and inspire the next generation. When AUT introduced new architecture programmes in the final year of my bachelor’s degree, I jumped at the opportunity. The future of architecture will play an important role within the sustainability of our environments, mankind’s wellbeing and the salvation of our climate. AUT’s architecture programmes were established to tackle these issues, challenge the current state of architecture, and think about the possibilities we can offer as future architects.”

Matangireia Mita Ngarua Yates-Francis
Te Arawa, Te Aitanga-a-Mahaki, Rongowhakaata, Ngāti Maniapoto
Master of Architecture (Professional) student
Bachelor of Design in Spatial Design
AUT’s School of Art and Design is ranked in the top 150 worldwide in the QS World University Subject Rankings 2020. Our programmes cover a range of disciplines and are driven by an exceptional studio culture experience. Our world-class facilities include three galleries, a 3D lab, digital, photographic and moving image facilities (including a motion capture studio), and a textile and design lab. You’ll be supervised by our expert academic staff and have the chance to work on national and international projects, often with real industry clients. Our programmes balance creativity, research and conceptual development with theoretical and professional studies.
### UNDERGRADUATE STUDY

#### Certificate in Science and Technology
- **Design Technologies pathway**
  - **Duration:** 1 year F/T only
  - **Campus:** City & South
  - **Starts:** 28 Feb & 18 July 2022

#### Diploma in Arts
- **Communication Design**
  - **Duration:** 1 year F/T, 2 years P/T
  - **Campus:** South
  - **Starts:** 28 Feb 2022

#### Bachelor of Design
- **Communication Design**
- **Digital Design**
- **Fashion Design**
- **Industrial Design**
- **Interaction Design**
- **Spatial Design**
  - **Duration:** 3 years F/T, 6 years P/T
  - **Campus:** City
  - **Starts:** 28 Feb 2022

#### Bachelor of Visual Arts
- **Communication Design**
  - **Duration:** 3 years F/T, 6 years P/T
  - **Campus:** City & South
  - **Starts:** 28 Feb 2022

### POSTGRADUATE STUDY

#### Postgraduate Certificate in Design
- **Duration:** ½ year F/T, 1 year P/T
- **Campus:** City
- **Starts:** 28 Feb & 18 July 2022

#### Postgraduate Certificate in Visual Arts
- **Duration:** ½ year F/T
- **Campus:** City
- **Starts:** 28 Feb 2022

#### Master of Design
- **Duration:** 1½ years F/T, up to 3 years P/T
- **Campus:** City
- **Starts:** 28 Feb & 18 July 2022

#### Master of Visual Arts
- **Duration:** 1½ years F/T, up to 3 years P/T
- **Campus:** City
- **Starts:** 28 Feb 2022

#### Master of Philosophy
- **Duration:** 1 year F/T, 2 years P/T
- **Campus:** City
- **Starts:** 1 Feb & 1 Aug 2022

#### Doctor of Philosophy
- **Duration:** 3-6 years
- **Campus:** City
- **Starts:** 1 Feb & 1 Aug 2022

### WORLD-CLASS RESEARCH

Our creative-led research covers a broad range of art and design disciplines. Cultural practitioners – visual artists, spatial and fashion designers, film makers and more – come together to explore broad notions of art and design at AUT. As an art and design student you have access to our industry-leading studios, labs and services. These include photographic and lighting facilities; motion capture, printmaking and 3D labs; and digital textile machines at our world-class Textile and Design Lab.

We’re also the home of the ST PAUL St Gallery, a suite of purpose-built galleries and project spaces dedicated to the development of contemporary art and a programme of exhibitions, events, symposia and publications.

“AUT has its finger on the pulse of design, which is an especially dynamic industry. The workshops and studios make use of the latest technology for designers to make their ideas a reality. With strong connections and staff within the industry, alongside some game-changing graduates, AUT is leading the change in thinking for the future of design. While I was at AUT, I used many of my university projects to enter entrepreneurial and design competitions, winning a number of awards and being invited to exhibit a student project at the Global Grad Show at Dubai Design Week.”

*Haydn Jack*

Industrial Designer, Blender Design
Bachelor of Design in Industrial Design

“I think the academic staff we had were so special, and showed us they really cared and thought that what we were doing was important. Making art and then showing it to others can be really scary and personal, so it’s important that those lecturers hold space for you. I loved that we were able to crack jokes and cry in front of them. Our class size for sculpture was really small, so the friendships I made ran deep and the attention from the lecturers was really high. I’m still good friends with my classmates and lecturers, which feels really important.”

*Vanessa Crofskey*

Staff Writer/Communications Manager,
The Pantograph Punch / Freelance Artist
Bachelor of Visual Arts
Our programmes are designed in collaboration with business leaders and experts, and integrate theory with current practice and global trends. Our teaching approach and learning opportunities will help develop your creativity, critical thinking, collaboration, and communication skills, and include internships and applied projects that give you the competitive edge for your career. The AUT Business School is internationally ranked and accredited, and recognised for teaching and research that is transforming business and society. Our alumni are ready to challenge routine thinking and put forward innovative solutions, and they’re shaping successful careers all around the world.

Starts: 28 Feb & 18 July 2022

Doctor of Philosophy
Duration: 3-6 years
Campus: City & South
Starts: 1 Feb, 1 May, 1 Aug & 1 Nov 2022

"I felt a strong sense of community and belonging at AUT, especially seeing Pacific representation throughout all levels of the university. I felt especially encouraged to succeed after seeing my lecturers commit time and effort towards their students’ development and achievement. It’s easy to feel motivated to succeed when you have such inspirational people in your corner. The smaller-sized workshops we had at AUT helped to create a comfortable environment where I felt confident in participating amongst my peers. I’ve also enjoyed the support systems in place at AUT, specifically those tailored to Māori or Pacific students."

Angelitsa Nekelo
Graduate Accountant, KPMG

**WORLD-LEADING RESEARCH**

Our world-class researchers work in all major disciplines in business and economics, and in our multidisciplinary research centres. At the heart of our research is collaborative engagement with our external stakeholders in business, the professions, government and the community. Our research centres and groups include the Accounting for Social Impact Research Group, Auckland Centre for Financial Research, Centre for Occupational Health and Safety Research, Gender and Diversity Research Group and the New Zealand Work Research Institute.

---

"At first I wasn’t sure which university I wanted to attend as I had received scholarships for three different universities, but once I had researched what I wanted in a university, I realised that AUT ticked all the boxes. I wanted a university that was supportive and cared about its students, and AUT instantly stood out to me. I also loved that AUT had small class sizes, gave students the opportunity to gain workplace experience at the end of their degree and offered many opportunities outside of the curriculum, which results in AUT alumni graduating with more than just degrees. I know I’ve made the right call choosing AUT.”

Dannielle Aldworth  
People and Culture Graduate, Auckland Council  
Bachelor of Business in Human Resource Management and Employment Relations & Economics

"The in-class experience has been the most enjoyable part of my studies. The lecturers are all experts in their fields, and they always share their valuable knowledge and experiences. Because they share real business world issues and practices with us, I feel engaged and know that what we’re learning will be useful for my future career. I also enjoy that we’re all sharing different ideas and diverse perspectives, which makes the classes exciting. AUT has a robust reputation for providing an exceptional university education and having outstanding student support for all international students. Other students currently studying at New Zealand universities recommended that I should pursue my degree with AUT. This made me confident in choosing AUT.”

Latsamy Mahaphonh  
Laos  
Master of Professional Accounting student
Ranked in the top 150 worldwide in the QS World University Subject Rankings 2020, communication studies at AUT prepares you for rewarding career options across many exciting industries. Our research-active academic staff are known as experts in communications and media studies, and our industry standard facilities include well-equipped TV and radio studios, sound and editing suites and a live news media centre. Study with us and you’ll be equipped for the next evolution on the media horizon. It’s one of many reasons why our alumni are highly-regarded around the world and regularly win media awards.

## WORLD-LEADING RESEARCH

Our world-class researchers have expertise across the field of communication studies, including Asia-Pacific media, journalism, media performance, multimodal analysis; online, social and digital media; political economy of communication; popular culture; public relations and radio. We’re committed to innovative, critical and creative research that advances knowledge, serves the community, and helps our students become future leaders in the communication and media industry.

Our research centres include:

- Centre for Performance Research
- Journalism, Media and Democracy Centre
- Multimodal Research Centre
- Pacific Media Centre

### Testimonials

**John Nottage**

Senior Communications Advisor for Alliances, Auckland Transport
Bachelor of Communication Studies in Public Relations

“Being able to meet with an organisation and be given a real-life situation to solve and provide PR advice for was a highlight of my studies. It was really a turning point for me. Suddenly, everything we had learnt in lectures, tutorials and group assignments clicked and I was ready to put my best foot forward. On top of that, the access to AUT’s amazing lecturers and tutors was fantastic. These are people with real-life experience – many of them still working in the industry. The experience I gained through AUT is integral to what I do daily in my work now.”

**Irra Lee**

Online Content Producer, TVNZ
Bachelor of Communication Studies in Journalism

“Graduating from AUT means you come out future-proof. You complete your degree with some of the hard skills you’ll need for the changing world, as well as the soft skills and the adaptability to keep developing. Being able to experience life as a journalist was one of the highlights of my university studies. All third-year journalism students go through a series of what’s known as a ‘Newsday’ as part of one of the core courses. Every Wednesday, the media centre on the AUT City Campus is transformed into a fully functional newsroom that the journalism students run. It was great spending the day feeling like we’re actual journalists already.”

aut.ac.nz/communications
See yourself as a creative entrepreneur? Study our undergraduate and postgraduate programmes in creative technologies to turn your creative ideas into reality. At AUT, you’ll experiment with things like augmented reality, robotics, gaming development tools, e-textiles, electronics and sound engineering within a collaborative project-based studio environment. Your knowledge will be in demand within a wide range of cutting-edge industries. The world is changing fast, and people with imagination, advanced technological knowledge and entrepreneurial skills will be the ones to shape it.

Starts: 1 Feb & 1 Aug 2022

WORLD-LEADING RESEARCH

Our world-class labs are hubs for sharing expertise and research outcomes, and include the 3D Lab, Mobile Innovation Network Australasia (MINA) Lab, Motion Capture Lab, PiGotty (Play Interactivity and Games) Lab, Sentience Lab and the Textile and Design Lab. We’re proud of our strong partnerships with businesses and the community, and our researchers and postgraduate students often collaborate with industry organisations on research or other projects.

“I’ve always had a passion for all things design and technology. The way the Bachelor of Creative Technologies brought these two together in a future-focused learning environment was what drew me to the programme. The breadth of AUT’s creative technologies degree has really helped equip me with the broad range of skills that are needed in the real world. Every day there are new challenges and problems we face and there is no one pathway that can prepare you for how to solve them. I feel that my degree really prepared me with an understanding of how to navigate any given problem no matter its size.”

Joshua Baxter
Digital Designer, RUSH Digital
Bachelor of Creative Technologies

aut.ac.nz/creativetechnologies
At AUT you’ll find all the support, encouragement and inspiration you’ll need to develop an outstanding career in education. Our widely regarded education programmes focus on academic knowledge and provide you with invaluable practical experience in teaching and education, through work placements in schools or education-related organisations. Our postgraduate and research students work in collaboration with academic staff who are internationally known as experts in the fields of pedagogy, education policy, e-learning and educational leadership.
UNDERGRADUATE STUDY

Certificate in Arts
Duration ½ year F/T, 1 year P/T
Campus City
Starts 28 Feb & 18 July 2022

Diploma in Arts
Duration 1 year F/T, 2 years P/T
Campus City
Starts 28 Feb & 18 July 2022

Bachelor of Arts
Duration 3 years F/T, 6 years P/T
Campus City
Starts 28 Feb & 18 July 2022

Bachelor of Arts & Bachelor of Business conjoint programme
Duration 4 years F/T, up to 9 years P/T
Campus City
Starts 28 Feb & 18 July 2022

Graduate Diploma in Secondary Teaching
Duration 1 year F/T
Campus North & South
Starts 28 Feb & 18 July 2022

Bachelor of Arts & Bachelor of Computer and Information Sciences conjoint programme
Duration 4 years F/T, up to 8 years P/T
Campus City
Starts 28 Feb & 18 July 2022

Bachelor of Education (Specialty Teaching)
Duration 3 years F/T, 6 years P/T
Campus North & South
Starts 28 Feb & 18 July 2022

WORLD-LEADING RESEARCH

At AUT’s School of Education, we believe in high-quality research that has impact, and have world-class researchers and research strengths across education. Our research-active staff are widely known for their expertise in all areas of the education sector – from education policy, the changing nature of public education and mindfulness for teachers, to educational leadership and leadership development, equity culture and diversity, and the philosophy of education.

“...I heard from a past student that the practicum aspect of the education degree was better at AUT; providing more time in schools to learn first-hand the skills and techniques to teach effectively. AUT has a forward-thinking education programme, focused on directing learning towards teaching and using practical opportunities to consolidate theoretical knowledge. The group projects provided opportunities to work with a variety of people, and learn how to manage people’s strengths and weaknesses. AUT’s culture of support ensured that we all had a safe place to reflect and celebrate our experiences. All of this has transferred into my professional career; having a network of support and resources to tap into is invaluable.”

George Aitken
Year 8 Teacher, Devon Intermediate School, New Plymouth
Bachelor of Education (Primary Teaching)

POSTGRADUATE STUDY

Bachelor of Arts (Honours)
Duration 1 year F/T, 2 years P/T
Campus City, North & South
Starts 28 Feb & 18 July 2022

Master of Education
Duration 1½ years F/T, 4 years P/T
Campus City, North & South
Starts 28 Feb & 18 July 2022

Postgraduate Certificate in Education
Duration ½ year F/T, 2 years P/T
Campus North & South
Starts 28 Feb & 18 July 2022

Master of Teaching and Learning (Primary)
Duration 1 year F/T, 2 years P/T
Campus North
Starts 17 Jan 2022

Postgraduate Diploma in Education
Duration 1 year F/T, 3 years P/T
Campus City, North & South
Starts 28 Feb & 18 July 2022

Master of Philosophy
Duration 1 year F/T, 2 years P/T
Campus North
Starts 1 Feb, 1 May, 1 Aug & 1 Nov 2022

Doctor of Philosophy
Duration 3-6 years
Campus North
Starts 1 Feb, 1 May, 1 Aug & 1 Nov 2022

1. Not open for international applicants without NCEA.
2. Business papers also available at the South Campus

“...I’ve enjoyed most is being part of an amazing group of people, all studying and training together. Being able to build relationships with my lecturers and programme leaders has been so beneficial to my learning, and I’ve loved discussing issues, concepts and ideas with my classmates and lecturers. The biggest challenge was juggling the demands of the degree with the demands of being a mother of four children. The Master of Teaching and Learning focuses on resilience and wellbeing, which helped me to keep myself centred through a demanding and chaotic year due to the COVID-19 pandemic. The lecturers would check in on me and see how I was managing, and that support helped a lot.”

Kelly Watts
Ngāti Kahungunu
Master of Teaching and Learning student
Study engineering, computing or mathematical sciences and play a leading role in the technological, social and economic development of the world today. Our teaching and research staff are among the best in New Zealand and internationally. Our computing, software and engineering programmes have the highest standards in student experience, and our alumni are highly sought-after by employers around the world. With access to outstanding facilities you’ll be equipped to make industry-leading discoveries in collaboration with classmates, research staff and partner organisations.
## Undergraduate Study

### Certificate in Science and Technology
- **Duration**: 1 year
- **Campus**: City & South
- **Starts**: 28 Feb & 18 July 2022

### Bachelor of Computer and Information Sciences
- **Data Science**
- **Digital Services**
- **Networks and Cybersecurity**
- **Software Development**
- **Duration**: 3 years F/T, 6 years P/T
- **Campus**: City
- **Starts**: 28 Feb & 18 July 2022

### Bachelor of Science
- **Analytics**
- **Applied Mathematics**
- **Astronomy and Space Science**
- **Computer Science**
- **Duration**: 3 years F/T, 6 years P/T
- **Campus**: City
- **Starts**: 28 Feb & 18 July 2022

### Bachelor of Engineering
- **Architectural Engineering**
- **Construction Engineering**
- **Electrical and Electronic Engineering**
- **Maritime Engineering (Marine and Offshore Engineering, Naval Architecture, Ocean Engineering)**
- **Mechanical Engineering**
- **Mechatronics Engineering**
- **Software Engineering**
- **Duration**: 4 years F/T, 8 years P/T
- **Campus**: City
- **Starts**: 28 Feb & 18 July 2022

### Bachelor of Arts & Bachelor of Computer and Information Sciences conjoint programme
- **Duration**: 4 years F/T, up to 8 years P/T
- **Campus**: City
- **Starts**: 28 Feb & 18 July 2022

### Bachelor of Business & Bachelor of Computer and Information Sciences conjoint programme
- **Duration**: 4 years F/T, up to 9 years P/T
- **Campus**: City
- **Starts**: 28 Feb & 18 July 2022

### Graduate Certificate in Computer and Information Sciences
- **Duration**: ½ year F/T, 1 year P/T
- **Campus**: City
- **Starts**: 28 Feb & 18 July 2022

### Graduate Diploma in Computer and Information Sciences
- **Duration**: 1 year F/T, 2 years P/T
- **Campus**: City
- **Starts**: 28 Feb & 18 July 2022

### Graduate Certificate in Science
- **Duration**: ½ year F/T, 1 year P/T
- **Campus**: City
- **Starts**: 28 Feb & 18 July 2022

### Graduate Diploma in Science
- **Duration**: 1 year F/T, 2 years P/T
- **Campus**: City
- **Starts**: 28 Feb & 18 July 2022

### World-leading Research

Research is our strength, and we have a strong focus on research in collaboration with our many industry partners. Our research expertise ranges from artificial intelligence to astronomy and space science, and from robotics and mechatronics to power and energy engineering. As a postgraduate student, you’ll learn from globally renowned academic staff and have access to our world-class research institutes and facilities.

Our research centres, groups and initiatives include:

- 3D Printing Lab
- Additive Manufacturing Research Centre
- AUT Drone Lab
- AUT Radiofrequency Identification Lab
- BioDesign Lab
- Centre for Advanced Manufacturing Technology
- Centre for Artificial Intelligence Research
- Centre for Energy and Power Engineering
- Centre for Kode Technology Innovation
- Centre for Robotics and Vision
- Centre for Signals and Systems
- Data Science Research Group
- High Performance Computing Research Laboratory
- Human Computer Interaction Laboratory
- Institute of Biomedical Technologies
- Institute for Radio Astronomy and Space Research
- Knowledge Engineering and Discovery Research Institute
- Mathematical Sciences Research Group
- Network and Security Research Group
- Scanning Electron Microscope Lab
- Science, Technology, Engineering and Mathematics Tertiary Education Centre
- Service and Cloud Computing Research Laboratory
- Sensor Network and Smart Environment Research Centre
- Software Engineering Research Lab
- Sustainable Thermodynamics Lab
- Telemetrics Research Centre
- Tribology and Surface Engineering Laboratory
- Wireless Innovations in Engineering (WISE) Research Group

"AUT caters to the modern world by adapting its courses to provide students with the appropriate skillset, ready for the demands of the working world. I selected the Bachelor of Engineering (Honours) in Maritime Engineering because it was unique compared to the rest of the disciplines on offer. I knew it would give me the best opportunity for a worldwide career and the opportunity to study both in New Zealand and in Australia. My day-to-day job now involves turning a client’s dream into reality. My main area of work involves the design of high-speed hydrofoil-assisted catamarans, predominantly for New Zealand, Australia and America."

Renee Fuller
Naval Architect, Teknicraft Design Ltd
Bachelor of Engineering (Honours) in Maritime Engineering
PROGRAMMES

Postgraduate Certificate in Engineering
Duration ½ year F/T, 1 year P/T
Campus City
Starts 28 Feb & 18 July 2022

Postgraduate Diploma in Engineering
Duration 1 year F/T, 2 years P/T
Campus City
Starts 28 Feb & 18 July 2022

Master of Engineering
Duration 1½ years F/T, 3 years P/T
Campus City
Starts 28 Feb & 18 July 2022

Master of Construction Management
Duration 1 year F/T, 2-3 years P/T
Campus City
Starts 28 Feb & 18 July 2022

Master of Philosophy
Duration 1 year F/T, 2 years P/T
Campus City
Starts 1 Feb & 1 Aug 2022

Master of Construction Management
Duration 1 year F/T, 2-3 years P/T
Campus City
Starts 28 Feb & 18 July 2022

Postgraduate Certificate in Computer and Information Sciences
Duration ½ year F/T, 1 year P/T
Campus City
Starts 28 Feb & 18 July 2022

Postgraduate Diploma in Computer and Information Sciences
Duration 1 year F/T, 2 years P/T
Campus City
Starts 28 Feb & 18 July 2022

Master of Computer and Information Sciences
Duration 1½ years F/T, 3 years P/T
Campus City
Starts 28 Feb & 18 July 2022

Postgraduate Diploma in Science
Duration 1 year F/T, 2 years P/T
Campus City
Starts 28 Feb & 18 July 2022

Master of Science
Duration 1½ years F/T, 3 years P/T
Campus City
Starts 28 Feb & 18 July 2022

Master of Information Security and Digital Forensics
Duration 1½ years F/T, 3 years P/T
Campus City
Starts 28 Feb & 18 July 2022

Bachelor of Science (Honours)
Duration 1 year F/T, 2 years P/T
Campus City
Starts 28 Feb 2022

Doctor of Philosophy
Duration 3-6 years
Campus City & South
Starts 1 Feb & 1 Aug 2022

Master of IT Project Management
Duration 1 year F/T, 2-3 years P/T
Campus City
Starts 28 Feb & 18 July 2022

POSTGRADUATE STUDY

“I enjoyed meeting interesting and like-minded people during my time at AUT, and participated in many different research projects and sport activities. It was a memorable time. One of the highpoints for me was completing the AUT Edge Award, which challenges students to develop skills in the areas of collaboration, communication and creativity. Initially I signed up for the AUT Edge Award as I knew I could add this to my CV, but as I started attending the seminars and doing the voluntary work I realised it was much more than that. Every single seminar or presentation helped me get closer to the type of job I wanted to do.”

Giri Gonsai
India
Software Test Engineer, Planit Software Testing Pvt Ltd
Postgraduate Diploma in Computer and Information Sciences

“In comparison to other world-renowned universities, AUT graduates are highly favoured by employers. The reputation for graduate success in the industry demonstrates that AUT is doing excellent work when it comes to teaching and industry connections. For me, this was a significant reason for choosing AUT. In the first year of my PhD, AUT became the first university in New Zealand to launch an electric bus, travelling between the different campuses. I was so proud to have the chance to participate in this project, and research the potential impact of electric buses on the electricity grid and other key information related to electrical vehicle technology.”

Jun Su
China
Electrical Engineer, Ergo Consulting Ltd
Doctor of Philosophy candidate
AUT is one of the biggest health science education providers in New Zealand. We draw on research and industry practice to prepare you for a rewarding career in this growing sector, and our graduates are in demand around the world. Times Higher Education ranks us first in New Zealand for health subjects and the Academic Ranking of World Universities places us in the top 150 in the world for public health and top 200 for nursing. Our academic staff and postgraduate students often conduct groundbreaking research to improve our understanding of health and environmental issues, generate new products and technologies, and enhance policy making and professional practice.
UNDERGRADUATE STUDY

Diploma in Paramedic Science
- Duration: 1 year F/T only
- Campus: South
- Starts: 28 Feb 2022

Bachelor of Health Science
- Individual Pathway
- Case Management
- Counselling
- Health Management
- Midwifery
- Nursing
- Occupational Therapy
- Oral Health
- Paramedicine
- Physiotherapy
- Podiatry
- Psychology
- Public and Environmental Health
- Options for some majors: P/T for Midwifery and Physiotherapy, P/T for some majors
- Campus: North & South
- Starts: 28 Feb 18 July 2022

Graduate Certificate in Health Science
- ½ year F/T, 2 years P/T
- Campus: North & South
- Starts: 28 Feb 2022

Graduate Diploma in Health Science
- 1 year F/T, 3 years P/T
- Campus: North & South
- Starts: 28 Feb 18 July 2022

Graduate Diploma in Psychosocial Studies
- 1½ year F/T, 3 years P/T
- Campus: North & South
- Starts: 28 Feb 2022

Postgraduate Certificate in Health Science
- Acupuncture
- Child Health
- Health Care Ethics
- Health Professional Education
- Leadership and Management
- Māori Health
- Mental Health and Addictions
- Midwifery
- Musculoskeletal Physiotherapy
- Paramedicine
- Physical Activity and Nutrition
- Podiatry
- Rehabilitation
- Violence and Trauma Studies
- Duration: 1 year F/T, up to 3 years P/T
- Campus: North & South
- Starts: 28 Feb 18 July 2022

Postgraduate Certificate in Advanced Nursing Practice
- Acupuncture
- Child Health
- Māori Health
- Mental Health and Addictions
- Midwifery
- Musculoskeletal Physiotherapy
- Nursing
- Paramedicine
- Podiatry
- Rehabilitation
- Violence and Trauma Studies
- Duration: 1½ year F/T, up to 2 years P/T
- Campus: North & South
- Starts: 28 Feb 18 July 2022

Postgraduate Diploma in Registered Nurse Prescribing
- Acupuncture
- Advanced Nursing Practice
- Child Health
- Health Care Ethics
- Health Professional Education
- Leadership and Management
- Māori Health
- Mental Health and Addictions
- Midwifery
- Musculoskeletal Physiotherapy
- Paramedicine
- Physical Activity and Nutrition
- Podiatry
- Rehabilitation
- Violence and Trauma Studies
- Duration: 1½ year F/T, up to 4 years P/T
- Campus: North & South
- Starts: 28 Feb 18 July 2022

“...I can honestly say AUT has helped mould me into the qualified registered nurse I am today. The greatest skill I’ve learnt as a result of studying at AUT is the ability to connect theory with my clinical practice, and use critical thinking to solve problems in a more holistic approach when caring for my patients. I got to meet lifetime friends, and was supported and motivated by my lecturers to be the best I can be. My favourite part of it all was being exposed to different areas of nursing while I was on my clinical placements.”

Tara Soe
Registered Nurse, Counties Manukau District Health Board
Bachelor of Health Science (Nursing)
PROGRAMMES

WORLD-LEADING RESEARCH

AUT is home to world-leading researchers across the field of health sciences. We have strong connections with the health sector and deliver leading research in health sciences.

For example, we’ve led the world’s largest study of problem gambling treatments, run New Zealand’s only longitudinal study of Pacific Island families and created an award-winning app to assess people’s stroke risk.

Our research centres and groups include:

- Centre for Active Ageing
- Centre for eHealth
- Centre for Interdisciplinary Trauma Research
- Centre for Midwifery and Women’s Health Research
- Centre for Migrant and Refugee Research
- Centre for Pacific Health and Development Research
- Centre for Person Centred Research
- Child and Youth Health Research Centre
- Gambling and Addictions Research Centre
- Health and Rehabilitation Research Institute
- Institute of Biomedical Technologies
- National Centre for Interprofessional Education and Collaborative Practice
- National Institute for Public Health and Mental Health Research
- National Institute of Stroke and Applied Neurosciences
- Rehabilitation Innovation Centre
- Taupua Waiora Centre for Māori Health Research
- Traumatic Brain Injury Network

“I’ve always been passionate about those experiencing homelessness, and my master’s degree research focuses on homeless people in the face of emergencies and disasters, using Auckland as a case study. When people in the sector found out I was researching homelessness post COVID-19, all of a sudden I was in working groups with academics around the globe, and working on real solutions to homeless people’s vulnerabilities to emergencies and disasters. This was all due to my supervisor and his connections within the profession. I can’t speak enough about how this degree has given me so many more opportunities than I ever expected.”

Mathew St Martin
USA
Master of Disaster Risk Management and Development student
Bachelor of Sport and Recreation in Outdoor Education

“During my time at AUT the highlights would definitely be the extremely close cohort we had, and the diversity of learning and placement opportunities, especially working on the stroke ward in Waikato and at ABI (Acquired Brain Injury) Rehabilitation in Ranui. I thoroughly enjoyed seeing the holistic transition and raw emotion that came with the progress made by those I worked with. My role now allows me to work directly with the players and staff, and help rehabilitate them using the most up-to-date research and protocols in relation to professional football. I’ve also loved being able to use my experience and the club’s profile to highlight the importance of mental health and overall wellbeing.”

Brendan Wyatt
Ngāti Tainui
First Team Physiotherapist, Wellington Phoenix FC
Bachelor of Health Science (Physiotherapy)
Our hospitality, tourism and event management programmes are world ranked and recognised globally. University rankings organisation QS has ranked our programmes in the top 34 in the world, and the Academic Ranking of World Universities (ARWU) places us in the top 100 globally. Our Bachelor of International Tourism Management is accredited by the United Nations World Tourism Organization (UNWTO) for higher tourism education, training and research programmes. Our academic staff are globally known as experts in their fields, and have research strengths across hospitality, tourism, gastronomy and events. Our industry-standard facilities include two first-class training restaurants, two state-of-the-art culinary demonstration theatres and industry standard professional kitchens.

WORLD-LEADING RESEARCH

Our research expertise spans from marine tourism to the co-creation of hospitality experiences and from event studies to gastronomy, and many of our staff are globally known as experts in their field. We’re the home of the renowned New Zealand Tourism Research Institute, which delivers innovative solutions for the tourism industry and has been involved in research projects across the globe. We also publish Hospitality Insights, which showcases our ground-breaking research for hospitality practitioners.

“While I was at AUT, I enjoyed meeting new people and working on group projects because it enabled collaboration, and being part of a team meant that we were all on the same page and the same journey. During my workplace experience at Sofitel Auckland Viaduct Harbour, I was able to put all my theoretical knowledge into practice doing something I love – working with people and providing memorable experiences. I now lead a team of five, managing and overseeing all group bookings for our hotel, including for high profile groups. Liaising with other departments to ensure that our guests have a successful stay is also a key part of my role.”

Sarah Waapu-Kumar
Ngāti Kahungunu
Reservations Manager, Pullman Auckland
Bachelor of International Hospitality Management

“I had been working in tourism for almost 10 years, and I have a passion and commitment to develop our local tourism industry. I decided to enrol in the Master of International Tourism Management because I could see that it would help me perform better and make my dreams come true. AUT has great academic staff and resources in its tourism programmes. I really enjoyed meeting new people and experiencing a new culture in such a beautiful country, and meeting good friends from around the world. Studying tourism will literally open up the world for you – it will lead to a career where you can both travel and work at the same time!”

---

“People with disabilities in Vietnam’s food industry are experiencing a high rate of unemployment, which may lead to them living in poverty. I hope my research findings can further our knowledge about the working abilities of people with disabilities, and can advocate for a better life for them. My aspiration is to become a lecturer who can inspire young people to do great things for their community and the environment. That’s why I wanted to learn and develop my teaching and researching capacity through my PhD journey. I love the way AUT has established so many innovative initiatives and robust international partnership with many countries and organisations. I enjoy being surrounded by so many proactive staff and students.”

Van-Tin Doan  
Vietnam  
Doctor of Philosophy candidate
Our language and culture programmes are taught by academic staff who are passionate about their subject areas and draw on their own experience and research to inform their teaching. We understand the importance of communicating successfully in both local and global environments and the key role that culture plays. Our courses cover language in its widest sense – from creative writing and English and its relationship with new media, to translation and interpreting, language learning and teaching, discourse analysis and the importance of intercultural competencies.

PROGRAMMES

WORLD-LEADING RESEARCH

We pride ourselves on delivering ground-breaking research across the field of language and culture, and our academic staff are known for their expertise across the field of linguistics. We’re also proud to be the home of the AUT Centre for Creative Writing, a creative hub for established and budding writers that offers an open and exciting learning environment where you can pursue your creative writing ideas and turn them into reality.

Chien-ju Ting
Doctor of Philosophy candidate
With a reputation for the quality of its programmes, the AUT Law School offers a distinctive, professionally focussed legal education. Our teaching approach will stimulate your interest in the law while preparing you for career opportunities as a lawyer or in other fields. AUT law graduates are highly sought-after by law firms and employers in other fields. Our programmes have been developed in close consultation with the legal profession, and throughout your studies you’ll be taught by academic staff and leading practitioners who are widely recognised as experts in their field.

**WORLD-LEADING RESEARCH**

Our dedicated research centres ensure that we’re at the forefront of developments in the legal profession. The AUT Centre for Non-Adversarial Justice aims to identify and promote various models of justice under the broad banner of non-adversarial justice. The AUT Centre for Private Law facilitates research and debate across the entire spectrum of private law including tort law, contract law, the law of unjust enrichment, property law, equity and private international law. The AUT Centre for Indigenous Rights and Law aims to raise the visibility of legal rights, issues and customary law relevant to the native peoples of Aotearoa New Zealand and the Asia Pacific region.

"On my first day working at McVeagh Fleming as a summer clerk I was handed a file concerning a topic we had just covered in a criminal law workshop at AUT a couple weeks before. Without that workshop I wouldn’t have known where to start, but I managed to recall the relevant legislation and special exceptions, which impressed my supervising solicitor. This experience has really made me appreciate AUT’s law lecturers and workshop leaders as they make sure that their teaching can be applied in the real world. The lecturers were excellent teachers, accessible and happy to answer any queries."

Elisabeth Giles
Law Clerk, McVeagh Fleming
Bachelor of Laws (First Class Honours)
Māori and indigenous development at AUT is at the cutting edge of Māori media, culture, communication and language. Grounded in te ao Māori, our qualifications will prepare you to contribute in diverse ways in media, business, government, community and iwi organisations. Study with us and develop the skills to tell stories that matter to you, your whānau and the world. You’ll have access to our industry-standard equipment and the latest technology to create films, e-books and apps.

WORLD-LEADING RESEARCH
We deliver leading research in a number of areas within Māori and indigenous development, working closely with academics and organisations from around New Zealand and the world. As a postgraduate student you work closely with academic staff who are known as experts in their field – from Māori business and entrepreneurship to Māori media and from Mātauranga Māori to New Zealand history and the Treaty of Waitangi.

“I chose this degree because I wanted to study something that would allow me to be creative, use my te reo Māori, and learn more about te ao Māori and kaupapa Māori. I loved being in a kaupapa Māori environment where everyone was so proudly Māori; proud of their culture and language. This experience inspired me to strengthen my own reo and I took a gap year and studied abroad in Shanghai for half a year to learn Mandarin Chinese. My degree also enabled me to start learning the other official language of Aotearoa; New Zealand Sign Language (NZSL).”

Louis Inn Tze Ngā-Tai e Rua Wee
Residential Youth Worker, Ko Tāku Reo Deaf Education Centre New Zealand
Bachelor of Māori Development in Māori Media

“At first I was looking at studying communication studies, but after attending the AUT open day, AUT LIVE, I discovered the Māori media degree, which combined my love for media and the Māori culture. I knew immediately that this was the university degree for me. A favourite highlight of my studies was creating a documentary with my friends on how attitudes towards te reo Māori can hinder its growth. We produced, filmed and edited our documentary over 10 weeks, which was fun and stressful at the same time. I was extremely proud of the project and with the A+ grade we received.”

Stasia Wharepouri
Te Karanga, Nga Puhi, Cook Island Māori, Niuean
Administrator, Kiwis for Kiwi
Bachelor of Māori Development in Māori Media
Environmental sustainability, innovative food production, geospatial science and chemical synthesis techniques are some of the key ingredients that will shape the future world we live in. Study science with AUT and you’ll be prepared for a rewarding career in a wide range of industries and professions. Our collaboration with industry means that your study will be highly relevant to your career. Our research focuses on scientific issues of regional and global significance – research that makes a difference to the world we live in. AUT science alumni contribute to scientific innovation and world-leading research in many fields, and are highly sought-after by employers around the world.

**WORLD-LEADING RESEARCH**

At AUT’s open day, AUT LIVE, I quickly realised that the science lecturers and professors included some very passionate and impactful environmental scientists, ecologists and conservationists. They all had great stories to tell from the many organisations and projects they had been a part of, both here in New Zealand and overseas. As they discussed the fieldtrips, projects and research I would likely participate in while studying at AUT, it became clear that AUT’s science programme was the perfect starting point for my own environmental stories.

If you want a rewarding career where you can make a difference, studying social sciences and public policy is the perfect start. At AUT you’ll study society at many levels – from individuals, families and communities, governments and cultures through to our global system. Our academic staff are research-active and globally known as experts in areas as diverse as economics, human rights, gender equality, ethnicity and race, identity, community development, social structure, social data analytics, and criminology and police. Study with us and you’ll gain an in-depth understanding about how and why people think and behave as they do; skills that are essential no matter where your future career takes you.

SOCIAL SCIENCES & PUBLIC POLICY

Nationally and internationally recognised lecturers
Huge opportunities for workplace experience and international study exchanges
Research undertaken with national and local government

### World-leading Research

We believe in high-quality research that has impact, and our world-class researchers have expertise across social sciences and social justice - from human rights and gender equality, to psychology, criminology and community development. As a postgraduate student, you work closely with some of New Zealand’s most widely known experts in social sciences and social justice. Our experienced lecturers constantly draw on their own international and New Zealand experience and research to inform their teaching. You could also benefit from the expertise of the Centre for Social Data Analytics, which applies strong data science to linked data, undertaking research that tells us new things about the human experience.

WORLD-LEADING RESEARCH
AUT is globally known for its leading sport and exercise science research. Our research covers sport and activity-related areas, as well as performance, nutrition, coaching and human potential. We’re proud to be the home of New Zealand’s top sport and fitness facility, AUT Millennium, which helps our communities be healthy and our top athletes become champions. Based at AUT Millennium, the Sports Performance Research Institute New Zealand (SPRINZ) is New Zealand’s number one sports research institute. Its world-class laboratory facilities and international reputation attract many overseas researchers and students to New Zealand, and SPRINZ research has received funding from organisations like the Health Research Council, Sport New Zealand and the World Health Organization.

“Completing the second-year Analysing Performance course was eye-opening and gave rise to my amazing workplace experience at the Vodafone Warriors, within the performance analysis department. Having the opportunity to be a part of the team, work with industry-leading software and technology, and link in theoretical concepts to my duties gave my learning real substance and deepened my desire to work within the sport industry. Another amazing moment was in my third-year Integrative Coaching course. Discovering the concept of coach development, and linking in all knowledge on coaching theory and experience was very inspiring. This has consequently fuelled my passion to contribute to this very influential line of work.”

Scott Lewis
Community Coach Advisor, Sport Auckland
Bachelor of Sport and Recreation in Coaching

“The environment and the culture at SPRINZ, which is based at AUT Millennium, is amazing. This has made my PhD journey very enjoyable. Everyone is super friendly and it has been really easy to arrive and feel good. I haven’t been homesick once since leaving France and coming to AUT! We have access to great people who can help us with many topics, and there is high-end equipment to support our research. The multidisciplinary nature of AUT Millennium is an amazing opportunity, with SPRINZ, the Human Performance Centre and High Performance Sport New Zealand all based under one roof.”

Enora Le Flao
France
Doctor of Philosophy candidate

aut.ac.nz/sportrecreation
HOW TO APPLY

Below is the step-by-step guide to the applications process. For more information visit aut.ac.nz/apply

1 APPLY EARLY

Places are limited. Submit your application well before the semester starts.

APPLYING FOR 2022
- Semester 1
  - apply by 6 December 2021
- Semester 2
  - apply by 2 May 2022

Some programmes have earlier application dates. Check the AUT website for details.

Applying for the Master of Philosophy (MPhil) and Doctor of Philosophy (PhD)

If you are planning to enrol in a Master of Philosophy (MPhil) or Doctor of Philosophy (PhD) at AUT, email the Graduate Research School

doctoral.and.mphil.admissions@aut.ac.nz

2 COMPLETE THE APPLICATION FORM

- Apply online
- Indicate your programme(s) of choice and major (if known)

International students can also apply using an AUT approved international agent. For a list of AUT registered agents visit aut.ac.nz/international-agents

3 ACCEPT YOUR OFFER

WE ASSESS YOUR APPLICATION

- We assess your application to ensure you have met the entry criteria for the programme(s) you are applying for
- We consider your academic history and relevant experience to ensure you can succeed in your programme
- We let you know if your application has been successful

POSSIBLE OUTCOMES

CONFIRMED We would like to offer you a place to study at AUT

PROVISIONAL You have met some of the criteria for entry to your chosen programme of study and we would like to offer you a provisional place to study at AUT. If you don’t meet the rest of the requirements, for example University Entrance, then this offer will be withdrawn

CONDITIONAL You have to meet the conditions and approvals listed in your conditional offer to be able to secure a formal offer of place

DECLINED If you don’t meet the entry requirements or all places are taken, we may offer you an alternative programme
ENTRY REQUIREMENTS
FOR STUDENTS WHO HAVE COMPLETED HIGH SCHOOL IN NEW ZEALAND

All applicants need to meet AUT’s minimum entry requirements. Because of competition for places, you may need to have more than the minimum entry requirements for admission to some programmes. Entry requirements for each programme you can study at AUT are listed on the AUT website. The information below serves as a guide only.

For more information and specific entry requirements for each programme visit aut.ac.nz

University admission for AUT’s bachelor’s degrees

To gain admission to bachelor’s degrees, you must have met the requirements for University Entrance plus any specific admission requirements for a programme.

You may be granted University Entrance under one of the following categories: NCEA University Entrance, Ad Eundem Statum admission (includes CIE and IB), Discretionary Entrance or Special Admission.

<table>
<thead>
<tr>
<th>STANDARD</th>
<th>NCEA</th>
<th>CIE</th>
<th>IB</th>
</tr>
</thead>
<tbody>
<tr>
<td>Overall</td>
<td>Require NCEA level 3 certificate which consists of 80 credits, including at least 60 credits at level 3 or higher. Can include up to 20 credits at level 2.</td>
<td>A minimum of 120 points on the New Zealand CAIE Tariff at A or AS level from an approved list (equivalent to NCEA approved subject list). Must include at least three subjects (excluding Thinking Skills) with grades D or above.</td>
<td>IB Diploma with minimum 24 points</td>
</tr>
<tr>
<td>Numeracy</td>
<td>At least 10 level 1 (or higher) numeracy credits (can be achieved through a range of subjects)</td>
<td>A minimum grade of D in IGCSE3 mathematics or any mathematics subject at AS or A level.</td>
<td>Any mathematics subject – IB Group 5</td>
</tr>
<tr>
<td>Literacy</td>
<td>Total of 10 level 2 (or higher) literacy credits including - 5 reading credits - 5 writing credits From specific standards in a range of NZQA English language rich subjects.</td>
<td>A minimum grade of E in English Language and/or English Literature subject at AS or A level.</td>
<td>Literature or language and literature (SL or HL) – IB Group 3, with English as the language.</td>
</tr>
</tbody>
</table>

1 New Zealand CAIE Tariff (based on the old UCAS Tariff) = system which converts AS and A level grades into points.
2 New Zealand residents who have taken IB but have not been awarded the Diploma may apply for discretionary entrance.
3 IGCSE = International General Certificate of Secondary Education.

Where programmes require a specific NCEA subject, it is expected that a student will have achieved a minimum of 14 credits in that subject (unless indicated otherwise).

To calculate your NCEA or CIE rank score use our rank score calculator on aut.ac.nz/universityentrance

Certificates and diplomas

Entry requirements for certificates and diplomas vary by programme. You can find specific entry requirements for your chosen programme on our website aut.ac.nz

Graduate certificates and graduate diplomas

You generally need to have completed an undergraduate qualification for entry to a graduate certificate or diploma. You can find specific entry requirements for your chosen programme on our website aut.ac.nz

Postgraduate programmes

Entry requirements for AUT postgraduate programmes vary. You can find specific entry requirements on the programme page for your chosen programme on our website aut.ac.nz

Minimum entry requirements are generally a successfully completed bachelor’s degree in the same area of study from a recognised university. You may also be required to provide evidence of relevant work/research experience.

If you’re planning to undertake a thesis, a research proposal will also be required.
**ENTRY REQUIREMENTS FOR STUDENTS WHO HAVE COMPLETED OVERSEAS QUALIFICATIONS**

**Bachelor’s degree and diploma entry requirements**

**New Zealand school qualifications**
You can gain University Entrance (UE) through NCEA, IB or CIE. See page 98 for details.

**Other secondary school qualifications from different countries**

Graduate certificate and graduate diploma entry requirements

You generally need to have completed an undergraduate qualification for entry to a graduate certificate or diploma. You can find specific entry requirements for your chosen programme on our website aut.ac.nz

Postgraduate programme entry requirements

Entry requirements for AUT postgraduate programmes vary. You can find specific entry requirements on the programme page for your chosen programme on our website aut.ac.nz

Minimum entry requirements are generally a successfully completed bachelor’s degree in the same area of study from a recognised university and a recognised English language test that meets the language requirements. You may also be required to provide evidence of relevant work/research experience.

If you’re planning to undertake a thesis, a research proposal will also be required.

Foundation courses

If you don’t meet the entry requirements for our bachelor’s degrees, two foundation programmes are available as an alternative pathway into AUT:

- The AUT Certificate in Foundation Studies taught by UP International College NZ, located close to the AUT City Campus
- NCUK International Foundation Year, located at multiple study centres globally

If you successfully achieve University Entrance and meet any additional programme requirements, you can progress into your chosen bachelor’s degree.

UP International College NZ
Email: international.enquiries@up.education
partnerships.up.education

NCUK
There are three pathways available:
- International Foundation Year (IFY)
- International Year One (IYOne)
- Pre Master’s Programme (PMP)
ncuk.ac.uk

1. UCAS (Universities and Colleges Admissions Services for the UK) Tariff = system which converts AS and A level grades into points.
ENTRY REQUIREMENTS

AUT classes are taught in English. If English, Māori or NZ Sign Language is not your first language, you need to prove you have the minimum level of English for your chosen AUT programme.

We need to assess your level of English to ensure you can succeed in your programme. AUT does not accept responsibility if you fail courses because of a lack of competence in English.

For initial teacher education programmes (Bachelor of Education, Master of Teaching and Learning, Graduate Diploma in Secondary Teaching) visit https://teachingcouncil.nz for the Teaching Council English language requirements.

International students at NZ secondary schools

If you’re gaining University Entrance (UE) through NCEA, IB or CIE, you must meet the UE literacy requirements. You can’t replace the literacy requirements with an English language test result. Some AUT programmes have language requirements higher than UE literacy.

Students with qualifications from outside of New Zealand

Applying on the basis of a qualification from another country? Use your official results for one of the following tests or qualifications to meet the English language requirements. Results can be up to two years old.

IELTS (Academic)

Due to professional registration requirements, IELTS is the required English test for most health science degrees. It’s also the preferred English test for all other AUT qualifications. If you gain UE through a NZ secondary school qualification, you can’t replace the UE literacy requirements with IELTS.

Some programmes have higher requirements than the ones listed below.

**Doctoral degrees**

IELTS 6.5 overall with 7.0* in Writing and all other bands 6.0 or higher

*Engineering, Computer and Mathematical Sciences only require a 6.5 Writing Band

**Other postgraduate programmes**

IELTS 6.5 overall with all bands 6.0 or higher

**Graduate diplomas, graduate certificates and conjoint programmes**

IELTS 6.5 overall with all bands 6.0 or higher

**Bachelor’s degrees**

IELTS 6.0 overall with all bands 5.5 or higher

**Diplomas and certificates**

Depending on the particular programme, either IELTS 6.0 overall with all bands 5.5 or higher, or 5.5 overall with all bands 5.0 or higher

**Qualifications taught and assessed in English**

You can use the official results of an academic qualification completed in a country where English is the main language:

- Must have been taught and assessed in English - evidence is required
- Must be at an appropriate level

**Other recognised English language tests**

Use the following table to see what you need to meet the English language requirements.

Test results shouldn’t be more than two years old. Other recognised tests of English language proficiency may be accepted on a case-by-case basis as agreed by AUT.

1. GIE can’t be used to meet doctoral English language entry requirements.
2. Individual band scores for TOEFL iBT are indicative and variations of up to two points may be accepted, as long as the minimum overall score is achieved.

ENGLISH LANGUAGE REQUIREMENTS
ENTRY REQUIREMENTS

English language courses

AUT School of Language and Culture
If you don’t meet the English language entry requirements for your programme, AUT’s School of Language and Culture offers certificate and diploma programmes to meet entry requirements for further study at university level.

IELTS required: IELTS 5.5 with no band less than 5.0 for Diploma in English Language and Certificate in English for Academic Study.

To find out more visit aut.ac.nz/languages

International House
AUT International House is the English language school for international students at AUT and is located on the City Campus. International House also offers general English language training.

GIE Academic Pathway
• Full-time, 23 hours per week, 12-week academic preparation and study skills programme
• Multiple intakes per year
• Successful completion provides a pathway into a range of AUT programmes (exceptions are degrees requiring board certification on graduation and PhD study)
• IELTS entry requirement: 5.5 overall with a minimum of 5.5 in Reading and Writing and 5.0 in Speaking and Listening

We have additional programmes for students with lower IELTS.
You need to be at least 18 years to enrol.
There will be an oral and written placement test when you arrive.

To find out more visit aut.ac.nz/ih
Scholarships for international students
If you live overseas and are considering university study in New Zealand, you may be eligible for AUT scholarships, particularly for postgraduate study. For example, if you plan to enrol in a doctoral degree you may be eligible for the Vice-Chancellor’s Doctoral Scholarships.
Many countries also provide their own scholarship programmes for students to study overseas and you should check the availability of these. The New Zealand Government also offers scholarships for international students to study in New Zealand.
To find out more visit aut.ac.nz/scholarships

International student fee payment options
AUT has partnered with Western Union to provide international students with a reliable, fast and secure way for you to pay. This payment method is by telegraphic transfer in local currency where available.
For the full list of payment options visit aut.ac.nz/international/payment

International fee refund
If you need to change or withdraw from your programme of study, you may be entitled to a refund. Our friendly Student Hub team can answer any question you may have about refunds or the refund policy.
To find out more visit aut.ac.nz/fee-refunds

The Education (Pastoral Care of International Students) Code of Practice
AUT has agreed to observe and be bound by the New Zealand Government’s Code of Practice for the Pastoral Care of International Students.
Copies of the code are available in six languages at nzqa.govt.nz/the-code

iStudent Complaints
This is an independent Dispute Resolution Scheme (DRS) established by the New Zealand Government to assist international students with any disputes between them and their providers.
To find out more visit istudent.org.nz/about-istudent-complaints

Your student visa
One of the most important steps is to get your student visa organised before you reach New Zealand. Without a valid visa and medical/travel insurance it’s unlawful to study in New Zealand.
To find out more visit immigration.govt.nz or studyinnewzealand.govt.nz/how-to-apply/visas

Living costs
If you are coming to New Zealand on a student visa, Immigration New Zealand currently requires you to have NZ$15,000 available plus an additional NZ$2,000 to cover a return ticket home. You will need more than this to adequately cover your living costs. Living costs can vary considerably depending on your lifestyle.
To find out more visit studyinnewzealand.govt.nz/live-work/cost-of-living

Working in New Zealand
As an international student you can work 20 hours per week during the academic year and full-time during scheduled vacations. Please note that the number of hours you can work during your study will not be enough to fund your studies. Master’s by research and doctoral students may be granted unlimited work rights.
To find out more visit immigration.govt.nz/new-zealand-visas/options/study/working-during-after-your-study

Medical and travel insurance
The New Zealand Government requires all international students to have appropriate insurance. Most international students are not entitled to publicly funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of the treatment. That is why it is so important that you have medical and travel insurance while studying at AUT.
To make it easy, we include AUT’s default medical insurance, the Studentsafe Inbound University plan, as part of your Offer of Place. You don’t have to accept the AUT insurance policy, and can choose an alternative from an approved provider on our website.

FINANCE & SCHOLARSHIPS

Find out what it costs
Cost is an important factor when thinking about university study. Visit our website aut.ac.nz/fees to get an idea of the approximate tuition fees at AUT, and different options to help you fund your education including scholarships, student loans and allowances.

The 2022 tuition fees will be advertised on aut.ac.nz/fees as soon as they have been set.

Free fees for your university study
Eligible domestic students starting tertiary education receive one year of full-time study fees-free¹. To check if you’re eligible for fees-free study in 2022 visit aut.ac.nz/fees

¹. Domestic students only, not available to international students.

Student loans and allowances¹
If you are a full-time domestic student, you may qualify for a student loan or allowance. Student loans and allowances are administered and paid by StudyLink. The application process can take some time, so it’s a good idea to apply early. You can apply for a student loan or student allowance before your enrolment at AUT is complete.

Call 0800 88 99 00 or visit studylink.govt.nz

¹. For domestic students only, not available to international students.

Help with planning and budgeting
We know that sometimes things happen and financial stress can impact your academic success. That’s why we offer financial support that ranges from offering grocery or fuel vouchers, to helping with that unexpected bill.

Scholarships and awards
Scholarships and awards are a great way to fund your university study. There is a wide range of scholarships and awards available to AUT students at all stages of their study. Visit the scholarships website for a current list of scholarships offered by AUT and external funders, as well as application forms and closing dates.

You can also contact AUT’s Scholarships Office for advice on scholarships, awards and the scholarship application process.

Call +64 9 921 9837 or visit aut.ac.nz/scholarships

StudyLink website
Visit studylink.govt.nz for tools, tips and information to help you plan and understand the costs you will have while studying.

Support for scholarship students
Undergraduate scholarship students – whether the scholarship was awarded for academic endeavour or for excellence in sports, culture or leadership – have access to an extensive programme of support, including professional development and networking opportunities, and one-on-one support.

FIND OUT MORE

AUT open day
Our open day at the City Campus showcases everything AUT has to offer to help you make an educated decision about university study. To find out more visit aut.ac.nz/live

Meet AUT staff overseas
The AUT International team visit many countries to meet future international students and discuss study options. To find out when AUT staff are visiting your country visit aut.ac.nz/meet-aut

StudyLink website
Visit studylink.govt.nz for tools, tips and information to help you plan and understand the costs you will have while studying.
