Nau mai, haere mai ki AUT
WELCOME TO AUT

E ngā mana, e ngā reo
E te iti, e te rahi
E ngā mātāwanga o ngā tōpito o te ao
Ngā mahuetanga iho e kawe nei i ngā moemoeā o rātou mā
Tēnā koutou katoa

To the prestigious, the many voices
The few, the great
To those of all races and creeds
We who remain to fulfil the dreams and aspirations of the ancestors
Greetings one and all

Piki mai rā, kake mai rā,
Nau mai, haere mai ki tēnei o ngā wānanga
Whakatau mai i raro i te korowai āhuru o Te Wānanga
Aronui o Tāmaki Makau Rau

Climb, ascend
Embark on the journey of knowledge
Let us at AUT embrace and empower you
To strive for and achieve excellence

Te whakatupu i te kōunga, i te mana taurite me ngā tikanga matatika, i ngā pūkenga ako, i ngā pūkenga whakaako me te āta rangahau hei hāpai i ngā hāpori whānui o te motu, otiārā, o te ao.

To foster excellence, equity and ethics in learning, teaching, research and scholarship, and in so doing serve our regional, national and international communities.
We are Aotearoa New Zealand’s most welcoming and diverse university, situated in one of the world’s most dynamic and culturally rich cities.

At AUT, our mission is to create great graduates. Our students learn in an engaging environment that encourages them to participate and develop their own views, to challenge and be challenged, to learn deeply and apply their knowledge in real situations. Students are connected to industry and business through work placements, internships and entrepreneurial programmes, and engage with the community through volunteering and leadership initiatives.

We are one of the world’s leading universities. We are the only New Zealand university ranked both among the top 1% of universities in the world and in the top 50 universities under 50 years of age. Times Higher Education places AUT as the second highest-ranked university in New Zealand. We are ranked first in New Zealand for international outlook and global research impact, with 100,000 alumni worldwide, and provide exceptional learning experiences in state-of-the-art facilities guided by world-class academics and support staff.

We offer over 250 undergraduate and postgraduate programmes across our three modern campuses and specialist locations, making AUT one of the largest universities in New Zealand.

Many of our subject areas are world-ranked, and our graduates are highly employable nationally and internationally. Our global network of industry and tertiary partners provides opportunities to broaden the student experience further.

We are committed to building a culture of open-mindedness, curiosity and questioning where our researchers and students think critically, listen carefully and speak courageously.

Our prospectus describes the AUT student experience in the words of the people who know it best - our students, past and present, from all around the world. However, a prospectus can only go so far, and the best way for you to gain insight into life at AUT is to visit us and experience it for yourself.

We look forward to welcoming you to our university and helping you find your greatness at AUT.

Professor Damon Salesa
Vice-Chancellor
Auckland University of Technology

Our Māori name, Te Wānanga Aronui o Tāmaki Makau Rau, reflects our mission and purpose. Tāmaki Makau Rau locates our presence in Auckland; Wānanga is the opportunity to gather, persevere and venture into new learning spaces; Aronui refers to deepening our knowledge and understanding and references one of the three baskets of knowledge in Māori lore - Te Kete Aronui. The knowledge attained in this basket centres around the human experience and the transformative power of education.

Therefore, Te Wānanga Aronui o Tāmaki Makau Rau refers to a place that celebrates the pursuit of knowledge and embraces new realisations that reflect our world, which is meaningful, impactful, and transformative for collective wellbeing and advancement.

“I’m frequently asked why I chose to study at AUT. The simple response is that AUT is home. Coming from a Pacific family, I carry a full bundle of culture, identity, and values with me; all of which are recognised, acknowledged, respected and welcomed at AUT. AUT’s support system is so impressive that all students will be able to cross the stage.”

Simaima Paongo
Master of Education
Bachelor of Arts in Education

“I was brought up with the mindset that experience is paramount. AUT is known for not only equipping graduates with knowledge, but for also ensuring that students are backed with experience. After hearing about AUT and its final-year workplace experience, I knew I was going to study there. AUT gives you access to so many amazing opportunities and all you have to do is say yes!”

Samantha Smith
Bachelor of Business in Marketing & Bachelor of Communication Studies in Public Relations

“I met some lifelong friends at AUT, and many of them have gone on to become successful in their own respective fields, from entrepreneurship to leadership in Fortune 500 companies. The practical nature of learning and development at AUT allowed me to transition into a career quite seamlessly. In particular, the final-year workplace experience was an opportunity that wasn’t available at other universities.”

Robert Kay
Bachelor of Business in Information Systems and Marketing

“I've really enjoyed my time at AUT and the people I met along the way have really made it special. Being surrounded by people who share the same positive energy makes such a difference, and there's nothing better than being surrounded by people who enjoy what they're doing. There's a great community here that I wouldn't trade.”

Helen Hoang
Doctor of Philosophy - Science
Bachelor of Advanced Science (Honours)

"AUT is the sort of place where you can express yourself freely within a safe environment. From the day I first enquired about studying at AUT to my very last day, the staff and wider student community have supported, encouraged and pushed me to achieve great things. At AUT, you’re not just a number, you are you!”

Kalen Chase
Ngāti Porou, Ngāti Kahungunu, Ngāpūhi, Taumarutuarad, Tuturu
Bachelor of Education (Primary Pasifika Teaching)

“Everyone knows that AUT is one of the best universities in New Zealand, famous for its dynamic study atmosphere. In this ever-changing world, choosing a university that owns its unique modern and innovative spirit is always the right choice. AUT offers innovation, good academic staff and great facilities; offering students a smooth and pleasant university journey.”

New Zealand’s leading modern university

AUT is proud to be one of the world’s best modern universities. Times Higher Education has ranked us #41 in the top universities under 50 years of age, and among the top 1% (251-300) of universities in the world and second in New Zealand. We have an overall five-star rating from university rankings organisation QS, in addition to five-star ratings for teaching, employability, research, environmental impact, internationalisation and facilities.

We’re one of the largest universities in New Zealand and the fastest growing postgraduate study destination, with over 250 programmes, 2,000 academic staff and more than 100,000 alumni all over the world.

Collaboration and partnership underpin everything we do and we’re connected to an extraordinary range of organisations worldwide; sharing expertise and resources, collaborating on groundbreaking research, and connecting students with industry leaders and employers.

Widely known for academic excellence

AUT’s mission is to create great graduates, and we offer a supportive study environment and exceptional learning experiences for all our students to prepare them to be successful wherever in the world their career may take them.

Study with us and you can enrol in our range of world-ranked subjects, which include our highly ranked health programmes and one of the world’s best sport science schools.

Across all of our programmes, we encourage innovation and workplace experience, and the ability to explore new technologies, challenge routine thinking and solve problems in new ways. We embrace new technologies to lead the learning of tomorrow and prepare our students for the rapidly changing world. As a contemporary university we also place an emphasis on working across disciplines in our research, and teaching and learning.

Thanks to our innovative teaching, excellent reputation and combination of theoretical and practical learning, AUT graduates are highly favoured by employers and ready to make a difference in our world.

An innovative teaching and learning environment

AUT’s three university campuses feature modern buildings that don’t just win architecture awards but also provide excellent collaborative environments where students can develop skills that help them stand out in their future careers.

We have a number of world-class facilities including one of only a handful of motion capture studios in the country and New Zealand’s top sports science facility, AUT Millennium.

Our state-of-the-art buildings were created using sustainable principles and feature inviting and functional learning areas, lecture theatres, auditoriums and research spaces. This includes the Engineering, Computer and Mathematical Sciences building, which has unique design features that mean it can be used as a teaching tool and ‘living lab’ where students can get hands-on experience.

AUT’s success in creating transformational educational spaces has been recognised with a five-star ranking for teaching and facilities, awarded by the world university rankings organisation QS.

Research that shapes tomorrow

AUT leads New Zealand in global research impact. We’re ranked first in New Zealand by university rankings organisation Times Higher Education for the number of times our research is cited globally.

We have more than 60 research centres and institutes delivering leading research – from artificial intelligence and robotics to ecology and public health.

AUT research benefits all New Zealanders and addresses issues facing the environment and society. Our discoveries are widely used, both in New Zealand and around the world. Our research also feeds back into the classroom, and students can contribute to and learn from these research discoveries.

He aha ai e ako ki AUT?
WHY STUDY AT AUT?

1. Widely known for academic excellence
2. An innovative teaching and learning environment
3. Research that shapes tomorrow
AUT is a modern and innovative university with endless opportunities, and a supportive culture that celebrates diversity and is committed to improving our local and global communities.

Our students are at the heart of everything we do, and we’re proactive in enabling them to succeed and be ready for any challenge in front of them. We work alongside them to design and deliver comprehensive student support services and opportunities – to enable them to build meaningful friendships and connections, develop life skills, achieve academically and have amazing experiences inside and outside the classroom.

At AUT you’re not just a number; we value every student that comes through our doors, be it physically or virtually.

“As soon as I arrived at the AUT open day, I felt a sense of belonging. Everyone I met was really down-to-earth and super friendly, so I jumped straight into the opportunity they offered me. At AUT, it’s not all just about finishing your degree; you can have fun while you’re doing it.”

Our Student Hubs – your place to get the support you need
AUT offers some of the most comprehensive student support services in New Zealand, and our Student Hub is where you can learn more about these services. Our Student Hubs are available both online and across our campuses, so you can get help and support when and where you need it. Our professionally qualified staff include social workers who can look after and support our diverse student community. The Student Hub helps you navigate all the opportunities available to you, and provides you with the support to succeed, from when you apply to after you graduate.

Getting you started on your uni journey
Studying at university is exciting and can be quite an adjustment. That’s why AUT helps new students transition to university life by delivering a wide-ranging orientation programme at the start of each semester. Orientation is complemented by a fun social programme to help you meet new friends and celebrate the new journey you’re on. You’ll be connected to our student ambassadors and navigators who are senior students at AUT – and were in your shoes not too long ago. Orientation is just one aspect; we also offer activities throughout the semester to transition you into university life.

To help you find your way through your student journey, AUT’s app also provides up-to-date news, events, and information about AUT anytime, anywhere.

“As a new student, you won’t feel lost at AUT as the student support services are awesome. There is this great team at the Student Hub, which will be your first contact point where you can get all necessary advice. AUT offers a good university environment for students.”

Helping you achieve your academic goals
At AUT, we do everything we can to support you to achieve your academic goals and set you up for a successful career. You’ll have access to all the people, resources and technology you need to make the most of your learning opportunities.

• **Learning support**: Our learning advisors and Studiosity are here to help you ace your assessments. You’ll have easy access to writing, research, notetaking, exam and reading skills support through assessment advice appointments and workshops provided by Te Matapuna Library & Learning Services.

• **Childcare**: We have a childcare centre at the North Campus for student parents, and private rooms for breastfeeding at all three main campuses. You can also bring your children to dedicated whānau rooms at the City and North Campus libraries, so you can study while your children play.

• **Free technology access**: Access wifi on campus, the full Microsoft Office 365 suite and LinkedIn Learning and enjoy remote access to some AUT computers to use specialist software unavailable on personal devices.

• **Financial assistance**: Get support with food or transport vouchers, rent and living expenses, and laptops and data packages if you’re experiencing financial difficulty.

• **Graduate Research School**: Postgraduate students can access leadership and support services from applications through to graduation, and dedicated staff to support you throughout your studies.

• **Vibrant research culture**: Enjoy the many opportunities to collaborate, connect, share and celebrate ideas on multiple platforms across AUT.

“As a ‘mature’ student, I wasn’t sure if I was up to the challenge of study at this level. Managing to do better than I thought has improved my confidence. Of course, this wouldn’t have been possible without support from lecturers and the support services at AUT, including Studiosity and the library resources.”

Bradley White
Bachelor of Education (Primary Teaching)
A home away from home

As a student, you’ll spend most of your time with us on campus. We want you and your family to feel comfortable and confident that you’re being looked after while you’re on campus. • Disability support: Our Disability Support team works with students before they start at AUT to help identify their specific needs and ensure they’re set up for success. We offer sign language interpreters, notetakers, provision and training in using adaptive technology, and support for students with learning differences.

• International support: From bilingual staff at the Student Hub who may speak your language to a specialist team that works across time zones, we make sure you feel at home in New Zealand.

• Representing your interests: The AUT Student Association (AUTSA) advocates and represents the interests of all AUT students, and shares students’ voices through its Debate magazine.

"After I transferred to AUT from another university, I felt anxious about making new friends and adapting to AUT’s modern approach. However, by volunteering for AUTSA and joining clubs like OUT@AUT, I immediately felt AUT’s warm, welcoming spirit."
Aleka Timoq
Bachelor of Laws and Bachelor of Arts

Beyond learning and into employability

AUT is proud of creating well-rounded graduates ready to succeed in New Zealand and the world. Our services, competitions and awards offer you enriching life experiences that will support your career once you graduate.

• Supporting your future career: Our specialist teams help you be ready for the workforce, from your first day at uni to your first day in your future job. You can access a full programme of employer presentations, events and workshops throughout the year, and we also have four graduate job boards, including international career options, with great work opportunities for AUT graduates and interns.

• Gain an AUT edge: The AUT Edge and Beyond AUT Awards help you gain an extra edge in the competitive marketplace by developing sought-after skills through volunteering, leadership, and employability activities.

• Industry experience: AUT works directly with industry partners to ensure you get practical workplace experience as part of your qualification.

• International exchange: See the world before you graduate by studying overseas as part of your degree. Study for a semester or a year at one of our partner universities around the world, and immerse yourself in another culture, make lifelong friends and get international experience.

‘AUT provides a wide range of useful workshops, resources, events, social gatherings, scholarships, awards and more. For me, things like the career fairs, Employability Lab services and completing the AUT Edge Award were the most beneficial opportunities I could have ever asked for.’
Nicole Camacho
Master of Business
Bachelor of International Hospitality Management
One size does not fit all, especially when it comes to learning and education — which is why AUT students can build their own degree programme and choose majors and minors from different disciplines.

As part of several AUT bachelor’s degrees, students can choose two majors, or take the opportunity to explore more subjects with a mix of one major and two minors, or a major with one minor and electives.

In the Bachelor of Business, Ethics, Responsibility and Sustainability is one of several core courses in the degree and then students get to choose from majors spanning from finance to human resources and international business.

Minors give students the chance to study an even broader range of subjects, spanning art and design, communications, creative technologies, computing, health sciences, hospitality, language and culture, science, social sciences, and sport and recreation.

Third-year Bachelor of Business student Camila Roa-Nunez chose a marketing major and event management minor and says she really values the breadth of skills she is developing through the programme.

“As a result of my studies, I’ve had the opportunity to intern for the music event Rhythm and Vines and concert promoter Live Nation, which had been a dream of mine for a very long time. My marketing skills along with my understanding of event management have been extremely useful when doing projects.”

Creating flexible degree programmes has other benefits too, according to Barry Brunette, Director of Business Undergraduate Programmes.

“Many of our undergraduate students come straight from high school, and are faced with figuring out what they think their future career will be and making some big choices about what to study. Giving students the ability to explore different subject areas can ultimately help them find a career that is really interesting and meaningful to them.”

The Bachelor of Business is currently one of seven AUT programmes offering students this added flexibility to tailor their degree. To view all degrees that include this flexible component and to trial the “Build your degree” online tool, visit aut.ac.nz/degreebuilder.
TRANSFORMING EARTHQUAKE-RESISTANT BUILDINGS

When a major earthquake occurs, one of the critical factors in determining injuries, fatalities and the level of damage and destruction, is whether the city’s buildings have been designed to withstand earthquakes. Loss of life is by far the most devastating consequence of earthquakes but the cost of rebuilding can create a massive, ongoing economic burden for years afterwards — the 2011 Canterbury earthquake and aftershocks resulted in the demolition of more than 1,000 commercial buildings in Christchurch, costing billions of dollars.

Now, a major research programme being led by engineer and AUT senior lecturer Dr Shahab Ramhormozian from AUT’s School of Future Environments is expected to deliver “a step change in seismic design and construction”.

The AUT-led five-year research programme, Sustainable Earthquake Resilient Buildings for a Better Future, has been awarded $8.2 million in funding from the New Zealand Government’s Endeavour Fund and is being undertaken in collaboration with researchers at the University of Auckland and the University of Canterbury.

The research is focused on developing versatile building systems to withstand severe earthquakes and will integrate a system developed in Dr Ramhormozian’s PhD research – the Optimised Sliding Hinge Joint (OSHJ), which is a major advance on an earlier joint design because it supports buildings to withstand seismic events and, critically, does not require any post-earthquake repair or replacement. The OSHJ is already in use in three new buildings in Hamilton.

"Unlike currently available resilient building solutions such as base isolation, which is expensive and has a limited scope of application, our technology does not add cost or complexity, compared with conventional systems, and is widely applicable," says Dr Ramhormozian.

The outcomes from this research are likely to see New Zealand become a world leader in low-cost and low-damage seismic engineering.

AUT’s lead role in this project is also creating exciting research opportunities for PhD students like Fatemeh Alizadeh.

“I’ve been able to undertake literature reviews and Finite Element Modelling to support further development of the OSHJ. It’s incredible to be working on a research project that has global significance and could drastically improve the ability of our built environments to withstand earthquakes.”
MASSIVE THERAPEUTIC POTENTIAL FOR NOVEL RESEARCH

When biomedical sciences PhD candidate Maya Dian began her postgraduate studies at AUT she knew she wanted to do something “with a huge positive impact on current health and treatment plans” but she wasn’t sure what to focus on.

Then she met AUT Associate Professor Ali Seyfoddin who suggested researching cannabinoids (specific extracts of the cannabis plant) and their therapeutic potential. “Cannabinoids have a wide spectrum of therapeutic potential and a high safety profile for humans, which means they can help billions of people around the world who are suffering from unmanageable chronic pain, neurological diseases and cancers.”

Associate Professor Seyfoddin is the director of AUT’s Drug Delivery Research Group which is focused on identifying and developing ways to safely and efficiently target drugs or bioactive compounds to the parts of the body where the medicines will be most effective.

For her PhD research, Maya is developing a novel nano-carrier for the delivery of cannabinoids. “The therapeutic potential of cannabinoids is huge. Designing an appropriate drug delivery system for them could unleash their potential and have a great impact on our healthcare system,” says Maya, recipient of an AUT Vice-Chancellor’s Doctoral Scholarship.

As well as receiving guidance from Associate Professor Seyfoddin and other highly respected researchers at AUT’s School of Science, Maya says the Drug Delivery Research Group’s industry partnerships have created some incredible opportunities.

Maya is one of three AUT postgraduate students working on research and development projects with Helius Therapeutics, one of the country’s leading medicinal cannabis companies.

Two of the R&D projects being carried out by AUT researchers have also attracted backing from the New Zealand government’s innovation agency Callaghan Innovation.

Bachelor of Science (Honours) graduate Lizzy Domigan was the recipient of an R&D Experience Grant from Callaghan Innovation and has been working on a tissue culture programme with Helius. “After finishing my undergraduate studies, I was in a dilemma about what the most valuable next step in my career would be – gaining industry experience or continuing academic learning with postgraduate study? Choosing to study at AUT for my honours degree has granted me the extraordinary opportunity to achieve both.”
Going to university and committing to tertiary study is a massive step, especially for students making the transition from high school to university – which is why AUT offers some of the most comprehensive student support services in New Zealand.

AUT’s Student Hub connects students with any support they need throughout their studies, from financial aid to welfare support and connection with peer teams of senior students. Over the past year, the Student Hub team has answered more than 75,000 calls, responded to more than 135,000 emails and assigned student advisors to more than 7,000 cases requiring additional support.

Student Hub Director Liz Bishara says the focus for AUT’s support services is ensuring that they are responsive to the pressures students are facing.

“With the disruption of the pandemic, the past couple of years have been a challenging time for our students, with a rapid shift to remote learning at times, and also periods of financial hardship when our students found themselves without a job or faced difficulties with transport. We responded with really practical support.”

In a one-year period, AUT distributed $1.8 million in financial hardship payments to more than 1,800 students. The university also increased the regularity of support payment cycles to reduce wait times for assistance, and provided supermarket vouchers to students in more immediate need.

“We were also able to shift support for our students with impairment to respond to the changes in curriculum delivery, and laptops and data bundles were made available for students who didn’t have access to their own.”

The Student Hub team also makes sure that students are aware of all the different support AUT offers – and engagement levels with AUT’s support services are high.

Each year, the Student Services team supports thousands of students through Orientation activities and connecting them to academic support, either online and in-person mentor sessions or feedback on assessments via AUT’s 24/7 online learning support platform Studiosity. The team also helps students access counselling from AUT’s expanded counselling team or via Puawatanga, wellbeing and resilience workshops with Bright Side Tupuranga Ake, and career, CV and job search support.

“Whether our students are facing academic issues or struggling with their health or finances, we want them to know they are not alone, and that help is available.”
CREATING TOMORROW’S LAW MAKERS

“A fully diverse judiciary is important to the quality of the law.”

Chief Justice Dame Helen Winkelmann is head of New Zealand’s judicial system and says the path that judges have walked through life shapes how they will develop the law – making diversity a critical foundation for our legal profession.

But greater diversity among judges has to start with more diversity among the country’s law students.

Which is one of the reasons AUT has committed to creating a learning environment that is more supportive and inclusive of people from different backgrounds.

AUT is the only law school with a campus in South Auckland, and 20% of the law student cohort is based there. Other AUT initiatives to make law a more accessible pathway include making campuses into open community spaces, and backing the Te Kuhunga programme to inspire, inform and support senior secondary students from Auckland’s low decile schools to study law at university.

AUT’s Manukura Turei/Dean of Law, Associate Professor Khylee Quince (Ngāpuhi, Ngāti Porou, Te Roroa), says she’s proud of the incredible diversity of the law school’s student population, both in terms of age and life stage, and ethnicity.

“About 28% of our cohort is Indian or other subcontinent ethnicities, then the next highest is Pasifika at 22%, then Pākehā and Māori. Over 40% of our cohort are not school leavers, some are retraining, changing careers. We have a high percentage of middle-aged Māori and Pasifika mums.”

“AUT doesn’t look like any other law school in the country. It’s pretty special. We’re also committed to excellence and we have a really high percentage of high performing students.”

The trail being blazed by many of AUT’s law grads is evidence of that high performance, with alumni working in top commercial firms, community law practices, for government and Crown Solicitors, and alumnus Justice Layne Harvey recently sworn in as a High Court judge.

Law student Gloria Rapoto, of Cook Island and Māori (Te Rarawa) descent, was inspired to consider a legal career after working in the District Courts for three years and has continued to work with the courts while studying full-time at the South Campus.

Gloria says AUT’s law programme is well structured allowing students to build and consolidate their knowledge of vast areas of the law, something that prepared her well for her recent internship with Bell Gully – along with AUT’s supportive learning environment.

“The lecturers were always open to questions, approachable and supportive. One of our law lecturers guided me through the internship application process and pushed me to believe I could achieve big.”
Nearly 600,000 New Zealanders take medication for asthma and it is one of the most common causes of hospital admissions in children. Alongside the devastating personal and community costs of asthma – as evidenced by the most recent New Zealand Health Information Service mortality data reporting more than 120 deaths within a year – the respiratory disease creates a huge economic burden. Annual costs in New Zealand are estimated at over $1 billion, including more than $800 million from workdays lost, disability affected life years and mortality. Globally, asthma impacts more than 262 million people and in 2019 caused more than 455,000 deaths, according to the World Health Organization.

One of the critical ways to reduce the severity of poor asthma outcomes, including hospitalisations and mortality rates, is to understand which patients are most at risk and focus on preventive health management. But how can you predict who is most at risk?

Researchers at AUT’s Data Science Research Centre are using data and machine learning models to find the answers. One research project is using climatic parameters and air quality predictors as the input data streams, sourced from Auckland Council and NIWA, to predict the daily count of ED visits and admissions related to asthma – and ultimately help with health resource planning.

Another project, which Darsha Widana is working on as part of her PhD in computer and information sciences, uses multiple data sources to predict a personalised asthma risk control score for individual patients. This will provide data-based insights to help individuals and health practitioners decide on management and treatment plans.

The Director of the Data Science Research Centre, Associate Professor Farhaan Mirza, says data science is set to become one of the most intensively researched areas in computer science as it has massive potential applications.

“Data science can help us use data we already have to find answers and make accurate forecasts about the likelihood of events and outcomes in the future.”

Data Science Research Centre researchers are involved in a wide range of projects including the analysis of farm milk collection data to improve supply chain management; misinformation analysis of social media content; and designing systems to detect falls in infants and the elderly.
At AUT you learn to design built environments that recognise indigenous values and address Auckland’s rapid population growth, as well as global issues like housing affordability, global warming and homelessness. You’ll be taught by professional architects, as well as professionals with backgrounds in design, engineering, computer science, creative technologies, media, business and entrepreneurship. You learn in an interactive environment where you collaborate with your classmates, mana whenua and experts from different disciplines to find innovative solutions that support community wellbeing and nurture future generations.
**UNDERGRADUATE STUDY**

**Bachelor of Architecture and Future Environments**
- **Duration**: 3 years full-time
- **Campus**: City
- **Starts**: 26 Feb 2024

**Bachelor of Construction**
- **Construction Management**
- **Quantity Surveying**
- **Duration**: 3 years full-time
- **Campus**: City
- **Starts**: 26 Feb 2024 & 15 Jul 2024

**Te Tohu Paetahi mō te Hoahoa - Bachelor of Design**
- **Spatial Design**
- **Duration**: 3 years full-time, part-time available
- **Campus**: City
- **Starts**: 26 Feb 2024

**Bachelor of Engineering (Honours)**
- **Architectural Engineering**
- **Construction Engineering**
- **Duration**: 4 years full-time, part-time available
- **Campus**: City
- **Starts**: 26 Feb 2024 & 15 Jul 2024

**Graduate Diploma in Architecture**
- **Spatial Design**
- **Duration**: 1 year full-time
- **Campus**: City
- **Starts**: 26 Feb 2024

**POSTGRADUATE STUDY**

**Master of Architecture (Professional)**
- **Duration**: 2 years full-time, part-time available
- **Campus**: City
- **Starts**: 26 Feb 2024

**Master of Engineering Project Management**
- **Duration**: 1 year full-time, part-time available
- **Campus**: City or online study
- **Starts**: 26 Feb & 15 Jul 2024

**Master of Construction Management**
- **Duration**: 1 year full-time, part-time available
- **Campus**: City or online study
- **Starts**: 26 Feb 2024 & 15 Jul 2024

**Master of Philosophy**
- **Duration**: 1 year full-time, 2 years part-time
- **Campus**: City
- **Starts**: 1 Feb, 1 May, 1 July & 1 Oct 2024

**WORLD-LEADING RESEARCH**

AUT researchers work on projects across the built environment, in New Zealand and around the world, from advanced construction and regenerative design research to exploring the future of communities. As an architecture and built environment student, you can collaborate on projects, and work with graduates and architects to create meaningful change in the built environment. You work on research projects that demonstrate the way architecture, design intelligence and future cities can become intertwined.

---

“*I want to help build better places where people can work, visit and live. I chose to study at AUT because of its kind, friendly, and diverse group of students and staff. As a student, I received so much encouragement and support! My biggest achievement was placing first for the Engineering New Zealand GT Murray Award for the best student member presentation on an engineering research or design project. This was for a research project presentation that showcased the work of my classmates and I, with support from our lecturers and mentors, on the design of a future student accommodation centre in Devonport.*”

**Sabrina Naseem**
Graduate Civil/Structural Engineer, AECOM
Bachelor of Engineering (Honours) in Construction Engineering

“*AUT’s architecture programme helps to prepare you for an industry that has moved well beyond isolated workflows and requires a huge amount of collaborative work every day. I liked that the programme at AUT was new and fresh, and seemed exciting, focusing on collaboration projects and indigenous knowledge sensitivity. I most enjoyed the collaborative teamwork approach to projects – it was more authentic to a real-life modern workplace and helped me become more prepared to engage in my industry. For my master’s degree research, I worked with my research team at AUT alongside Te Tatau o Te Arawa to support their vision of the region through conceptual architecture.*”

**Todd Collis**
Architectural Graduate, Chow:Hill Architects
Master of Architecture (Professional) with Honours (First Class)
AUT’s School of Art and Design is ranked in the top 200 worldwide in the QS World University Subject Rankings 2022. Our programmes focus on the connections between different design disciplines, the importance of mātauranga Māori, and new and emergent technologies. Our world-class facilities include three galleries, a 3D lab, digital, photographic and moving image facilities (including a motion capture studio). You’ll be supervised by our expert academic staff and have the chance to work on national and international projects, often with real industry clients. Our programmes balance creativity, research and conceptual development with theoretical and professional studies.
UNDERGRADUATE STUDY

Titohu mō te Hoahoa - Diploma in Design

Duration 1 year full-time, part-time available
Campus City
Starts 26 Feb 2024

Te Tohu Paetahi mō te Hoahoa - Bachelor of Design

- Animation, Visual Effects and Game Design
- Communication Design
- Fashion Design
- Industrial Design
- Interaction Design
- Spatial Design

Duration 3 years full-time, part-time available
Campus City
Starts 26 Feb 2024

Bachelor of Visual Arts

- Sculpture and Intermedia
- Painting and Printmaking
- Photography and Lens Based Media

Duration 3 years full-time, part-time available
Campus City
Starts 26 Feb 2024

POSTGRADUATE STUDY

Master of Design

Duration 1½ years full-time, up to 3 years part-time
Campus City
Starts 26 Feb 2024

Master of Visual Arts

Duration 1½ years full-time, up to 3 years part-time
Campus City
Starts 26 Feb 2024

Master of Philosophy

Duration 1 year full-time, part-time available
Starts 1 Feb, 1 May, 1 July & 1 Oct 2024

Doctor of Philosophy

Duration 3-6 years
Starts 1 Feb, 1 May, 1 July & 1 Oct 2024

WORLD-CLASS RESEARCH

Our creative-led research covers a broad range of art and design disciplines. Cultural practitioners – visual artists, spatial and fashion designers, film makers and more – come together to explore broad notions of art and design at AUT. As an art and design student you have access to our industry-leading studios, labs and services. These include photographic and lighting facilities, and motion capture, printmaking and 3D labs. We’re also the home of a suite of purpose-built galleries and project spaces dedicated to the development of contemporary art and a programme of exhibitions, events, symposia and publications.

PROGRAMMES

“A highlight for me was forming unexpected friendships that I will maintain for a lifetime, but also finding my passion as my degree progressed. One particular standout for me was a pair project that required an app design alongside a physical product, and included new design thinking techniques. That project taught me about how valuable and enriching collaborative work can be for a successful product, and gave me great insight into the areas of design I really enjoyed; the health and wellbeing space, ergonomic, intuitive and human-centred design. I now work in the healthcare industry and love having a role with such a big focus on patients and their wellbeing.”

Courteney Eccles
Product Development Engineer, Fisher & Paykel Healthcare
Bachelor of Design in Industrial Design

“There were a few times at university where I would put on a motion capture suit and jump into a capture volume. I could see a real-time virtual version of myself react to my every move and motion. It was amazing to see such a convincing display of subtle reaction, push and pull, changes in momentum, and a language of body and performance. In my job now I spend a great deal of time on creating animation. I have a lot of creative freedom and constructive input into the animations, and the content is centred around my own cultural heritage as a Māori creative. It’s my dream job.”

Reuben Terehu Shortland
Ngāti Hine
3D Animator, Metia Interactive
Bachelor of Design in Digital Design
The AUT Business School has been awarded the prestigious EQUIS and AACSB accreditations, putting it in the top 5% of business schools in the world. Our programmes are designed in collaboration with business leaders, and integrate theory with current practice and global trends. Our teaching approach and learning opportunities will help develop your creativity, critical thinking, collaboration, and communication skills, and include internships and applied projects that give you the competitive edge for your career. Our alumni are ready to challenge routine thinking and put forward innovative solutions, and they’re shaping successful careers all around the world.
### UNDERGRADUATE STUDY

#### Certificate in Business Studies
- **Duration**: ½ year full-time
- **Campus**: City & South
- **Starts**: 26 Feb & 15 Jul 2024

#### Diploma in Business
- **Duration**: 1 year full-time, part-time available
- **Campus**: City & South
- **Starts**: 26 Feb & 15 Jul 2024

#### Bachelor of Business
- **Accounting**: City
- **Economics**: City
- **Finance**: City
- **Human Resource Management and Employment Relations**: City
- **International Business and Strategy**: City

*I chose to study business because it's versatile, and can be applied to any industry and interest. This degree also meant that I could use it anywhere in the world and be employable right away after graduating. I got snatched up right away after I finished my studies. I applied for an entry level position but the recruitment agency who hired me straight out of uni was so impressed by my alumni status and being part of the Beta Gamma Sigma honours society, as well as the workplace experience as part of my degree, that they offered me a recruitment consultant role."

April Shwe-Paul
Agile Coach, Spark New Zealand
Founder, Purpose Coaching Ltd
Bachelor of Business in Human Resource Management, Management & International Business

**WORLD-LEADING RESEARCH**

Our world-class researchers work in all major disciplines in business, and in our multidisciplinary research centres. At the heart of our research is collaborative engagement with our external stakeholders in business, the professions, government, and the community. For example, our New Zealand Work Research Institute has undertaken projects for the Ministry of Business, Innovation and Employment; the Ministry of Women and the Productivity Commission, helping shape social policy directions and decisions.

"The AUT lecturers were incredible. Having smaller classes enabled me to form better relationships with the lecturers, and I didn’t feel like a number at any point as I had done in previous studies. Before studying at AUT I never thought of myself as someone who could excel in their studies, so to make the dean’s honours list in both 2019 and in 2020, and being named the top graduate in economics and top graduate in the Co-operative Education course was amazing. I’m proud of being chosen for ANZ’s sought-after graduate programme. These roles can be very competitive, so to be chosen is an achievement, and I enjoy rotating around five different institutional areas of the bank.”

**Alex Mazzone-Pitt**
Graduate, ANZ  
Bachelor of Business in Economics

"It made sense to learn more about business on an academic level. A friend of mine suggested I study at AUT, and it’s been one of the best decisions I’ve ever made. For a mature student, it was a little intimidating at first, but once I settled in, I realised how supportive AUT was and how easy-going the students were. When I was studying my last few courses for my Bachelor of Business, I took a course on risk management and immediately took an interest. I realised I could make my mark by helping to address health and safety issues for workers in Aotearoa, and decided to continue into postgraduate study.”

**Etienne Tapeeluelu**
Master of Business student  
Bachelor of Business in Management
Ranked in the top 200 worldwide in the QS World University Subject Rankings 2022, communication studies at AUT prepares you for rewarding career options across many exciting industries. Our research-active academic staff are known as experts in communications and media studies, and our industry standard facilities include well-equipped TV and radio studios, sound and editing suites and a live news media centre. Study with us and you’ll be equipped for the next evolution on the media horizon. It’s one of many reasons why our alumni are highly-regarded around the world and regularly win media awards.

**WORLD-LEADING RESEARCH**

Our world-class researchers have expertise across the field of communication studies, including Asia-Pacific media, journalism, media performance, multimodal analysis; online, social and digital media; political economy of communication, popular culture, public relations and radio. We’re committed to innovative, critical and creative research that advances knowledge, serves the community, and helps our students become future leaders in the communication and media industry.

“...covering many different areas, including journalism, advertising and digital media. At the time, while I had my ideas of what I wanted to do, I appreciated that the degree enabled me to get a feel for other avenues I could apply my skills to. It was a massive undertaking moving from Giszy to Tāmaki, but I loved my time studying at AUT, as well as Auckland providing a unique living and social experience. It was great to be able to meet like-minded people who shared my interests.”

Ryland Hutana
Ngāti Porou
Content Producer, Māori Television
Bachelor of Communication Studies in Digital Media

“I picked the Bachelor of Communication Studies at AUT because of how versatile the degree is for anyone wanting to explore the media industry. I was also impressed with the high-end facilities, gear, equipment and studios. I knew it would offer me the best experience and training to get me ready for the industry. One of the highlights of my time at AUT was seeing how close everyone in our degree became by the time we graduated. We spent three years together working on some of the most awesome, fun, creative projects – and we really became a family by the end of it.”

Melanie Dooley
Senior Imaging Producer, MediaWorks
Bachelor of Communication Studies in Radio
Use technology and creativity to solve the complex challenges of our time, and learn to think outside the box with our programmes in creative technologies. At AUT, you’ll experiment with things like augmented reality, robotics, gaming development tools, digital fabrication and sound engineering within a collaborative project-based studio environment. Your knowledge will be in demand within a wide range of cutting-edge industries. The world is changing fast, and people with imagination, advanced technological knowledge and entrepreneurial skills will be the ones to shape it.
## Postgraduate Certificate in Creative Technologies

## World-Leading Research

Our world-class labs are hubs for sharing expertise and research outcomes, and include the 3D Lab and Motion Capture Lab. We’re proud of our strong partnerships with businesses and the community, and our researchers and postgraduate students often collaborate with industry organisations on research or other projects.

---

“Creative technologies is a very broad degree where some students graduate specialising in a chosen field and some graduate as ‘a jack of all creative trades’. You’re exposed to so much throughout your time studying and end up learning about fields you might not have known existed before you started. We had the freedom to choose what we wanted to base our projects on and there was a lot of flexibility on what courses we took. Over the duration of my degree, I ended up specialising in web design and user experience but I really valued that I was able to take courses that interested me such as digital media and marketing.”

**Sherry Ng**
Design and Marketing Coordinator, Calibrate Digital Marketing
Bachelor of Creative Technologies
At AUT you’ll find all the support, encouragement and inspiration you’ll need to develop an outstanding career in education. Our widely regarded education programmes focus on academic knowledge and provide you with invaluable practical experience in teaching and education, through work placements in schools or education-related organisations. Our postgraduate and research students work in collaboration with academic staff who are internationally known as experts in the fields of pedagogy, education policy, e-learning and educational leadership.

### WORLD-LEADING RESEARCH

At AUT’s School of Education, we believe in high-quality research that has impact, and have world-class researchers and research strengths across education. Our research-active staff are widely known for their expertise in all areas of the education sector – from education policy, the changing nature of public education and mindfulness for teachers, to educational leadership and leadership development, equity, culture and diversity, and the philosophy of education.

“I’ve always loved children, but I never thought that teaching was the path for me as I lacked confidence in myself and my abilities. I previously completed a degree in sociology and employment relations, yet God called me to teaching. At first, I thought this was a mistake but once I began this journey, it all made sense. I’ve loved being among our rangatahi and witnessing their growth. At AUT I was able to develop my own teaching philosophy, find my own voice through my studies, and meet amazing people who share the same passion for supporting and guiding Pacific and Māori students in their learning.”

Maryanne Galumalemana
Year 7 and 8 Teacher, St John the Evangelist Catholic School
Bachelor of Education (Primary Teaching)

“...I think that through my love of te taiao, hākinakina and hauora, I can offer young tauira something that may not have been previously available in their lives. Whether it’s a hobby, an outlook or a career path, I want my students to have as many options as possible when they venture out into the real world.”

Arana Rakena
Ngāpuhi
Health, Physical Education and Te Reo Māori Teacher, Lynfield College
Graduate Diploma in Secondary Teaching
Bachelor of Sport and Recreation in Health and Physical Education

1. Not open for international applicants without NCEA.
2. Business courses also available at the South Campus.
Study engineering, computing or mathematical sciences and play a leading role in the technological, social and economic development of the world today. Our teaching and research staff are among the best in New Zealand and internationally. Our computing, software and engineering programmes have the highest standards in student experience, and our alumni are highly sought-after by employers around the world. With access to outstanding facilities you’ll be equipped to make industry-leading discoveries in collaboration with classmates, research staff and partner organisations.
UNDERGRADUATE STUDY

Certificate in Science and Technology
Duration: 1 year full-time
Campus: City & South
Starts: 26 Feb & 15 Jul 2024

Bachelor of Computer and Information Sciences
- Data Science
- Digital Services
- Networks and Cybersecurity
- Software Development
Duration: 3 years full-time, part-time available
Campus: City
Starts: 26 Feb & 15 Jul 2024

Bachelor of Engineering Technology
- Electrical Engineering
- Mechanical Engineering
Duration: 3 years full-time, part-time available
Campus: City
Starts: 26 Feb & 15 Jul 2024

Graduate Certificate in Computer and Information Sciences
- Data Science Research Centre
- Mathematics, Modelling and Analytics Research Centre
- High Performance Computing Research Laboratory
Duration: ½ year full-time, 1 year part-time
Campus: City
Starts: 26 Feb & 15 Jul 2024

Graduate Diploma in Computer and Information Sciences
- Data Science Research Centre
- Mathematics, Modelling and Analytics Research Centre
- High Performance Computing Research Laboratory
Duration: 1 year full-time, part-time available
Campus: City
Starts: 26 Feb & 15 Jul 2024

Graduate Certificate in Science
- Data Science Research Centre
- Mathematics, Modelling and Analytics Research Centre
Duration: ½ year full-time, part-time available
Campus: City
Starts: 26 Feb & 15 Jul 2024

Graduate Diploma in Science
- Data Science Research Centre
- Mathematics, Modelling and Analytics Research Centre
Duration: 1 year full-time, part-time available
Campus: City
Starts: 26 Feb & 15 Jul 2024

World-leading Research
Research is our strength, and we have a strong focus on research in collaboration with our many industry partners. Our research expertise ranges from artificial intelligence to robotics and data science to power and energy engineering. As a postgraduate student, you’ll learn from globally renowned academic staff and have access to our world-class research institutes and facilities.

Our research centres, groups and initiatives include:

- **Data science**
  - Data Science Research Centre
  - Mathematics, Modelling and Analytics Research Centre
  - High Performance Computing Research Laboratory

- **Intelligent systems**
  - Institute of Robotics and Vision
  - Networking and Security Research Centre
  - Software Engineering Research Centre
  - Ubiquitous and Web Computing
  - Wireless and Intelligent Systems Engineering

- **Health technologies**
  - Knowledge, Engineering and Discovery Research Innovation
  - BioDesign Lab
  - Institute of Biomedical Technologies

- **Energy**
  - Centre of Future Power and Energy Research
  - Thermodynamic Engineering Research and Applications Lab

- **Materials science**
  - Smart Systems, Materials and Manufacturing Research Centre

“MY lightbulb moment was when I was in my second year at AUT and doing work for the AUT Oceanian Leadership Network to encourage more Māori and Pacific people to get involved in science, technology, engineering and maths. Seeing my people discover that they too can be in technology sparked something in me. Learning how to code is great but communicating and using your skill for people is even better. My tautua (service) to my family and community has led me to where I am today.”

Eteroa Tusipepa Lafaele
Developer Evangelist, Xero
Director, Fibre Fale
Co-Founder, DigiTautua
Bachelor of Computer and Information Sciences in Software Development

---

1. The Maritime Engineering majors are only available to New Zealand citizens.
2. Business courses also available at the South Campus.
### Postgraduate Certificate in Engineering
- Duration: ½ year full-time, part-time available
- Campus: City
- Starts: 26 Feb & 15 Jul 2024

### Postgraduate Diploma in Engineering
- Duration: 1 year full-time, part-time available
- Campus: City
- Starts: 26 Feb & 15 Jul 2024

### Master of Engineering
- Duration: 1-1½ years full-time, part-time available
- Campus: City
- Starts: 26 Feb & 15 Jul 2024

### Master of Construction Management
- Duration: 1 year full-time, part-time available
- Campus: City & online study
- Starts: 26 Feb & 15 Jul 2024

### Master of IT Project Management
- Duration: 1 year full-time, part-time available
- Campus: City & online study
- Starts: 26 Feb & 15 Jul 2024

### Master of Philosophy
- Duration: 1 year full-time, part-time available
- Campus: City
- Starts: 1 Feb, 1 May, 1 July & 1 Oct 2024

### Bachelor of Science (Honours)
- Duration: 1 year full-time, part-time available
- Campus: City
- Starts: 26 Feb 2024

### Postgraduate Certificate in Science
- Duration: ½ year full-time, part-time available
- Campus: City
- Starts: 26 Feb & 15 Jul 2024

### Postgraduate Diploma in Science
- Duration: 1 year full-time, part-time available
- Campus: City
- Starts: 26 Feb & 15 Jul 2024

### Master of Science
- Duration: 1 year full-time, part-time available
- Campus: City
- Starts: 26 Feb & 15 Jul 2024

### Master of Analytics
- Duration: ½ years full-time, part-time available
- Campus: City
- Starts: 26 Feb & 15 Jul 2024

### Master of Cyber Security and Digital Forensics
- Duration: ½ years full-time, part-time available
- Campus: City
- Starts: 26 Feb & 15 Jul 2024

### Master of Engineering Project Management
- Duration: 1 year full-time, part-time available
- Campus: City & online study
- Starts: 26 Feb & 15 Jul 2024

### Doctor of Philosophy
- Duration: 3-6 years
- Campus: City & South
- Starts: 1 Feb, 1 May, 1 July & 1 Oct 2024

### Master of IT Project Management
- Duration: 1 year full-time, part-time available
- Campus: City
- Starts: 26 Feb & 15 Jul 2024

### Master of Philosophy
- Duration: 1 year full-time, part-time available
- Campus: City
- Starts: 1 Feb, 1 May, 1 July & 1 Oct 2024

---

**Pallavi Roy**  
India  
Technical Business Analyst (Operational Risk), Westpac New Zealand  
Master of IT Project Management

**Nick van der Geest**  
Doctor of Philosophy candidate  
Bachelor of Engineering (Honours) in Mechanical Engineering

---

“AUT is a university that provides a high standard of education and research programmes, and equips students with the skills for a successful career. I also appreciated the support available at AUT. Even during the unpredictable times due to the global COVID-19 pandemic, AUT offered assistance to help students continue their education without any obstacles. The syllabus of AUT’s Master of IT Project Management is designed very smartly, and I learned a lot about industry-leading technologies through my studies. Graduating from AUT with a master’s degree was a very proud moment for my family and me as I was the first family member to graduate with an international qualification.”

---

“My passion is in engineering, and I’ve really enjoyed the environment and the people at AUT. What I’ve loved most about my time at AUT is being able to experiment, push my learning without borders and try new ways to solve problems. I’d highly recommend AUT’s engineering programmes to other students. The programmes focus on applying the science we’re covering to real-life applications, which really helps us understand what we’re learning. One of the projects I’ve been involved in was designing prosthetic fins to help rehabilitate injured sea turtles, and it’s a super cool feeling knowing you’re working on something that can really have an impact.”

---
AUT is one of the biggest health science education providers in New Zealand. We draw on research and industry practice to prepare you for a rewarding career in this growing sector, and our graduates are in demand around the world. Times Higher Education ranks us in the top 101-125 globally for health subjects, and we’re ranked in the top 150 universities in the world, and first equal in New Zealand, for clinical medicine by the Shanghai Ranking. Our academic staff and postgraduate students often conduct groundbreaking research to improve our understanding of health and environmental issues, generate new products and technologies, and enhance professional practice.
"I decided to study midwifery because I loved the idea of building a connection with women and whānau while providing care for them over an extended period of time. I came to AUT because it offers a highly regarded midwifery programme. The head of midwifery at the time even held the position of chair of the midwifery council. This experience translated through to the programme and offered a supportive study experience. I love the whānau I get to work with as a midwife and particularly the relationships I get to build. Being there to facilitate a pēpi coming into the world is always a special moment."

Maia Wharekura
Ngāti Kahungunu
Self-employed Lead Maternity Carer, Rotorua
Bachelor of Health Science (Midwifery)
POSTGRADUATE STUDY CONTINUED

**Postgraduate Diploma in Counselling Psychology**

- **Duration**: 1 year full-time
- **Campus**: North
- **Starts**: 26 Feb 2024

**Master of Psychotherapy**

- **Duration**: 2 years full-time, part-time available
- **Campus**: North
- **Starts**: 26 Feb 2024

**Postgraduate Certificate in Disaster Risk Management and Development**

- **Duration**: ½ year full-time, part-time available
- **Campus**: South
- **Starts**: 26 Feb 2024

**Postgraduate Diploma in Disaster Risk Management and Development**

- **Duration**: 1 year full-time, part-time available
- **Campus**: South
- **Starts**: 26 Feb & 15 Jul 2024

**Master of Disaster Risk Management and Development**

- **Duration**: 1½ years full-time, part-time available
- **Campus**: North
- **Starts**: 26 Feb & 15 Jul 2024

**Master of Philosophy**

- **Duration**: 1 year full-time, part-time available
- **Campus**: North & South
- **Starts**: 1 Feb, 1 May, 1 July & 1 Oct 2024

**Doctor of Philosophy**

- **Duration**: 3-6 years
- **Campus**: North & South
- **Starts**: 1 Feb, 1 May, 1 July & 1 Oct 2024

**Doctor of Health Science**

- **Duration**: 3½ years full-time, part-time available
- **Campus**: South
- **Starts**: 14 Feb & 26 Jun 2024

**Postgraduate Diploma in Public Health**

- **Duration**: 1 year full-time, part-time available
- **Campus**: South
- **Starts**: 26 Feb & 15 Jul 2024

**Postgraduate Certificate in Public Health**

- **Duration**: ½ year full-time, part-time available
- **Campus**: South
- **Starts**: 26 Feb 2024

**Master of Public Health**

- **Duration**: 2 years full-time, part-time available
- **Campus**: South
- **Starts**: 26 Feb & 15 Jul 2024

**Master of Disaster Risk Management and Development**

- **Duration**: 1½ years full-time, part-time available
- **Campus**: South
- **Starts**: 26 Feb & 15 Jul 2024

**Master of Public Health**

- **Duration**: 3½ years full-time, part-time available
- **Campus**: South
- **Starts**: 14 Feb & 26 Jun 2024

**WORLD-LEADING RESEARCH**

AUT is home to world-leading researchers across the field of health sciences. We have strong connections with the health sector and deliver leading research in health sciences.

For example, we’ve led the world’s largest study of problem gambling treatments, run New Zealand’s only longitudinal study of Pacific Island families and created an award-winning app to assess people’s stroke risk.

Our research centres and groups include:

- Centre for Active Ageing
- Centre for eHealth
- Centre for Interdisciplinary Trauma Research
- Centre for Midwifery and Women’s Health Research
- Centre for Pacific Health and Development Research
- Centre for Person Centred Research
- Child and Youth Health Research Centre
- Gambling and Addictions Research Centre
- Health and Rehabilitation Research Institute
- Institute of Biomedical Technologies
- Migrant and Refugee Research Centre
- National Centre for Interprofessional Education and Collaborative Practice
- National Institute of Stroke and Applied Neurosciences
- Public Health and Mental Health Research Institute
- Taupua Waiora Centre for Māori Health Research
- Traumatic Brain Injury Network

“I enjoyed the level to which AUT staff are engaged and passionate about physiotherapy – all in their own unique way. I was actively involved as a research ‘test dummy’ a number of times and it was inspiring to be around people who were continuing to challenge what we know. I really enjoyed the connections I made with my classmates and with staff. Many of these colleagues are still close friends today. The clinical placements also helped me see how the theory could be applied to actually help people and what I would eventually see myself doing in my professional career.”

David Cooper
Clinic Owner/Principal Physiotherapist, Kinetics Physiotherapy
Postgraduate Diploma in Health Science in Musculoskeletal Physiotherapy
Bachelor of Health Science (Physiotherapy)

“Papua New Guinea has the highest maternal and child mortality and morbidity rates among the Pacific countries. I’ve been working in the health field for almost 20 years, and have vast experience in advocating for inequalities and injustices inflicted on young mothers, women and girls when it comes to sexual and reproductive rights. I’d highly recommend this programme to other students who have the same interest in public health and who want to further their knowledge in the field they’re passionate about. I’ve loved learning from AUT’s highly skilled and knowledgeable lecturers and appreciate their input into my career pathway.”

Ainda Piako Kepon
Papua New Guinea
Master of Public Health student
Our hospitality, tourism and event management programmes are world ranked and recognised globally. University rankings organisation QS has ranked us first in New Zealand and the Shanghai Ranking (Academic Ranking of World Universities) places us in the top 100 globally. Our tourism programmes are accredited by the United Nations World Tourism Organization (UNWTO) for higher tourism education, training and research programmes. Our academic staff are globally known as experts in their fields, and have research strengths across hospitality, tourism, gastronomy and events. Our industry-standard facilities include two first-class training restaurants, two state-of-the-art culinary demonstration theatres and industry standard professional kitchens.
UNDERGRADUATE STUDY

Certificate in Arts

Duration ½ year full-time, part-time available
Campus City
Starts 26 Feb & 15 Jul 2024

Diploma in Arts

Duration 1 year full-time, part-time available
Campus City
Starts 26 Feb & 15 Jul 2024

Diploma in Culinary Arts

Duration 2 years full-time
Campus City
Starts 26 Feb & 15 Jul 2024

Diploma in Pâtisserie

Duration 2 years full-time
Campus City
Starts 26 Feb 2024

Bachelor of Arts

- Culinary Arts
- Event Management
- Global Tourism

Duration 3 years full-time, part-time available
Campus City
Starts 26 Feb & 15 Jul 2024

Bachelor of International Hospitality Management

- Hospitality Enterprise
- Hospitality Management

Duration 3 years full-time, part-time available
Campus City
Starts 26 Feb & 15 Jul 2024

Graduate Certificate in Arts

Duration ½ year full-time, part-time available
Campus City
Starts 26 Feb & 15 Jul 2024

Graduate Diploma in Arts

Duration 1 year full-time, part-time available

Duration 1 year full-time, part-time available
Campus City
Starts 26 Feb & 15 Jul 2024

Bachelor of Arts & Bachelor of Business conjoint programme

Duration 4 years full-time, part-time available
Campus City
Starts 26 Feb & 15 Jul 2024

Bachelor of Arts & Bachelor of Computer and Information Sciences conjoint programme

Duration 4 years full-time, part-time available
Campus City
Starts 26 Feb & 15 Jul 2024

WORLD-LEADING RESEARCH

Our research aims to have a social impact for a more hospitable and sustainable future – from contributing to sustainable food systems and sustainable events, to championing accessible and inclusive tourism and hospitality. Our researchers deliver innovative solutions for the hospitality and tourism industry and have been involved in research projects across the globe.

"Successfully planning and producing a public event as part of my degree was a massive highlight. This gave me the opportunity to test my skills in a real-life setting and proved to be an amazing networking opportunity after graduating. I loved meeting like-minded people that I’ve stayed in touch with and who helped me get my foot in the door for my first graduate role. Another standout for me was being invited to a lecture where Dan Turner from Rhythm and Vines was speaking and, after hearing about his career, I knew events was the right career for me."

Jolyon Walsh
Experiential Coordinator, Mango Communications
Bachelor of Arts in Event Management & Marketing, Advertising, Retailing and Sales

"Being a chef was my dream career, and I decided to enrol in AUT’s Diploma in Culinary Arts because I wanted to learn from the best hospitality school in Auckland. One of the highpoints for me was my final semester in the Diploma in Culinary Arts. We had the chance to serve our own ideas of food to customers, which was a great opportunity to experience real life as a chef before graduating from university. What I love most about being a chef is seeing customers love my food. I like being able to show the community what Korean cuisine is all about and watch people enjoy the food we serve."

Jason Kim
Chef/Co-owner, Gochu & Tokki
Diploma in Culinary Arts
POSTGRADUATE STUDY

Bachelor of Arts (Honours)
- Duration: 1 year full-time, part-time available
- Campus: City
- Starts: 26 Feb & 15 Jul 2024

Postgraduate Certificate in Gastronomy
- Duration: ½ year full-time, part-time available
- Campus: City
- Starts: 26 Feb & 15 Jul 2024

Postgraduate Diploma in Gastronomy
- Duration: 1 year full-time, part-time available
- Campus: City
- Starts: 26 Feb & 15 Jul 2024

Master of Gastronomy
- Duration: 1½ years full-time, part-time available
- Campus: City
- Starts: 26 Feb & 15 Jul 2024

Postgraduate Certificate in International Hospitality Management
- Duration: ½ year full-time, part-time available
- Campus: City
- Starts: 26 Feb & 15 Jul 2024

Postgraduate Diploma in International Hospitality Management
- Duration: 1 year full-time, part-time available
- Campus: City
- Starts: 26 Feb & 15 Jul 2024

Master of International Hospitality Management
- Duration: 1½ years full-time, part-time available
- Campus: City
- Starts: 26 Feb & 15 Jul 2024

Master of International Tourism Management

- Campus: City
- Starts: 26 Feb & 15 Jul 2024

Master of International Tourism Management
- Duration: 1½ years full-time, part-time available
- Campus: City
- Starts: 26 Feb & 15 Jul 2024

Master of Philosophy
- Duration: 1 year full-time, part-time available
- Campus: City
- Starts: 1 Feb, 1 May, 1 July & 1 Oct 2024

Doctor of Philosophy
- Duration: 3-6 years
- Campus: City
- Starts: 1 Feb, 1 May, 1 July & 1 Oct 2024

“‘My PhD investigates the lived experiences of people with chronic pain, and how it has affected their ability to engage in tourism. From my research, I hope to give a voice to those that live in chronic pain because their voices are heavily underheard and marginalised within the tourism literature. Although doing postgraduate studies can be challenging, there are lots of opportunities for you to meet other students at AUT, and connect with them socially and personally. I really enjoy the inclusive, multi-cultural and multi-dynamic atmosphere here at AUT. There are also lots of different support services to help you.’"

Laura Upson
Doctor of Philosophy candidate
Bachelor of Arts (Honours) in International Tourism Management

NORTH CAMPUS

The North Campus is home to our education, health sciences, and sport and recreation programmes. Just a short bus trip from our City Campus, the North Campus provides all the facilities you need for a successful university experience.
Our language and culture programmes are taught by academic staff who are passionate about their subject areas and draw on their own experience and research to inform their teaching. We understand the importance of communicating successfully in both local and global environments and the key role that culture plays. Our courses cover language in its widest sense – from creative writing, and translation and interpreting, to discourse analysis and the importance of intercultural competencies.

Starts 26 Feb & 15 Jul 2024

Graduate Diploma in Arts
Duration 1 year full-time, part-time available
Campus City
Starts 26 Feb & 15 Jul 2024

Graduate Certificate in Arts
Duration ½ year full-time, part-time available
Campus City
Starts 26 Feb & 15 Jul 2024

Bachelor of Arts & Bachelor of Business conjoint programme
Duration 3 years full-time, part-time available
Campus City
Starts 26 Feb & 15 Jul 2024

Bachelor of Arts & Bachelor of Computer and Information Sciences conjoint programme
Duration 4 years full-time, part-time available
Campus City
Starts 26 Feb & 15 Jul 2024

WORLD-LEADING RESEARCH

We pride ourselves on delivering ground-breaking research across the field of language and culture. Our academic staff are known for their expertise across the field of linguistics, and have been involved in a wide range of research collaborations.

POSTGRADUATE STUDY

Bachelor of Arts (Honours)
Duration 1 year full-time, part-time available
Campus City
Starts 26 Feb & 15 Jul 2024

Postgraduate Diploma in Arts
Duration 1 year full-time, part-time available
Campus City
Starts 26 Feb & 15 Jul 2024

Master of Arts
Duration 2 years full-time, part-time available
Campus City
Starts 26 Feb & 15 Jul 2024

Doctor of Philosophy
Duration 3-6 years
Campus City
Starts 1 Feb, 1 May, 1 July & 1 Oct 2024

“One of the main highlights for me was the opportunity to study in such a diverse environment. Coming from Argentina, I had never been in a classroom where so many languages and cultures were represented. I made friends who are now dear colleagues. Because some of the courses in the graduate diploma were shared with New Zealand Sign Language and Deaf Studies students, I also got to learn about Deaf culture. As a community interpreter, I sometimes work in the courts, at appointments with a variety of medical specialists, family and employment mediation processes, and immigration interviews. I learn so much from each assignment and I feel like I can do something for my community here in Aotearoa.”

Agustina Marianacci
Freelance Translator and Interpreter
Master of Language and Culture
Graduate Diploma in Arts

"Living with a Deaf mother, as well as having a Deaf uncle and grandparents, and an aunt who is an NZSL interpreter have definitely been guiding influences in the decision to become an interpreter. As a CODA, I already had some understanding of the day-to-day injustices Deaf individuals face. However, one lecture at AUT had a particularly powerful impact on me. It was a presentation on the experience of Deaf people in New Zealand’s criminal justice system. Never before had there been the extent of the lack of equality for Deaf people been so clear to me. It inspired me to become a part of achieving a better, fairer and more equal life experience for Deaf people.”

Byron Gibbons
New Zealand Sign Language Interpreter, Wellington
Bachelor of Arts in New Zealand Sign Language – English Interpreting

1 Business courses also available at the South Campus
With a reputation for the quality of its programmes, the AUT Law School offers a distinctive, professionally focused legal education that enables you to make a positive impact on the world. Our programmes are designed to maximise your career opportunities, and AUT law graduates are highly sought after by law firms, the public sector, community organisations and other employers. Our programmes have been developed in close consultation with the legal profession, and throughout your studies you’ll be taught by world-class academic staff who are widely recognised as experts in their field.
UNDERGRADUATE STUDY

Certificate in Legal Studies
- Duration: ½ year full-time, part-time available
- Campus: City & South
- Starts: 26 Feb 2024

Bachelor of Laws
- Duration: 4 years full-time, part-time available
- Campus: City & South
- Starts: 26 Feb 2024

Bachelor of Laws (Honours)
- Duration: 4½ years full-time

- Starts: 1 Feb, 1 May, 1 July & 1 Oct 2024

POSTGRADUATE STUDY

Doctor of Philosophy
- Duration: 3–6 years
- Campus: City
- Starts: 1 Feb, 1 May, 1 July & 1 Oct 2024

WORLD-LEADING RESEARCH

Our dedicated research centres ensure that we’re at the forefront of developments in the legal profession. The AUT Centre for Non-Adversarial Justice aims to identify and promote various models of justice under the broad banner of non-adversarial justice. The AUT Centre for Private Law facilitates research and debate across the entire spectrum of private law including tort law, contract law, the law of unjust enrichment, property law, equity and private international law. The AUT Centre for Indigenous Rights and Law aims to raise the visibility of legal rights, issues and customary law relevant to the native peoples of Aotearoa New Zealand and the Asia Pacific region.

Growing up, I didn’t know many lawyers who looked like me. I wanted to be on a platform where I could encourage more Pacific women to become lawyers, doctors, engineers and the like. This drive, coupled with my love of the English language, problem solving and desire to break glass ceilings, steered me in the direction of becoming a lawyer. I initially did an arts degree at another university, but the drive for law was always there, so I decided to return to study at AUT. I loved how friendly everyone was at AUT. The academic staff were so accessible and always willing to help, and many of my classmates were on a very similar journey to me."

Claudette Herman
Solicitor, Wells & Co
Bachelor of Laws

SOUTH CAMPUS

Located in the heart of Manukau, our South Campus is a unique response to our South Auckland community. We offer a smaller, family environment to help students transition to university. We work closely with the communities in the local area - including District Health Boards, schools, the legal sector and cultural organisations - to offer additional activities that enhance student life and contribute to the South Auckland region. You can choose from a wide range of programmes at all levels of study with the convenience of a campus located close to home.
MĀORI AND INDIGENOUS DEVELOPMENT
(TE ARA POUTAMA)

Māori and indigenous development at AUT is at the cutting edge of Māori media, culture, communication and language. Grounded in te ao Māori, our qualifications will prepare you to contribute in diverse ways in media, business, government, community and iwi organisations. Study with us and develop the skills to tell stories that matter to you, your whānau and the world. You’ll have access to our industry-standard equipment and the latest technology to create films, e-books and apps.

### WORLD-LEADING RESEARCH

We deliver leading research in a number of areas within Māori and indigenous development, working closely with academics and organisations from around New Zealand and the world. As a postgraduate student you work closely with academic staff who are known as experts in their field – from Māori business and entrepreneurship to Māori media and from Mātauranga Māori to New Zealand history and Te Tiriti o Waitangi.

"I did this degree because I wanted to learn new skills to be able to help my people, learn more about my culture and be able to use my biggest strengths as Māori in my personal and professional life. The atmosphere at AUT felt welcoming and colourful, and from the first day the staff and students were so supportive. Coming from a small town and a small school in the Hawke’s Bay, and then moving and studying in the Auckland CBD was so interesting, and I made some great friends while I was at AUT."

Maia Hemara-Tylden
Ngāpuhi, Ngāti Rangi
Member Success Intern/Kaitohutohu Pōtiki (Junior Cultural Support), Diversity Works New Zealand
Bachelor of Arts in Māori Development

"For one of my Māori media courses I conducted an audio interview about the concept of whānau. This enabled me to return home to the Hokianga and interview whānau, hapū and iwi about their stories surrounding the toheroa; a large but increasingly elusive shellfish. On completion of the assignment, I was encouraged to pitch my idea to a Māori film production company who helped me create my own documentary; ‘The Politics of Toheroa Soup’. I’m now hoping to combine the Māori development aspects of my first degree with health science to create better health outcomes for Māori.”

Tiana Pewhairangi Trego-Hall
Ngāti Whātua ki Kaipara, Te Rarawa, Tainui, Cook Island Māori
Graduate Diploma in Health Science student
Bachelor of Māori Development in Māori Media
Environmental sustainability, innovative food production, geospatial science and chemical synthesis techniques are some of the key ingredients that will shape the future world we live in. Study science with AUT and you’ll be prepared for a rewarding career in a wide range of industries and professions. Our collaboration with industry means that your study will be highly relevant to your career. Our research focuses on scientific issues of regional and global significance – research that makes a difference to the world we live in. AUT science alumni contribute to scientific innovation and world-leading research in many fields, and are highly sought-after by employers around the world.

WORLD-LEADING RESEARCH

Our globally renowned researchers are experts in areas as diverse as applied ecology, chemistry, biomedical science and food science. You have access to top facilities and equipment for your research, like aerial drones and marine research vessels. Our outstanding laboratories include the AUT Roche Diagnostics Laboratory – which has state-of-the-art medical and biomedical testing equipment, and is the only university lab of its kind in New Zealand.

“The practical aspects are what I’ve enjoyed the most about my time at AUT. For the research project in the third year of my Bachelor of Science I used traditional Indian spices as alternatives to artificial preservatives in processed meats, and for my honours research I optimised the cold-pressed extraction of avocado oil by using selected enzymes. These kinds of projects confirmed that a career in food science was what I wanted going forward. For my PhD, I’m focusing on a novel food product called yacon concentrate, which has a high concentration of natural fructooligosaccharides; sugar molecules which are excellent low-calorie alternative sweeteners.”

Keegan Chessum
Doctor of Philosophy candidate
Bachelor of Science (Honours) with First-Class Honours
Bachelor of Science in Food Science
If you want a rewarding career where you can make a difference, studying social sciences and public policy is the perfect start. At AUT you’ll study society at many levels – from individuals, families and communities, governments and cultures through to our global system. Our academic staff are research-active and globally known as experts in areas as diverse as economics, human rights, gender equality, ethnicity and race, identity, community development, social structure, social data analytics, and criminology and police. Study with us and you’ll gain an in-depth understanding about how and why people think and behave as they do; skills that are essential no matter where your career takes you.

POSTGRADUATE STUDY

WORLD-LEADING RESEARCH
We believe in high-quality research that has impact, and our world-class researchers have expertise across social sciences and social justice - from human rights and gender equality, to psychology, criminology and community development. As a postgraduate student, you work closely with some of New Zealand’s most widely known experts in social sciences and social justice. Our experienced lecturers constantly draw on their own international and New Zealand experience and research to inform their teaching. You could also benefit from the expertise of the Centre for Social Data Analytics, which applies strong data science to linked data, undertaking research that tells us new things about the human experience.

WORLD-LEADING RESEARCH

AUT is globally known for its leading sport and exercise science research. Our research covers sport and activity-related areas, as well as performance, nutrition, coaching and human potential. We’re proud to be the home of New Zealand’s top sport and fitness facility, AUT Millennium, which helps our communities be healthy and our top athletes become champions. Based at AUT Millennium, the Sports Performance Research Institute New Zealand (SPRINZ) is New Zealand’s number one sports research institute. Its world-class laboratory facilities and international reputation attract many overseas researchers and students to New Zealand, and SPRINZ research has received funding from organisations like the Health Research Council, Sport New Zealand and the World Health Organization.

“Landing this role and working at the Counties Manukau Rugby Football Union had been a dream of mine since I was younger. The opportunity to connect with the people of my region and give them my time and efforts is rewarding. I’m proud to have found a career where every day is different, and I can be happy and start each day with a smile. Throughout my studies at AUT I met some great people who were just as passionate about sport as I am. Graduating was a massive step for me, and I’m grateful to those who supported me along the way.”

Shaun Adam Atamu
Ngati Maniapoto, Niue
Secondary Schools Rugby Development Officer, Counties Manukau Rugby Football Union
Bachelor of Sport and Recreation in Physical Activity and Nutrition

“What I enjoyed most about studying at AUT were the relationships I built with my lecturers and classmates. From my first day at AUT I’ve felt so welcomed and supported, and my postgraduate degree was no exception. The lecturers want the best for you and they want to know about you, which makes you feel valued and encourages you to strive for your best. It’s an awesome community! I also loved all the opportunities to gain industry experience and connections throughout the programme.”

Hanne Mellsop
Senior Leader for Programmes, Sir Peter Blake Marine Education and Recreation Centre (MERC)
Master of Sport, Exercise and Health
Bachelor of Sport and Recreation in Outdoor Education & Bachelor of Business in Marketing
How to apply

Below is the step-by-step guide to the application process.
For more information visit aut.ac.nz/apply

1 Apply early

Places are limited. Submit your application well before the semester starts.

Applying for 2024
- Semester 1
  - apply by 4 December 2023
- Semester 2
  - apply by 6 May 2024

Applying for the Master of Philosophy (MPhil) and Doctor of Philosophy (PhD)
If you're planning to enrol in a Master of Philosophy (MPhil) or Doctor of Philosophy (PhD) at AUT, email the Graduate Research School

doctoral.and.mphil.admissions@aut.ac.nz

2 Complete the application form

- Apply online
- Indicate your programme(s) of choice and major (if known)

International students can also apply using an AUT approved international agent. For a list of AUT registered agents visit aut.ac.nz/international-agents

3 Accept your offer

It's important that you respond as soon as possible, particularly if you've been offered a place in a programme with limited places.

We assess your application

- We assess your application to ensure you have met the entry criteria for the programme(s) you are applying for
- We consider your academic history and relevant experience to ensure you can succeed in your programme
- We let you know if your application has been successful

Possible outcomes

Confirmed
We would like to offer you a place to study at AUT

Provisional
You have met some of the criteria for entry to your chosen programme of study and we would like to offer you a provisional place to study at AUT. If you don't meet the rest of the requirements, then this offer will be withdrawn

Conditional
You have to meet the conditions and approvals listed in your conditional offer to be able to secure a formal offer of place

Declined
If you don't meet the entry requirements or all places are taken, we may offer you an alternative programme

He pēhea te tono

ENTRY REQUIREMENTS

All applicants need to meet AUT’s minimum entry requirements. Because of competition for places, you may need to have more than the minimum entry requirements for admission to some programmes. Entry requirements for each programme you can study at AUT are listed on the AUT website. The information below serves as a guide only.

For more information and specific entry requirements for each programme visit aut.ac.nz

University admission to AUT bachelor’s degrees

For New Zealand citizens and residents and international students studying in a high school in New Zealand

To gain admission to bachelor’s degrees, you must have met the requirements for University Entrance plus any specified admission requirements for a programme, such as specific subjects, portfolios and interviews.

For more information on entry requirements, including entry requirements for international students visit aut.ac.nz/entryrequirements

Certificates and diplomas

Entry requirements for certificates and diplomas vary by programme. You can find specific entry requirements for your chosen programme on our website aut.ac.nz

Graduate certificates and graduate diplomas

You generally need to have completed an undergraduate qualification for entry to a graduate certificate or diploma. You can find specific entry requirements for your chosen programme on our website aut.ac.nz

Postgraduate programmes

Entry requirements for AUT postgraduate programmes vary. You can find specific entry requirements on the programme page for your chosen programme on our website aut.ac.nz

Minimum entry requirements are generally a successfully completed bachelor’s degree in the same area of study from a recognised university. You may also be required to provide evidence of relevant work/research experience.

If you’re planning to undertake a thesis, a research proposal will also be required.

Common University Entrance requirements

Where programmes require a specific subject, it is expected that a student will have achieved a minimum of 14 NCEA credits in that subject (or equivalent), unless indicated otherwise. For a list of NCEA approved subjects for University Entrance visit the NZQA website, nzqa.govt.nz

1. NZ Tariff (based on old UCAS Tariff) = system which converts AS and A level grades into points.
2. IGCSE = International General Certificate of Secondary Education.
3. New Zealand residents who have taken IB but have not been awarded the Diploma may apply for discretionary entrance.
Find out what it costs
Cost is an important factor when thinking about university study. Visit our website aut.ac.nz/fees to get an idea of the approximate tuition fees at AUT, and different options to help you fund your education including scholarships, student loans and allowances.

The 2024 tuition fees will be advertised on aut.ac.nz/fees as soon as they have been set.

Free fees for your university study
Eligible domestic students starting tertiary education receive one year of full-time study fees-free¹.
To check if you’re eligible for fees-free study in 2024 visit aut.ac.nz/fees
¹ For domestic students only, not available to international students.

Financial assistance
We know that sometimes things happen and financial stress can impact your academic success. That’s why we offer financial support that ranges from offering grocery or fuel vouchers, to helping with that unexpected bill.

Scholarships and awards
Scholarships and awards are a great way to fund your university study. There is a wide range of scholarships and awards available to AUT students at all stages of their study. Visit the scholarships website for a current list of scholarships offered by AUT and external funders, as well as application forms and closing dates.
You can also contact AUT’s Scholarships Office for advice on scholarships, awards and the scholarship application process.
Call +64 9 921 9837 or visit aut.ac.nz/scholarships

Student loans and allowances¹
If you’re a full-time domestic student, you may qualify for a student loan or allowance. Student loans and allowances are administered and paid by StudyLink. The application process can take some time, so it’s a good idea to apply early. You can apply for a student loan or student allowance before your enrolment at AUT is complete.
Call 0800 88 99 00 or visit studylink.govt.nz
¹ For domestic students only, not available to international students.

Visit our website
To find out more about study at AUT, including more details about our programmes and the courses you could study, entry requirements, and information about academic staff and their areas of expertise visit aut.ac.nz

Need some help?
Visit aut.ac.nz/enquire, ask us your question and we’ll call you back. Or you can phone 0800 AUT AUT (0800 288 288) to speak to one of our friendly advisors. We can help with any questions you may have, and you could also book a course counselling session or a campus tour.
